

You Can Speak to a Million People Every Evening

At the first glance this statement appears so startling that one might take it for a bit of exaggeration. But it is not; it is literally true. Here is the proof: The Chicago Daily News sold during the first eleven months of 1906 a daily average of 318,611 papers. Many newspapers estimate that an average of five people read each copy of a newspaper, but, to be conservative, let it be assumed that the number of people who daily read these 318,611 papers averages three and one-half. This would place the number of Daily News readers at 1,115,139—manifestly a fair figure.

There are about 500 branch offices of The Daily News in Chicago and its surrounding suburbs for the convenience of "want" advertisers. But Daily News "want ads" are also used regularly or transiently by many people throughout the United States and in foreign countries. Ordinarily "want ads" from distant cities will receive good service if sent by mail, but for quick action in an emergency they should be sent by telegraph or cable. If you do not wish to use your own name and address in your advertisement, you can have all replies sent to a box number (which the paper will supply) in care of The Daily News and, on your request, such replies will be forwarded to you promptly by mail or express.

You will be surprised to learn how thoroughly these little ads are read by the million daily readers of The Daily News. And they don't cost much.

PREFACE.

Many things occurred in 1906 concerning which questions will be frequently asked in the future. Among the events of world-wide or national importance these may be mentioned: The failure of the first national assembly in Russia, the Morocco conference at Algeciras, the passage of a bill by the British house of commons changing the school system of the country, the temporary downfall of the Cuban republic, the eruption of Mount Vesuvius, the earthquakes and fires in San Francisco, Cal., and Valparaiso, Chile; the passing of the railroad rate, meat inspection, pure food and other notable laws by the American congress, the admission into the union of Oklahoma and Indian Territory as one state, the legal proceedings by the government against the beef, oil and other trusts, and the election of a new congress. It would be easy to extend the list, as a glance at the index to this volume will show, but nothing more is needed to prove that the history of the year was of exceptional interest and that a book giving data relating to it should be of value to those who do not have the time or facilities to search through newspaper files, magazines and other periodicals for the information they desire. While much space has necessarily been devoted to historical matters the regular chronological, statistical, political and other features of *The Daily News Almanac and Year-Book*, whether relating to national, state or local affairs, have been given careful attention. With the end in view of making the facts and figures presented not only comprehensive but reliable and up to date, they have as usual been obtained as far as possible from official and original sources.

Chicago Daily News Almanac and Year-Book. 1907.

NOTE.—The time given in this Almanac is local mean time, except when otherwise indicated.

ECLIPSES.

In the year 1907 there will be four eclipses, two of the Sun and two of the Moon, and a transit of Mercury over the Sun's disk.

I.—A Total Eclipse of the Sun, January 14. Invisible. Visible to Asia, eastern Europe, and a portion of the Philippine Islands.

II.—A Partial Eclipse of the Moon, January 29. Visible in part to portions of North America, and as a whole to Asia, Australia, and the Pacific and Indian Oceans.

III.—An Annular Eclipse of the Sun, July 10. Invisible. Visible to South America and the Southern Atlantic and Pacific Oceans.

IV.—A Partial Eclipse of the Moon, July 24-25. Visible to North and South America, the Atlantic and Pacific Oceans, and in part to the western portions of Europe and Africa.

V.—A Transit of Mercury, November 14. Visible generally to Europe, Africa and South America, and in part to the eastern portions of North America, the western portions of Asia, and the extreme western edge of Australia.

NOTE—To ascertain any day of the week first look in the table for the year required and under the months are figures which refer to the corresponding figures at the head of the columns of days below. For Example: To know on what day of the week July 4 was in the year 1855, in the table of years look for 1855, and in a parallel line, under July, is figure 1, which directs to column 1, in which it will be seen that July 4 falls on Thursday.
 *1752 same as 1772 from Jan. 1 to Sept. 2. From Sept. 14 to Dec. 31 same as 1780 (Sept. 3-13 were omitted).—This Calendar is from *Whitaker's London Almanack*, with some revisions.

HIGHEST CHIMNEY IN THE UNITED STATES.

The highest chimney in the United States is that of the Orford-Cooper company at Bayonne, N. J. It is 365 feet high. A chim-

ney belonging to the plant of the Heller & Merz company in Newark, N. J., comes next with a height of 350 feet.

ECLIPSES OF THE MOON JAN. 29 AND JULY 24-25, 1907.

See page 3 for list of eclipses in 1907.

The central standard time of the visible phases of the eclipse of the moon Jan. 29 and all of the phases of the eclipse of the moon July 24-25, 1907, and a figure showing the course of the moon through the earth's shadow, are herewith given.

Eclipse of Jan. 29: Moon enters penumbra at a at 4:46 a. m.; moon enters umbra at b

Eclipse of July 24-25: Moon enters penumbra at a at 7:59 p. m., July 24; moon enters umbra at b at 9:04 p. m.; middle of eclipse (c) 10:22 p. m.; moon leaves umbra at d at 11:41 p. m.; moon leaves penumbra at e at 0:46 a. m., July 25.

This eclipse will be upon the northern limb of the moon, as shown in the figure,

at 6:06 a. m.; middle of eclipse (c), 7:38 a. m. The remainder of this eclipse takes place after the rising of the sun and the setting of the moon and will therefore be invisible. The size of the eclipse is 8.5 digits, the moon's apparent diameter being taken as 12 digits.

the moon passing through the southern portion of the earth's shadow, eclipsing 7.4 of her 12 digits of apparent diameter. The diminution of light while the moon is in the penumbra or light shadow will be slight, the real eclipse beginning as the moon enters the dark shadow.

TRANSIT OF MERCURY.

A transit of the planet Mercury over the sun's disk will occur Nov. 14. The sun will rise with Mercury well advanced on the journey across his face. Look for a black spot well to the north of the sun's center.

He will pass off at the eastern limb of the sun at 8 a. m.

Caution—Use smoked or colored glass in observing; otherwise serious damage to the eyes is probable.

UNITED STATES LIFE-SAVING SERVICE.

The life-saving establishment at the close of the fiscal year ended June 30, 1905, comprised 277 stations, of which 200 were on the Atlantic and gulf coasts, 61 on the coasts of the great lakes, 16 on the Pacific coast and 1 on the Ohio river at Louisville, Ky. The crews numbered in all about 300 men. Statistics of the service for the year ended June 30, 1905, and from Nov. 1, 1871, when the system was established, to June 30, 1905, follow:

	1905.	1871-1905.
Disasters	785	15,631
Value vessels.....	\$7,997,225	\$161,023,500
Value cargoes.....	\$2,588,125	\$66,619,059

	1905.	1871-1905.
Property involved.....	\$10,585,350	\$227,642,559
Property saved.....	\$8,175,410	\$179,758,512
Property lost.....	\$2,409,940	\$47,884,047
Persons on board.....	5,044	111,056
Persons lost.....	37	1,098
Persons succored.....	624	18,930
Days' succor given.....	1,510	45,828

The total number of disasters on the lake coasts in the course of the year ended June 30, 1905, was 260; value of property involved, \$3,801,750; property saved, \$3,547,550; property lost, \$254,200; persons on board, 1,183; persons lost, 4; persons succored at stations, 91; days' succor afforded, 132.

MARS NEAREST THE EARTH.

The planet Mars will attract the attention of the world in 1907 because of the fact that he will approach nearer to us than he has been within the last fifteen years or will be again in the following fifteen years. The reason for this will be understood by an inspection of the annexed figure. When the points C (aphelion) in the earth's orbit and A (perihelion) in Mars' orbit come in line with the sun, then the earth and Mars will be the nearest possible. A moderately close

approach to these conditions occurs every fifteen years. In 1907, on July 12, these planets will occupy the positions in their respective orbits E and F. On July 5 the earth will be at C or farthest from the sun, and on Sept. 26 Mars will be at A, or nearest to the sun. It is apparent that there must be a point between A and C where these bodies are in line with the sun and where they will be nearest, and as has been said this occurs at E and F.

STANDARD AND LOCAL MEAN TIME.

In 1883 the United States and Canada agreed to adopt, chiefly for the convenience of the railroads, a standard of time. For this purpose the country was divided into four sections or zones, each fifteen degrees of longitude in width, equivalent to one hour. These sections were designated as the eastern, central, mountain and Pacific. The eastern is based on the 75th, the central on the 90th, the mountain on the 105th and the Pacific on the 120th meridian. All places within seven and one-half degrees of longitude on each side of these meridians have the same standard time, but only those on the meridians themselves have the same standard and local mean or solar time. The local mean time of other places varies according to the distance east or west of the meridians. East it is later, west earlier. Chicago, for instance, is in west longitude 87 degrees 38 minutes, or 2 degrees and 22 minutes east of the 90th meridian. Each degree of latitude being equal to 4 minutes of time, the city's local mean time is consequently about 9 minutes earlier than standard time. In other words, when it is 12 o'clock noon in Chicago by standard time it is 11:51 a. m. by local mean or solar time. The difference between the standard and local time of the principal cities of the United States is shown in the following table:

DIFFERENCE IN TIME.

By noting the variation in time between the cities representing the eastern, central, mountain and Pacific divisions in the United States and those in Alaska, Hawaii, Porto Rico and the Philippines and in foreign countries the variation in time between all the other cities in the United States and the places named may be easily calculated. The time in all cases except where otherwise specified is local or actual time.

When it is 12 o'clock noon on Monday, eastern time, in New York, the corresponding time in the cities named below is:

Chicago (central time)	11:00 a. m., Monday
Denver (mountain time)	10:00 a. m., Monday
S. Francisco (Pac. time)	9:00 a. m., Monday
Sitka, Alaska	7:58 a. m., Monday
Honolulu	6:28 a. m., Monday
Havana, Cuba	11:30 a. m., Monday
San Juan, Porto Rico	12:35 p. m., Monday
Dublin	4:34 p. m., Monday
Edinburgh	4:47 p. m., Monday
London	5:00 p. m., Monday

Paris	5:09 p. m., Monday
Berlin	5:53 p. m., Monday
Vienna	6:05 p. m., Monday
Rome	5:49 p. m., Monday

EXPLOSION ON THE KEARSARGE.

By the explosion of a charge of powder in the forward turret of the battleship Kearsarge, U. S. N., April 13, 1906, two officers and five seamen were killed and one seaman was injured. The accident occurred just after

target practice, the ship at the time being off the southeastern coast of Cuba. The powder was being sent below when in some unexplained way it became ignited.

WEATHER FORECASTS AND SIGNALS.

The weather bureau of the United States department of agriculture publishes daily more than 100,000 weather bulletins, not counting the forecasts in the newspapers. Most of these bulletins are in the form of postal cards printed by postmasters from telegraphic reports and sent by them to outlying towns for display at suitable points. There is also an elaborate system of

redistribution by means of telephones and railroads from established centers, so that there are comparatively few accessible places which do not now receive daily weather forecasts within a very short time after the observers have completed their work. The old system of conveying information about the weather by means of flag displays is also in general use.

EXPLANATION OF WEATHER FLAGS.

No. 1. White flag.

Clear or fair weather.

No. 2. Blue flag.

Rain or snow.

No. 3. White and blue flag.

Local rain or snow.

No. 4. Black triangular flag.

Temperature.

No. 5. White flag with black square in center.

Cold wave.

When No. 4 is placed above No. 1, 2 or 3 it indicates warmer; when below, colder; when not displayed, the temperature is expected to remain about stationary. During the late spring and early fall the cold-wave flag is also used to indicate anticipated frosts.

EXPLANATION OF STORM-WARNING FLAGS.

Northwest winds.

Southwest winds.

Northeast winds.

Southeast winds.

"Hurricane" signal.

A red flag with a black center indicates that a storm of marked violence is expected. The pennants displayed with the flags indicate the direction of the wind: Red, easterly (from northeast to south); white, westerly (from southwest to north). The pennant above the flag indicates that the wind is expected to blow from the northerly quadrants; below, from southerly quadrants.

By night a red light indicates easterly winds and a white light above a red light westerly winds.

Two red flags, with black centers, displayed one above the other, indicate the expected approach of tropical hurricanes, and also of those extremely severe and dangerous storms which occasionally move across the lakes and northern Atlantic coast. Hurricane warnings are not displayed at night.

THERMOMETERS COMPARED.

There are three kinds of thermometers, with varying scales, in general use throughout the world—the Fahrenheit, Reaumur and centigrade. The freezing and boiling points on their scales compare as follows:

Thermometer.	Freezing pt.	Boiling pt.
Fahrenheit	32 degrees	212 degrees
Reaumur	zero	80 degrees
Centigrade	zero	100 degrees

The degrees on one scale are reduced to their equivalents on another by these formulas:

Fahrenheit to Reaumur—Subtract 32, multiply by four-ninths.

Fahrenheit to Centigrade—Subtract 32, multiply by five-ninths.

Reaumur to Fahrenheit—Multiply by nine-fourths, add 32.

Reaumur to Centigrade—Multiply by five-fourths.

Centigrade to Fahrenheit—Multiply by nine-fifths, add 32.

Centigrade to Reaumur—Multiply by four-fifths.

WEDDING ANNIVERSARIES.

First—Cotton.
Second—Paper.
Third—Leather.
Fifth—Wooden.
Seventh—Woolen.

Tenth—Tin.
Twelfth—Silk and fine linen.
Fifteenth—Crystal.
Twentieth—China.
Twenty-fifth—Silver.

Thirtieth—Pearl.
Fortieth—Ruby.
Fiftieth—Gold.
Seventy-fifth—Diamond.

The national holidays, such as July 4, New Year's, etc., are such by general custom and observance and not because of congressional legislation. Congress has passed no laws establishing holidays for the whole country. It has made Labor day a holiday in the District of Columbia, but the law is of no effect elsewhere.

REGISTRATION OF TRADE-MARKS.

Under the law passed by congress Feb. 20, 1905, and effective April 1, 1905, citizens of the United States, or foreigners living in countries affording similar privileges to citizens of the United States, may obtain registration of trade-marks used in commerce with foreign nations, or among the several states, or with Indian tribes, by complying with the following requirements: First, by filing in the patent office an application therefor in writing, addressed to the commissioner of patents, signed by the applicant, specifying his name, domicile, location and citizenship; the class of merchandise and the particular description of goods comprised in such class to which the trade-mark is appropriated; a statement of the mode in which the same is applied and affixed to goods, and the length of time during which the trade-mark has been used. With this statement shall be filed a drawing of the trade-mark, signed by the applicant or his attorney, and such number of specimens of the trade-mark as may be required by the commissioner of patents. Second, by pay-

ing into the treasury of the United States the sum of \$10 and otherwise complying with the requirements of the law and such regulations as may be prescribed by the commissioner of patents.

The application must be accompanied by a written declaration to the effect that the applicant believes himself to be the owner of the trade-mark sought to be registered and that no other person or corporation has the right to use it; that such trade-mark is in use and that the description and drawing presented are correct. Trade-marks consisting of or comprising immoral or scandalous matter, the coat of arms, flag or other insignia of the United States or of any state or foreign nation cannot be registered. Fees for renewal of trade-marks and for filing opposition to registration are \$10 each; for appeals from examiners to the commissioner of patents, \$15 each.

Further information regarding the trade-mark law may be had by applying to the commissioner of patents, Washington, D. C.

UNITED STATES COINAGE MINTS AND ASSAY OFFICES.

Coinage mints of the United States are located in Philadelphia, Pa.; New Orleans, La.; San Francisco, Cal.; and Denver, Col. The government assay offices are in New York, N. Y.; Carson, Nev.; Denver, Col.; Boise, Idaho; Helena, Mont.; Charlotte,

N. C.; St. Louis, Mo.; Deadwood, S. D., and Seattle, Wash. The mint in Philadelphia was established in 1792 and the others as follows: New Orleans, 1838; San Francisco, 1852, and Denver, 1904.

UNITED STATES CIVIL SERVICE.

Civil-service act approved Jan. 16, 1883.

Officers—Three commissioners are appointed by the president to assist him in classifying the government offices and positions, formulating rules and enforcing the law. Their office is in Washington, D. C. The chief examiner is appointed by the commissioners to secure accuracy, uniformity and justice in the proceedings of the examining boards. The secretary to the commission is appointed by the president.

General Rules—The fundamental rules governing appointments to government positions are found in the civil-service act itself. Based upon these are many other regulations formulated by the commission and promulgated by the president from time to time as new contingencies arise. The present rules were approved March 20, 1903, and went into effect April 15, 1903. In a general way they require that there must be free, open examinations of applicants for positions in the public service; that appointments shall be made from those graded highest in the examinations; that appointments to the service in Washington shall be apportioned among the states and territories according to population; that there shall be a period (six months) of probation before any absolute appointment is made; that no person in the public service is for that reason obliged to contribute to any political fund or is subject to dismissal for refusing to so contribute; that no person in the public service has any right to use his official authority or influence to coerce the political action of any person. Applicants for positions shall not be questioned as to their political or religious beliefs and no discrimination shall be exercised against or in favor of any applicant or employe on account of his religion or politics. The classified civil service shall include all officers and employes in the executive civil service of the United States except laborers and persons whose appointments are subject to confirmation by the senate.

Examinations—These are conducted by boards of examiners chosen from among persons in government employ and are held twice a year in all the states and territories at convenient places. In Illinois, for example, they are usually held at Cairo, Chicago and Peoria. The dates are announced through the newspapers or by other means. They can always be learned by applying to the commission or to the nearest postoffice or custom house. Those who desire to take examination are advised to write to the commission in Washington for the "Manual of Examinations," which is sent free to all applicants. It is revised semi-annually to Jan. 1 and July 1. The January edition contains a schedule of the spring examinations and the July edition contains a schedule of the fall examinations. Full information is given as to the methods and rules governing examinations, manner of making application, qualifications required, regulations for rating examination papers, certification for and chances of appointment, and as far as possible it outlines the scope of the different subjects of general and technical examinations. These are practical in character and are designed to

test the relative capacity and fitness to discharge the duties to be performed. It is necessary to obtain an average percentage of 70 to be eligible for appointment, except that applicants entitled to preference because of honorable discharge from the military or naval service for disability resulting from wounds or sickness incurred in the line of duty need obtain but 65 per cent. The period of eligibility is one year.

Qualifications of Applicants—No person will be examined who is not a citizen of the United States; who is not within the age limitations prescribed; who is physically disqualified for the service which he seeks; who has been guilty of criminal, infamous, dishonest or disgraceful conduct; who has been dismissed from the public service for delinquency and misconduct or has failed to receive absolute appointment after probation; who is addicted to the habitual use of intoxicating liquors to excess, or who has made a false statement in his application. The age limitations in the more important branches of the public service are: Post-office, 18 to 45 years; rural letter carriers, 17 to 55; internal revenue, 21 years and over; railway mail, 18 to 35; lighthouse, 18 to 50; life saving, 18 to 45; general departmental, 20 and over. These age limitations are subject to change by the commission. They do not apply to applicants of the preferred class. Applicants for the position of railway mail clerk must be at least 5 feet 6 inches in height, exclusive of boots or shoes, and weigh not less than 135 pounds in ordinary clothing and have no physical defects. Applicants for certain other positions have to come up to similar physical requirements.

Method of Appointment—Whenever a vacancy exists the appointing officer makes requisition upon the civil-service commission for a certification of names to fill the vacancy, specifying the kind of position vacant, the sex desired and the salary. The commission thereupon takes from the proper register of eligibles the names of the three persons standing highest of the sex called for and certifies them to the appointing officer, who is required to make the selection. He may choose any one of the three names, returning the other two to the register to await further certification. The time of examination is not considered, as the highest in average percentage on the register must be certified first. If after a probationary period of six months the name of the appointee is continued on the roll of the department in which he serves the appointment is considered absolute.

Removals—No person can be removed from a competitive position except for such cause as will promote the efficiency of the public service and for reasons given in writing. No examination of witnesses nor any trial shall be required except in the discretion of the officer making the removal.

Salaries—Entrance to the departmental service is usually in the lowest grades, the higher grades being generally filled by promotion. The usual entrance grade is about \$900, but the applicant may be appointed at \$840, \$760 or even \$600.

RATES OF POSTAGE AND MONEY ORDERS.

DOMESTIC.

Embraces the United States and island possessions, including Hawaii, Porto Rico, the Philippines, Guam and Tutuila.

FIRST CLASS.—Letters and all written or partly written matter, whether sealed or unsealed, and all other matter sealed or otherwise closed against inspection, 2 cents per ounce or fraction thereof. Postal cards issued by the government sold at 1 cent each; double, or reply cards, 2 cents each. Cards must not be changed or mutilated in any way and no printing or writing other than the address is allowable on the address side. "Private mailing cards" (post cards) require 1 cent postage. These cards must conform in shape and quality and weight of paper used to the cards issued by the government. Each card must be an unfolded piece of cardboard not exceeding 3 9-16 by 5 9-16 inches, not less than 2 15-16 by 4 5/8 inches, and must bear at the top of the address side the words "Post Card." Advertisements and illustrations may be printed on either side provided they do not interfere with the distinctness of the address or postmark.

Among the articles requiring first-class postage are blank forms filled out in writing; certificates, checks and receipts filled out in writing; copy (manuscript or type-written) unaccompanied by proof sheets; plans and drawings containing written words, letters or figures; price lists containing written figures changing individual items; old letters sent singly or in bulk; typewritten matter and manifold copies thereof, and stenographic notes.

SECOND CLASS.—All regular newspapers, magazines and other periodicals issued at stated intervals not less frequently than four times a year, when mailed by publishers or news agents, 1 cent a pound or fraction thereof; when mailed by others, 1 cent for each four ounces or fractional parts thereof.

THIRD CLASS.—Books, circulars, pamphlets and other matter wholly in print (not included in second-class matter), 1 cent for each two ounces or fractional part thereof. The following named articles are among those subject to third-class rate of postage: Almanacs, architectural designs, blue prints, bulbs, seeds, roots, scions and plants, calendars, cards, press clippings with name and date of papers stamped or written in, engravings, samples of grain in its natural condition, imitation of hand or type written matter when mailed at postoffice window in a minimum number of twenty identical copies separately addressed; insurance applications and other blank forms mainly in print; printed labels, lithographs, maps, music books, photographs, tags, proof sheets, periodicals having the character of books, and publications which depend for their circulation upon offers of premiums.

FOURTH CLASS.—All matter not in the first, second or third class, which is not in its form or nature liable to destroy, deface or otherwise damage the contents of the mailbag or harm the person of any one engaged in the postal service, 1 cent an ounce or fraction thereof. Included in fourth-class mail matter are the following articles: Blank books, blank cards or paper, blotters, playing cards, celluloid, coin, crayon pic-

tures, cut flowers, metal or wood cuts, drawings, dried fruit, dried plants, electrotype plates, framed engravings, envelopes, geological specimens, letterheads, cloth maps, samples of merchandise, metals, minerals, napkins, oil paintings, paper bags or wrapping paper, photograph albums, printed matter or other material than paper, queen bees properly packed, stationery, tintypes, wall paper and wooden rulers bearing printed advertisements.

UNMAILABLE MATTER.—Includes that which is prohibited by law, regulation or treaty stipulation and that which by reason of illegible or insufficient address cannot be forwarded to destination. Among the articles prohibited are poisons, explosives or inflammable articles, articles exhaling bad odors, vinous, spirituous and malt liquors, specimens of disease germs, lottery letters and circulars, indecent and scurrilous matter.

SPECIAL DELIVERY.—Any article of mailable matter bearing a 10-cent special delivery stamp in addition to the regular postage is entitled to immediate delivery on its arrival at the office of address between the hours of 7 a. m. and 11 p. m., if the office be of the free-delivery class; and between the hours of 7 a. m. and 7 p. m., if the office be other than a free-delivery office.

REGISTRATION.—All mailable matter may be registered at the rate of 8 cents for each package in addition to the regular postage, which must be prepaid. An indemnity not to exceed \$10 for any one piece, or the actual value if less than \$10, will be paid for the loss of first-class registered matter.

LIMITS OF WEIGHT.—No package of third or fourth class matter weighing more than four pounds, except single books, will be received for conveyance by mail. The limit of weight does not apply to second-class matter mailed at the second-class rate of postage, or at the rate of 1 cent for each four ounces, nor is it enforced against matter fully prepaid with postage stamps affixed at the first-class or letter rate of postage.

MONEY-ORDER FEES.—For domestic money orders in denominations of \$100 or less the following fees are charged:

For orders for sums not exceeding \$2.50..	3c
For over \$2.50 and not exceeding \$5.....	5c
For over \$5 and not exceeding \$10.....	8c
For over \$10 and not exceeding \$20.....	10c
For over \$20 and not exceeding \$30.....	12c
For over \$30 and not exceeding \$40.....	15c
For over \$40 and not exceeding \$50.....	18c
For over \$50 and not exceeding \$60.....	20c
For over \$60 and not exceeding \$75.....	25c
For over \$75 and not exceeding \$100.....	30c

SUGGESTIONS.—Direct your mail matter to a postoffice, writing the name of the state plainly, and if to a city, add the street and number or postoffice box of the person addressed. Write or print your name and address, and the contents, if a package, upon the upper left-hand corner of all mail matter. This will insure the immediate return of all first-class matter to you for correction, if improperly addressed or insufficiently paid; and if it is not called for at destination it can be returned to you without going to the dead-letter office. If a letter, it will be returned free. Undelivered second, third and fourth class matter will not

be forwarded or returned without a prepayment of postage. When a return card appears on this matter either the sender or addressee is requested to send the postage. Register all valuable letters and packages.

FOREIGN.

Mail matter may be sent to any foreign country subject to the following rates and conditions:

REGISTRATION.—Eight cents additional to ordinary postage on all articles to foreign countries.

ON LETTERS.—Five cents for each half ounce or fraction thereof—prepayment optional except as to Canada and Mexico. Double rates are collected on delivery of unpaid or short-paid letters.

POST CARDS.—Single, 2 cents each; with paid reply, 4 cents each.

"PRIVATE MAILING CARDS" (Post Cards).—Two cents each, subject to conditions governing domestic post cards.

On newspapers, books, pamphlets, photographs, sheet music, maps, engravings and similar printed matter, 1 cent for each two ounces or fraction thereof. Prepayment required at least in part.

To CANADA (including Nova Scotia, New Brunswick, Manitoba and Prince Edward Island)—Letters, 2 cents for each ounce or fraction thereof; postal cards, 1 cent each; books, circulars and similar printed matter, 1 cent for each two ounces or fraction thereof; second-class matter, same as in the United States; samples of merchandise, 1 cent for each two ounces. Minimum postage, 2 cents. Merchandise, 1 cent for each ounce or fraction. Packages must not exceed four pounds in weight—prepayment compulsory.

CUBA.—Rates of postage same as to the United States.

To MEXICO.—Letters, postal cards and printed matter, same rates as in the United States; samples, 1 cent for each two ounces; 2 cents the least postage on a single package; merchandise other than samples can be sent only by parcels post.

To SHANGHAI, CHINA.—Letters, 2 cents an ounce or fraction thereof.

LIMITS OF SIZE AND WEIGHT.—Packages of samples of merchandise to foreign countries must not exceed twelve ounces, nor measure more than twelve inches in length, eight in breadth and four in depth; and packages of printed matter must not exceed four pounds six ounces.

PARCELS POST.

Unsealed packages of mailable merchandise may be sent by parcels post to Jamaica, including the Turks and Caicos islands, Barbados, the Bahamas, British Honduras, Guatemala, republic of Honduras, Mexico, the Leeward islands, New Zealand, Nicaragua, the republic of Colombia, Salvador, Costa Rica, the Danish West India islands—St. Thomas, St. Croix and St. John—British Guiana, the Windward islands, Newfoundland, Trinidad, including Tobago, and Germany at the postage rate and subject to the conditions herein prescribed. Parcels may also be sent to Chile and Venezuela, subject to these conditions, at the rate of 20 cents per pound or fractional part thereof. Limit of weight.....11 pounds
Greatest length.....3 feet 6 inches
Postage.....12c a pound or fraction thereof
Greatest length and girth combined...6 feet

Except that parcels for Colombia, Costa Rica and Mexico must not measure more than two feet in length or more than four feet in girth.

A parcel must not be posted in a letter box, but must be taken to the postoffice window and presented to the person in charge, between the hours of 9 a. m. and 5 p. m., where a record will be made and a receipt given therefor.

ATTEMPTED ASSASSINATION OF KING ALFONSO.

Immediately after the marriage of King Alfonso of Spain to Princess Ena of Battenberg in Madrid, May 31, 1906, as the royal couple were driving back from the church to the palace, a bomb concealed in a bouquet was thrown from the third story of a house in the Calle Mayer. The missile was slightly deflected by an electric wire, but it fell near the carriage occupied by the king and queen and exploded, killing twenty-seven persons and wounding nearly 100 more. The royal pair escaped all injury, though their coach was damaged and the horses attached to it were killed. Among the persons slain were the marquise of Tolosa, her daughter,

cousin and niece, four officers of the escort, the king's groom, several soldiers and a number of citizens. The wounded included the king's equerry (the duke of Satomayer) and Gen. Weyler.

It was soon learned that the room from which the bomb was thrown had been rented for the occasion by a man named Manuel Morales. Sunday evening, June 3, he was arrested in a suburb of Madrid as he was about to take a train for Barcelona, his home, but he shot and killed his captor and then committed suicide. Morales was an avowed anarchist.

APPLICATIONS FOR PATENTS.

[Condensed from Rules of Practice in the United States patent office.]

A patent may be obtained by any person who has invented or discovered any new and useful art, machine, manufacture, or composition of matter, or any new and useful improvement thereof not previously patented or described in this or any other country, for more than two years prior to his application, unless the same is proved to have been abandoned. A patent may also be obtained for any new design for a manufacture, bust, statue, alto-relievo or bas-relief; for the printing of woollen, silk or other fabrics; for any new impression, ornament, pattern, print or picture to be placed on or woven into any article of manufacture; and for any new, useful and original shape or configuration of any article of manufacture, upon payment of fees and taking the other necessary steps.

Applications for patents must be in writing, in the English language and signed by the inventor if alive. The application must include the first fee of \$15, a petition, specification and oath, and drawings, model or specimen when required. The petition must be addressed to the commissioner of patents and must give the name and full address of the applicant, must designate by title the invention sought to be patented, must contain a reference to the specification for a full disclosure of such invention and must be signed by the applicant.

The specification must contain the following in the order named: Name and residence of the applicant with title of invention; a general statement of the object and nature of the invention; a brief description of the several views of the drawings (if the invention admits of such illustration); a detailed description; claim or claims; signature of inventor and signatures of two witnesses. Claims for a machine and its product and claims for a machine and the process in the performance of which the machine is used must be presented in separate applications, but claims for a process and its product may be presented in the same application.

The applicant, if the inventor, must make oath or affirmation that he believes himself to be the first inventor or discoverer of that which he seeks to have patented. The oath or affirmation must also state of what country he is a citizen and where he resides. In every original application the applicant must swear or affirm that the invention has not been patented to himself or to others with his knowledge or consent in this or any foreign country for more than two years prior to his application, or on an application for a patent filed in any foreign country by himself or his legal representatives or assigns more than seven months prior to his application. If application has been made in any foreign country full and explicit details must be given.

The oath or affirmation may be made before any one who is authorized by the laws of his country to administer oaths.

Drawings must be on white paper with india ink and the sheets must be exactly 10x15 inches in size with a margin of one inch. They must show all details clearly and without the use of superfluous lines.

Applications for reissues must state why the original patent is believed to be defective and tell precisely how the errors were made. These applications must be accompanied by the original patent and an offer to surrender the same; or, if the original be lost, by an affidavit to that effect and certified copy of the patent. Every applicant whose claims have been twice rejected for the same reasons may appeal from the primary examiners to the examiners in chief upon the payment of a fee of \$10.

The duration of patents is for seventeen years except in the case of design patents, which may be for three and a half, seven or fourteen years as the inventor may elect.

Caveats or notices given to the patent office of claims to inventions to prevent the issue of patents to other persons upon the same invention, without notice to the caveators, may be filed upon the payment of a fee of \$10. Caveats must contain the same information as applications for patents.

In five states in 1892 the electoral vote was divided: California gave 8 electoral votes for Cleveland and 1 for Harrison and Ohio gave 1 for Cleveland and 22 for Harrison; in Michigan, by act of the legislature, each congressional district voted separately for an elector; in Oregon 1 of the 4 candidates for electors on the people's party ticket was also on the democratic ticket; in North Dakota 1 of the 2 people's party electors cast his vote for Cleveland, this causing the electoral vote of the state to be equally divided among Cleveland, Harrison and Weaver. In 1896 California gave 8 electoral votes to McKinley and 1 to Bryan; Kentucky gave 12 to McKinley and 1 to Bryan. In Maryland in 1904 seven of the presidential electors chosen were democrats and one republican.

NATIONAL PLATFORMS OF 1904.

Following are summaries of the principal features of the national party platforms adopted in 1904. The full texts will be found in *The Daily News Almanac and Year-Book for 1905*, beginning on page 126.

REPUBLICAN.—The platform advocates the principle of protection and reciprocity, the maintenance of the gold standard, the encouragement of the merchant marine, the upbuilding of the navy, the exclusion of Chinese labor, honest enforcement of the civil-service law, liberal administration of the pension laws, arbitration, the protection of American citizens abroad, the reduction of representation in congress and the electoral college of states in which the elective franchise is unconstitutionally limited, and the control of combinations of capital and labor. The declaration in regard to protection is: "We insist upon the maintenance of the principles of protection and therefore rates of duty should be readjusted only when conditions have so changed that the public interest demands their alteration. But this work cannot be safely committed to any other hands than those of the republican party."

DEMOCRATIC.—The enactment of laws giving labor and capital impartially their just rights, trial by jury for indirect contempt, liberal appropriations for the improvement of waterways, reductions in the expenditures of the government, honesty in the public service and the preservation of the "open door" for commerce in the orient are favored. The platform declares against imperialism and the retention of the Philippines, denounces protection as a robbery of the many for the enrichment of the few, and favors the revision and general reduction of the tariff by the friends of the masses and for the common weal and not by the friends of its abuses. Trusts and combinations are denounced as a menace to beneficial competition and rebates and discriminations by transportation companies are declared to be the most potent agency in promoting and strengthening unlawful conspiracies against trade. Demands of the platform include: Election of United States senators by a direct vote of the people; the admission to statehood of Oklahoma, Indian Territory, Arizona and New Mexico; the extermination of polygamy; the defeat of the ship-subsidy bill; the maintenance of the Monroe doctrine; the reduction of the army and army expenditures; the enforcement of the civil-service laws, and the defeat of the attempt to revive race prejudices.

SOCIALIST.—The platform pledges the party to work and vote for shortened days of labor and increased wages; for the insurance of workers against sickness, accident and lack of employment; for pensions for aged and exhausted workers; for public ownership of the means of transportation, communication and exchange; for the graduated taxation of incomes, inheritances and of franchise and land values; for equal suffrage of men and women; for the prevention of the use of military against labor in the settlement of strikes; for the free administration of justice; for the initiative, referendum and proportional representation, and for the recall of officers by their constituents. These things, it is declared, are but a preparation of the workers to seize the whole powers of government in order that they may thereby lay hold of the whole system of industry and thus come into their rightful inheritance.

PROHIBITIONIST.—The platform pledges the party, whenever given the power by the suffrage of the people, to the enactment and enforcement of laws prohibiting and abolishing the manufacture, importation, transportation and sale of alcoholic beverages and favors a rigid application of the principles of justice to all combinations of capital and labor, international arbitration, reform of divorce laws, the final extirpation of polygamy and the overthrow of the system of illegal sanction of the social evil.

POPULIST.—It is demanded that all money shall be issued by the government in such quantities as shall maintain a stability in prices, every dollar to be a full legal tender; that postal banks be established; that the right of labor to organize shall not be interfered with; that laws be passed to abolish child labor and suppress convict labor and sweatshops, and that the government shall own the railroads and telegraph and telephone systems. The eight-hour day is favored and legal provision under which the people may exercise the initiative, referendum and proportional representation and direct vote for all public officers with right to recall are urged.

SOCIALIST-LABOR.—The platform urges that a summary end be put to the existing class conflict by placing the land and all the means of production, transportation and distribution into the hands of the people as a collective body and substituting the co-operative commonwealth for the present planless production, industrial war and social disorder.

BATTLE WITH MOROS NEAR JOLO P. I.

More than 800 hostile Moros were killed in a battle with United States troops March 6, 7 and 8, 1906, on Mount Dajo, an extinct volcano, four miles south of Jolo, P. I. The American losses were eighteen men killed and fifty-six wounded. The attacking troops were commanded by Col. Joseph W. Duncan of the 6th infantry and the battle was witnessed by Maj.-Gen. Leonard Wood and Brig.-Gen. Tasker H. Bliss. The fighting took place on a steep lava cone 2,100 feet high, which had been strongly fortified by bands of unfriendly Moros who

had been giving the military authorities much trouble. The natives fought with fanatical bravery and exposed themselves to certain death in preference to being taken alive. They used rifles, spears, barongs and knives and hurled rocks and limbs of trees upon the soldiers who had to climb up the last few hundred feet by taking hold of vines and projections of rocks. The American troops, which included a naval detachment, were credited with great gallantry and with many individual feats of daring.

CENTER OF POPULATION AND ITS MEDIAN POINT.

The center of population is the center of gravity of the population of the country, each individual being assumed to have the same weight. What is known as the median point is the point of intersection of the line dividing the population equally north and south with the line dividing it equally east and west. The center of population in 1900 was at a point six miles southeast of Columbus, Ind., or north latitude 39 degrees and 9.5 minutes and west longitude 85 degrees 48.9 minutes. The median point in 1900 was at Spartanburg, Ind., or latitude 40 degrees 4 minutes and 22 seconds and longitude 84 degrees 51 minutes and 29 seconds.

The center of area of the United States, excluding Alaska and Hawaii and other recent accessions, is in northern Kansas, in approximate latitude 39 degrees 55 minutes and approximate longitude 98 degrees 50 minutes. The center of population is therefore about three-fourths of a degree south and more than thirteen degrees east of the center of area.

THE SHERMAN ANTITRUST LAW.

Passed by the 51st congress and approved July 2, 1890.

Section 1. Every contract, combination in the form of trust or otherwise, or conspiracy, in restraint of trade or commerce among the several states or with foreign nations, is hereby declared to be illegal. Every person who shall make any such contract or engage in any such combination or conspiracy shall be deemed guilty of a misdemeanor, and, on conviction thereof, shall be punished by fine not exceeding \$5,000 or by imprisonment not exceeding one year, or by both said punishments, in the discretion of the court.

Sec. 2. Every person who shall monopolize or attempt to monopolize or combine or conspire with any person or persons to monopolize any part of the trade or commerce among the several states or with foreign nations shall be deemed guilty of a misdemeanor, and on conviction thereof shall be punished by fine not exceeding \$5,000 or by imprisonment not exceeding one year, or by both said punishments, in the discretion of the court.

Sec. 3. Every contract, combination in form of trust or otherwise, or conspiracy in restraint of trade or commerce in any territory of the United States or of the District of Columbia, or in restraint of trade or commerce between any such territory and another, or between any such territory or territories and any state or states or the District of Columbia or with foreign nations, or between the District of Columbia and any state or states or foreign nations, is hereby declared illegal. Every person who shall make any such contract or engage in any such combination or conspiracy shall be deemed guilty of a misdemeanor, and on conviction thereof shall be punished by fine not exceeding \$5,000 or by imprisonment not exceeding one year, or by both said punishments, in the discretion of the court.

Sec. 4. The several Circuit courts of the United States are hereby invested with jurisdiction to prevent or restrain violations of this act; and it shall be the duty of the several district attorneys of the United States, in their respective districts, under the direction of the attorney-general, to institute proceedings in equity to prevent and restrain such violations. Such

proceedings may be by way of petition setting forth the case and praying that such violation shall be enjoined or otherwise prohibited. When the parties complained of shall have been duly notified of such petition the court shall proceed, as soon as may be, to the hearing and determination of the case; and pending such petition and before final decree the court may at any time make such temporary restraining order or prohibition as shall be deemed just in the premises.

Sec. 5. Whenever it shall appear to the court before which any proceeding under section 4 of this act may be pending that the ends of justice require that other parties should be brought before the court, the court may cause them to be summoned, whether they reside in the district in which the court is held or not; and subpoenas to that end may be served in any district by the marshal thereof.

Sec. 6. Any property owned under any contract or by any combination or pursuant to any conspiracy (and being the subject thereof) mentioned in section 1 of this act and being in the course of transportation from one state to another or to a foreign country shall be forfeited to the United States and may be seized and condemned by like proceedings as those provided by law for the forfeiture, seizure and condemnation of property imported into the United States contrary to law.

Sec. 7. Any person who shall be injured in his business or property by any other person or corporation by reason of anything forbidden or declared unlawful by this act may sue therefor in any Circuit court of the United States in the district in which the defendant resides or is found, without respect to the amount in controversy, and shall recover threefold the damages by him sustained and the cost of suit, including a reasonable attorney's fee.

Sec. 8. That the word "person" or "persons" wherever used in this act be deemed to include corporations and associations existing under or authorized by the laws of either the United States, the laws of any of the territories, the laws of any state or the laws of any foreign country.

DEATH PENALTY IN THE UNITED STATES.

Capital punishment prevails in all of the states and territories of the union except Michigan, Wisconsin, Rhode Island and Maine. It was abolished in Iowa in 1872 and restored in 1878. It was also abolished in Colorado, but was restored in 1901. In New York and Ohio execution is by electricity.

*The word family, as used here, means a group of individuals who occupy jointly a dwelling place, or part of a dwelling place, or an individual living alone in any place of abode. †Means any place in which one or more persons regularly sleep. ‡Groups of related individuals.

GROSS AREA OF THE UNITED STATES.

Including Alaska, Hawaii, Porto Rico and the Philippine Islands, the gross area (land and water surface) of the United States is approximately 3,622,933 square miles. Excluding Alaska and the Islands named, the gross area at each census from 1790 to 1900 compares as follows

*Exclusive of Alaska and Hawaii.

Area of Porto Rico is approximately 3,600 and of the Philippine Islands 114,000 square miles (land and water, \$32,368).

NOTE—The areas as given above were computed under the direction of Henry Gannett, geographer of the United States geological survey, for the census office. In some cases the figures vary from those given by the general land office, but they are believed to be as nearly correct as possible. In the case of states bordering on the great lakes the water surface of the latter has been included in the computation of areas by the land office and excluded by Mr. Gannett. This will account in large measure for the apparent discrepancies.

COPYRIGHT REGULATIONS.

The articles specified by law as proper subjects of copyright are: Books, maps, charts, dramatic compositions, musical compositions, engravings, cuts, prints, photographs, photographic negatives, chromos, lithographs, periodicals, paintings, drawings, statuary and models or designs intended to be perfected as works of fine art.

Any one desiring to secure a copyright should send to the librarian of congress for a blank application. This must be filled up according to the printed directions, which will be found plainly and specifically given on the blank itself. A printed or typewritten copy of the title of the article to be

copyrighted must accompany the application; in the case of paintings, drawings, statuary or designs, descriptions must be inclosed. On or before the day of publication two complete copies of the book or other article must be sent to the library of congress to perfect the copyright.

The fee for the entry of title of production of a citizen of the United States is 50 cents; for a foreigner, \$1; certificate, 50 cents additional in either case. Remittances must be made by money order, express order or bank draft; postage stamps and checks will not be accepted. The copyright is for twenty-eight years, but it may be renewed for fourteen more.

THE MONROE DOCTRINE.

The famous "Monroe doctrine" was enunciated by President Monroe in his message to congress Dec. 2, 1823. Referring to steps taken to arrange the respective rights of Russia, Great Britain and the United States on the northwest coast of this continent, the president went on to say:

"In the discussions to which this interest has given rise, and in the arrangements by which they may terminate, the occasion has been deemed proper for asserting, as a principle in which the rights and interests of the United States are involved, that the American continents, by the free and independent condition which they have assumed and maintain, are henceforth not to be considered as subjects for future colonization by any European power. * * * We owe it, therefore, to candor and to the

amiable relations existing between the United States and those powers to declare that we should consider any attempt on their part to extend their system to any portion of this hemisphere as dangerous to our peace and safety. With the existing colonies or dependencies of any European power we have not interfered and shall not interfere. But with the governments who have declared their independence and maintain it, and whose independence we have, on great consideration and on just principles, acknowledged, we could not view any interposition for the purpose of oppressing them or controlling in any other manner their destiny by any European power in any other light than as the manifestation of an unfriendly disposition toward the United States."

THE DRAGO DOCTRINE.

When in the winter of 1902-03 Germany, Britain and Italy blockaded the ports of Venezuela in attempt to make the latter country settle up its debts, Dr. L. F. Drago, a noted jurist of Argentina, maintained that force cannot be used by one power to collect money owing to its citizens by another,

power. Prominence was given to the contention by the fact that it was officially upheld by Argentina and favored by other South American republics. The principle embodied has become generally known as the "Drago doctrine."

DEATH OF KING CHRISTIAN OF DENMARK.

King Christian IX. of Denmark died in Copenhagen on the afternoon of Monday, Jan. 29, 1906, after an illness of only a few hours. The funeral, which took place on Sunday, Feb. 18, was attended by Emperor William of Germany, King George of Greece, Queen Alexandra of England, Dow-

ager Empress Dagmar of Russia, King Haakon of Norway and many other royal persons. King Christian was born April 8, 1818, and ascended the throne of Denmark Nov. 15, 1863. His wife, Queen Louise, died Sept. 29, 1898.

RELATIVE PRICES OF COMMODITIES.

In this table, prepared by the department of labor in Washington, the average wholesale price in New York and other primary markets of each article for the years 1890-1899, inclusive, is taken as the base price and is represented by 100. The relative price is the average wholesale price for each year from 1894 to 1905, inclusive, compared with the base price.

MOROCCO CONFERENCE AT ALGECIRAS.

By an agreement reached Sept. 28, 1905, France and Germany arranged to submit to an international conference the matters in dispute between them with relation to Morocco. France, in 1904, signed a treaty with Great Britain by the terms of which the former was given a free hand in Morocco in return for concessions to the British in Egypt. Germany objected on the ground that her commercial interests were threatened and demanded certain reforms in the finances and policing of Morocco. France resented the interference and for a time war seemed imminent.

Under the presidency of the duke of Almodovar the conference began its sessions at Algeciras, Spain, Jan. 16, 1906. All the great powers, including the United States, were represented, the American delegates being Henry White, ambassador to Italy, and S. R. Gummere, minister to Morocco. The other leading delegates were: France, M. Paul Revoll; Germany, Herr von Radowitz; Great Britain, Sir Arthur Nicolson; Italy, Marquis Visconti Venosta; Morocco, Mohammed el Torres; Austria, Herr Kazembrodski. The subjects laid before them were these: The organization and control of the Moroccan police, the exclusion of contraband arms, the creation of a state bank to facilitate financial reforms, the best means of collecting revenues, the creation of new

sources of income and the safeguarding of the economic liberty of the country.

From the start the delegates found the work of reconciling the conflicting views of France and Germany difficult and slow. On several occasions it appeared as though the conference would be fruitless, especially because of the divergent views on the question of policing the ports of Morocco, but an agreement was finally reached and a convention signed April 7, on which date the meeting ended. The final article regarding the distribution of police at the ports was adopted from the Russian draft, though the Austrian and American delegates had considerable to do with making it acceptable. By it France was given the policing of the ports of Mogador, Saffi, Mazagan and Rabat; Spain was asked to police Tetuan and Larache, and France and Spain were assigned the task of jointly policing Tangier and Casablanca. The police force was to consist of 2,500 natives with Caidas as commanders, French and Spanish as instructors and a Swiss as Inspector-general. The duration of the police agreement was fixed at three years. In the settlement of the bank question France was given three shares and other nations one each. It was arranged that four bank supervisors were to be appointed by the Bank of England, the Bank of France, the Imperial Bank of Germany and the Bank of Spain.

UNITED STATES MILITARY ACADEMY.

West Point, N. Y.

The United States military academy is a school for the practical and theoretical training of cadets for the military service of the United States. Upon completing the course satisfactorily cadets are eligible for promotion and commission as second lieutenants in any arm or corps of the army in which there may be a vacancy the duties of which they may have been judged com-

petent to perform. The maximum number of cadets at present permitted by law is 521. The corps of cadets consists of one from each congressional district, one from each territory, one from the District of Columbia, two from each state at large and forty from the United States at large, all appointed by the president.

LIFE-INSURANCE REFORMS.

The New York legislative committee, of which Senator William W. Armstrong was chairman, and which investigated the charges of misuse of funds brought against various life-insurance companies, made its report Feb. 22, 1906. This report, besides giving a resume of the facts brought out by the investigation, suggested certain reforms, of which the following were the most important:

Prohibition of stock companies by law; all companies to be mutual, but mutualization of existing companies not to be compulsory.

Officers and directors to be elected by policy-holders by mail vote.

Investment in stocks of private corporations to be prohibited; also, investment in bonds secured to the extent of more than one-third of the entire security therefor by the hypothecation of corporate stocks.

Synicate transactions for the purchase and sale on joint account to be prohibited; no officer or director to be pecuniarily interested in any purchase, sale or loan by the company except loans on his own policy.

New business in excess of \$150,000,000 a year to be prohibited.

Contributions to funds of political parties to be prohibited.

The employment of professional services in promoting legislation to be allowed, but under restrictions.

Salaries above \$5,000 a year to be fixed by the board of directors; commissions to be uniform and on fixed percentage basis; bonuses, prizes and awards to be prohibited.

Minimum standard for valuation of all policies other than industrial to be fixed by superintendent of insurance.

Nonparticipating policies to be forbidden. Annual accounting and distribution to be compulsory.

Standard form of policy for all companies to be compulsory.

Every company to be required to publish annual statements, showing investments, commissions paid, legal and legislative expenditures, salaries, bank balances, profits and losses, reserve funds, etc.

THE HOMESTEAD LAW.

Any person who is the head of a family, or who is 21 years old and is a citizen of the United States or has filed his declaration of intention to become such, and who is not the proprietor of more than 160 acres of land in any state or territory, is entitled to enter one-quarter section (160 acres) or less quantity of unappropriated public land under the homestead laws. The applicant must make affidavit that he is entitled to the privileges of the homestead act and that the entry is made for his exclusive use and for actual settlement and cultivation, and must pay the legal fee and that part of the commissions required, as follows: Fee for 160 acres, \$10; commission, \$4 to \$12. Fee for eighty acres, \$5; commission, \$2 to \$6. Within six months from the date of entry the settler must take up his residence upon the land and cultivate the same for

five years continuously. At the expiration of this period, or within two years thereafter, proof of residence and cultivation must be established by four witnesses. The proof of settlement, with the certificate of the register of the land office, is forwarded to the general land office at Washington, from which a patent is issued. Final proof cannot be made until the expiration of five years from date of entry, and must be made within seven years. The government recognizes no sale of a homestead claim. After the expiration of fourteen months from date of entry the law allows the homesteader to secure title to the tract, if so desired, by paying for it in cash and making proof of settlement, residence and cultivation for that period.

The law allows only one homestead privilege to any one person.

LOSS OF THE CRUISER AQUIDABAN.

The Brazilian armored cruiser Aquidaban was sunk by the explosion of its powder magazine at 10:45 o'clock Sunday evening, Jan. 21, 1906, while at Port Jacarapegua in the bay of Rio Janeiro. Of the officers and crew 212 were killed or drowned, thirty-six were injured and ninety-six were saved unhurt. Among the dead were three rear-

admirals of the Brazilian navy, a captain and two commanders, the presence of so many high officers on board being explained by the fact that at the time of the disaster the minister of marine and his staff were making a visit of inspection to various ports in the bay with a view to selecting the site for a new arsenal.

SCHOOL SAVINGS-BANK STATISTICS.

Up to Jan. 1, 1906, the school savings bank system was in operation in 1,023 schools of 122 cities of twenty-five states of America. The total deposits in these banks since they were started amounted to \$4,-\$64,575.98, of which \$3,641,015.66 had been withdrawn, leaving a balance of \$1,223,-560.32 due the little depositors.

The school savings-bank system was introduced by J. H. Thiry in the schools of Long Island City (now part of New York), N. Y., March 16, 1885, and it is largely through his efforts that it has been adopted

in so many places in the United States and Canada. The purpose of the system is, of course, to encourage thrift, prudence and business methods among children at an age when their life habits are in process of formation. It has been found to produce excellent results in this direction and in many instances parents have profited by the example set by their children. The following figures are taken from a table of statistics furnished by Mr. Thiry. They include only places in which the number of depositors is 1,000 or more:

CARNEGIE INSTITUTION OF WASHINGTON.

[Prepared by William Barnum, chief clerk.] The Carnegie Institution of Washington was incorporated Jan. 4, 1902, and endowed by Andrew Carnegie with \$10,000,000. The purpose of the institution is thus declared by its founder:

"It is proposed to found in the city of Washington an institution which, with the co-operation of institutions now or hereafter established, there or elsewhere, shall in the broadest and most liberal manner encourage investigation, research and discovery—show the application of knowledge to the improvement of mankind, provide such buildings, laboratories, books and apparatus as may be needed, and afford instruction of an advanced character to students properly qualified to profit thereby."

The following list shows the departments of investigations to which the larger grants have been assigned and the amounts of those grants in 1905:

Station for experimental evolution.	\$12,000
Tortugas marine biological laboratory	15,700
Desert botanical laboratory	6,000
Horticulture (Luther Burbank)	10,000
Economics and sociology	30,000
Historical research	14,000
Terrestrial magnetism	25,000
Solar observatory (Mount Wilson)	150,000
Geophysical research	24,000
Nutrition	16,000
Paleontology	1,800

The institution up to the beginning of

1906 had made about 300 grants in aid of small projects carried on by individual experts for a limited period of time.

Under the original organization the endowment and the conduct of the institution were intrusted to a board of twenty-seven trustees, but under act of congress approved April 28, 1904, certain ex-officio trustees were dispensed with. The board now consists of the following persons:

Trustees—John S. Billings, John L. Cadwalader, Cleveland H. Dodge, W. N. Frew, Lyman J. Gage, Daniel C. Gilman, Henry L. Higginson, E. A. Hitchcock, William Wirt Howe, Charles L. Hutchinson, S. P. Langley, William Lindsay, Seth Low, Wayne MacVeagh, D. O. Mills, S. Weir Mitchell, William W. Morrow, Elihu Root, John C. Spooner, Charles D. Walcott, Andrew D. White, Robert S. Woodward, Carroll D. Wright.

The officers are as follows:
President of the Institution—Robert S. Woodward.

Officers of Board of Trustees—John S. Billings, chairman; Elihu Root, vice-chairman; C. H. Dodge, secretary.

Executive Committee—Carroll D. Wright, chairman; Charles D. Walcott, secretary; John S. Billings, Daniel C. Gilman, S. Weir Mitchell, Elihu Root, Robert S. Woodward.

The offices of the institution are in the Bond building, Washington, D. C.

WRECK OF THE STEAMSHIP VALENCIA.

The steamship Valencia of the Pacific Coast Steamship company's line ran ashore on the west coast of Vancouver Island early on the morning of Tuesday, Jan. 23, 1906, and was pounded to pieces on the Point Klanaway rocks. Of the 154 passengers aboard only thirty-five succeeded in making their escape. Attempts at rescue were made, but stormy weather and heavy seas prevent-

ed approach to the wreck and all who remained on the steamer died from exposure or were drowned by being swept overboard by the waves. The Valencia was bound from San Francisco for Puget sound points. Heavy fogs prevailed and the ship was steered by dead reckoning. She was far out of her course when she ran on the rocks.

CUBA.

GOVERNMENT—Owing to internal disorders in the island the United States was obliged to intervene and assume charge under the terms of the "Platt amendment" in September, 1906. President Palma and his cabinet resigned. For the details of the revolution and the temporary occupation of Cuba by the United States authorities see "Revolution in Cuba" in this volume.

Under the constitution the legislative power is exercised by two elective bodies—the house of representatives and the senate, conjointly called congress. The senate is composed of four senators from each of the six provinces, elected for eight years by the provincial councilmen and by a double number of electors constituting together an electoral board.

The house of representatives is composed of one representative for each 25,000 inhabitants or fraction thereof over 12,500, elected for four years by direct vote. One-half of the members of the house are to be elected every two years. The salary of members of congress is \$3,600 a year.

ORGANIZATION OF THE REPUBLIC—The or-

ganization of the republic of Cuba, begun in 1900, was practically completed on the 20th of May, 1902, when the military occupation of the island by the United States came to an end and Gen. Tomas Estrada Palma was inaugurated as the first president.

AREA AND POPULATION—The total area of Cuba is 25,994 square miles. The population in 1899, when the last census was taken, was 1,572,797. Population of principal cities:

Cardenas	21,940	Matanzas	36,374
Cienfuegos	30,333	Puerto Principe	25,102
Havana	235,981	Santiago	43,000

About 67 per cent of the population is white.

IMPORTS AND EXPORTS—The total imports in 1904 amounted to \$94,806,700 and the exports to \$110,167,500. The imports from the United States in 1906 were valued at \$47,763,688 and the exports at \$84,979,821. The principal articles of export are sugar, tobacco and cigars, iron and manganese ore, fruit, coffee, cocoa, molasses and sponges; of import, animals, breadstuffs, coal and coke, iron and steel, wood, liquor, cotton, chemicals and vegetables.

HAITI.

The area of Haiti is 10,204 square miles and the population about 1,425,000.

articles sold. Exports to the United States in 1906, \$1,185,477; imports, \$3,307,840.

SANTO DOMINGO.

The republic has an area of 18,045 square miles and a population of about 610,000. Santo Domingo, the capital, has 14,150 inhabitants. In 1901 the exports amounted to

\$5,224,043 and the chief articles shipped were coffee, cocoa and mahogany; imports, \$2,936,921. Exports to the United States in 1906, \$3,086,338; imports, \$2,318,248.

RAILROAD WRECK IN COLORADO.

Thirty-five persons were killed and as many more injured in a train collision on the Denver & Rio Grande railroad four miles east of Florence, Col., early on the morning of March 16. Through the failure of a telegraph operator to deliver a message from the train dispatcher the west-bound Utah-Colorado express from Denver and the east-bound Colorado-New Mexico express

from Leadville and Grand Junction met on a sharp curve and several cars were smashed and set on fire. Some of the wounded passengers were burned to death, while the bodies of a number of those killed were incinerated. The operator at fault claimed that he had worked for seventy-five hours without rest and that he was asleep at his post.

GREAT MINE DISASTER IN FRANCE.

At 7 o'clock on the morning of Saturday, March 10, 1906, an explosion of gas occurred in a coal mine at Courriere, near Calais, France, just after 1,800 men had descended the shaft to go to work. Many of them were instantly killed and others died from wounds or were suffocated. Heroic efforts at rescue were made and a number of men

lost their lives while attempting to bring the few survivors to the surface. The total number of victims, according to the best information obtainable, was 1,060. Hundreds of families were made destitute and there was great suffering, though the government voted \$100,000 for relief and as much more was raised by popular subscription.

AMERICAN HALL OF FAME.

"The Hall of Fame for Great Americans" is the name of a building on University Heights in New York city, in which are inscribed on bronze tablets the names of famous American men and women. Nominations for the honor are made by the public and are submitted to a committee of 100 eminent citizens. In the case of men fifty-one votes are required, and in the case of women forty-seven. The first balloting took place in October, 1900, when the following were chosen:

George Washington.	Ulysses S. Grant.
Abraham Lincoln.	John Marshall.
Daniel Webster.	Thomas Jefferson.
Benjamin Franklin.	Ralph W. Emerson.

H. W. Longfellow.	John Adams.
Robert Fulton.	Wm. E. Channing.
Washington Irving.	Gilbert Stuart.
Jonathan Edwards.	Asa Gray.
Samuel F. B. Morse.	Chosen in 1905:
David G. Farragut.	John Quincy Adams.
Henry Clay.	Jas. Russell Lowell.
Nath. Hawthorne.	Wm. T. Sherman.
George Peabody.	James Madison.
Robert E. Lee.	John Quincy Adams.
Peter Cooper.	John G. Whittier.
Ell Whitney.	Alex. Hamilton.
John J. Audubon.	Louis Agassiz.
Horace Mann.	John Paul Jones.
Henry W. Beecher.	Mary Lyon.
James Kent.	Emma Willard.
Joseph Story.	Maria Mitchell.

Note—Oklahoma and Indian Territory were admitted as the state of Oklahoma in 1906, but the transaction had not been completed at the close of the year. The new state will have seven representatives in congress and nine electoral votes.

Historians do not all agree as to some of the dates in the above table. The dates given are from the statistical abstract of the United States published by the government, and are well supported in all disputed cases.

THE GAYNOR-GREENE CASE.

John F. Gaynor and Benjamin D. Greene, contractors, were indicted Dec. 28, 1899, for conspiracy to defraud the United States out of \$575,749 in connection with harbor work at Savannah, Ga. When indicted they were in New York and fought extradition to Georgia, but in 1901 they were compelled to return there. They were placed under bonds of \$40,000, which they forfeited. Taking

refuge in Canada, they resisted extradition by all legal means possible and it was not until the latter part of 1905 that they were brought back to Savannah. The trial began in January, 1906, and resulted April 12 in a verdict of guilty. They were sentenced to pay a fine of \$575,749 and to four years' imprisonment.

Sixtieth Congress.

From March 4, 1907, to March 3, 1909.

SENATE.

Republicans, 61; democrats, 29. Compensation of senators, \$5,000.

RAILROAD-RATE LAW.

The "railroad-rate law" amends the interstate-commerce law of 1887 and enlarges the powers of the interstate-commerce commission. The act is made to apply to any corporation, person or persons engaged in the transportation of oil or other commodity, except water and gas, by pipe lines, railroads or ships, who shall be considered to be common carriers, and to any common

carrier or carriers engaged in interstate commerce, whether transporting passengers or freight. The term "common carrier," as used in the act, includes express companies and sleeping-car companies. It is the duty of every carrier subject to the provisions of the act to furnish transportation upon reasonable request therefor, and to establish through routes and just and reasonable rates applicable thereto.

All charges made for any service rendered or to be rendered in the transportation of passengers or property, or in connection therewith, shall be just and reasonable; and every unjust and unreasonable charge for any such service or any part thereof is prohibited and declared to be unlawful.

RESTRICTION AS TO PASSES.

No common carrier subject to the provisions of this act shall, after Jan. 1, 1907, directly or indirectly, issue or give any interstate free ticket, free pass, or free transportation for passengers, except to its employes and their families, its officers, agents, surgeons, physicians and attorneys; to ministers of religion, traveling secretaries of Young Men's Christian associations, and persons engaged exclusively in charitable and eleemosynary work; to indigent, destitute and homeless persons; to inmates of soldiers' and sailors' homes; to necessary caretakers of live stock, poultry and fruit; to employes on sleeping cars and express cars, and to linemen of telegraph and telephone companies; to newsboys on trains, baggage agents, railway mail service employes, postoffice, customs and immigration inspectors; to witnesses in which the common carrier is interested, persons injured in wrecks and physicians and nurses attending, such persons. Passengers may be carried free with the object of providing relief in cases of general epidemic or other calamitous visitation. Any common carrier who violates this provision, or any person accepting a free pass, unless in the excepted classes, is liable to a fine of not less than \$100 or more than \$2,000.

OTHER BUSINESS PROHIBITED.

From and after May 1, 1908, it shall be unlawful for any railroad company to transport from one state to another any article or commodity, other than timber and the manufactured products thereof, manufactured, mined or produced by it, or under its authority, or which it may own in whole or in part, or in which it may have any interest, direct or indirect, except such articles or commodities as may be necessary and intended for its use in the conduct of its business as a common carrier.

Any common carrier upon the application of any lateral, branch line of railroad, or of any shipper tendering interstate traffic for transportation, shall construct and operate upon reasonable terms a switch connection with such lateral, branch line of railroad, where such connection is reasonably practicable and can be put in with safety and will furnish sufficient business to justify it; and shall furnish cars for the movement of such traffic to the best of its ability without discrimination in favor of or against such shipper.

MUST POST RATE SCHEDULES.

Every common carrier shall file with the commission and print and keep open to pub-

lic inspection schedules showing all the rates, fares and charges for transportation between points on its own route and points on the route of any other railroad when through and joint rates have been established. If no joint rates have been established the several carriers in such through route shall furnish schedules of the separately established rates. The schedules shall plainly state the places between which passengers and property will be carried, and shall contain the classification of freight in force, and shall also state separately all terminal, storage and icing charges and all other charges which the commission may require. No changes in the published rates shall be made except after thirty days' notice to the commission. Every common carrier shall also file with the commission copies of all contracts, agreements or arrangements with other common carriers in relation to any traffic affected by the provisions of this act to which it may be a party.

No common carrier shall charge or collect a greater or less or different compensation than that specified in the tariff filed; nor shall any carrier refund or remit in any manner or by any device any portion of the rates, fares and charges so specified, nor extend to any shipper or person any privileges or facilities except such as are specified in such tariffs.

The willful failure upon the part of any carrier to file and publish the tariffs or to strictly observe such tariffs until changed according to law shall be a misdemeanor punishable by a fine of not less than \$1,000 or more than \$20,000; and it shall be unlawful for any person, persons or corporation to offer, grant or give, or to solicit, accept or receive any rebate, concession or discrimination in respect to the transportation of any property in interstate or foreign commerce by any common carrier whereby such property shall by any device whatever be transported at a less rate than that named in the tariffs published and filed by such carrier. Every carrier or shipper violating this provision is liable to a fine of from \$1,000 to \$20,000. Any officer or agent of any corporation who shall be convicted of violating this provision of the law is liable to imprisonment in the penitentiary for a term not exceeding two years, or both such fine and imprisonment, in the discretion of the court.

Any person, corporation or company who shall knowingly by any means or device whatsoever receive from a common carrier any sum of money or any other valuable consideration as a rebate or offset against the regular charge for transportation of property as fixed by the schedule of rates, shall in addition to any penalty provided by the act forfeit to the United States a sum of money three times the value of the money or other consideration so received; and the attorney-general of the United States is authorized to institute a civil action to collect the sums so forfeited, and in the trial of such action all such rebates or other consideration so forfeited for a period of six years prior to the commencement of the action may be included therein.

COMMISSION MAY FIX RATES.

Section 15 of the act of 1887 is amended so as to read:

"That the commission is authorized and empowered, and it shall be its duty, whenever, after full hearing upon a complaint made

as provided in section 13 of this act, or upon complaint of any common carrier, it shall be of the opinion that any of the rates or charges whatsoever, demanded, charged or collected by any common carrier or carriers, subject to the provisions of this act, for the transportation of persons or property as defined in the first section of this act, or that any regulations or practices whatsoever of such carrier or carriers affecting such rates, are unjust and unreasonable, or unjustly discriminatory, or unduly preferential or prejudicial, or otherwise in violation of any of the provisions of this act, to determine and prescribe what will be the just and reasonable rate or rates, charge or charges, to be thereafter observed in such case as the maximum to be charged; and what regulation or practice in respect to such transportation is just, fair and reasonable to be thereafter followed; and to make an order that the carrier shall cease and desist from such violation, to the extent to which the commission finds the same to exist, and shall not thereafter publish, demand or collect any rate or charge for such transportation in excess of the maximum rate or charge so prescribed, and shall conform to the regulation or practice so prescribed. All orders of the commission except orders for the payment of money shall take effect within such reasonable time, not less than thirty days, and shall continue in force for such period of time, not exceeding two years, as shall be prescribed in the order of the commission, unless the same shall be suspended or modified or set aside by a court of competent jurisdiction. Whenever the carrier or carriers, in obedience to such order of the commission or otherwise, in respect to joint rates, fares or charges, shall fail to agree among themselves upon the apportionment or division thereof, the commission may, after hearing, make a supplemental order prescribing the just and reasonable proportion of such joint rate to be received by each carrier party thereto, which order shall take effect as a part of the original order.

"The commission may also, after hearing on a complaint, establish through routes and joint rates as the maximum to be charged and prescribe the divisions of such rates as hereinbefore provided, and the terms and conditions under which such through routes shall be operated, when that may be necessary to give effect to any provision of this act, and the carriers complained of have refused or neglected to voluntarily establish such through routes and joint rates, provided no reasonable or satisfactory through route exists, and this provision shall apply when one of the connecting carriers is a water line.

"If the owner of property transported under this act directly or indirectly renders any service connected with such transportation, or furnishes any instrumentality used therein, the charge and allowance made therefor shall be no more than is just and reasonable, and the commission may, after hearing on a complaint, determine what is a reasonable charge as the maximum to be paid by the carrier or carriers for the service so rendered or for the use of the instrumentality so furnished, and fix the same, by appropriate order, which order shall have the same force and effect and be enforced in like manner as the orders above provided for in this section.

"The foregoing enumeration of powers

shall not exclude any power which the commission would otherwise have in the making of an order under the provisions of this act."

PROCEEDINGS IN COURT.

If the commission shall determine that any party complainant is entitled to an award of damages for any violation of the provisions of the act the commission shall make an order directing the carrier to pay the complainant the sum to which he is entitled on or before a day named. If a carrier does not comply with such an order the complainant may file in the Circuit court of the United States for the district in which he resides or in which is located the principal operating office of the carrier, or through which the road of the carrier runs, a petition setting forth briefly the causes for which he claims damages and the order of the commission in the premises. Such suit shall proceed in all respects like other civil suits for damages, except that the findings and order of the commission shall be prima facie evidence of the facts stated therein and that the petitioner shall not be liable for costs. If the petitioner shall finally prevail he shall be allowed a reasonable attorney's fee.

Any carrier or representative of a carrier who knowingly neglects to obey any order under section 15 of the act shall forfeit to the United States the sum of \$5,000 for each offense and it shall be the duty of the various district attorneys to prosecute for the recovery of forfeitures. If any carrier fails or neglects to obey any order of the commission, other than for the payment of money, while the same is in effect, any party injured thereby, or the commission in its own name, may apply to the Circuit court for an enforcement of such order. Such application shall be by petition. If upon such hearing as the court may deem necessary it appears that the order was regularly made and duly served the court shall enforce obedience by writ of injunction or other proper process. From any action upon such petition an appeal shall lie by either party to the Supreme court of the United States, and in such court the case shall have priority of hearing and determination over all other causes except criminal causes, but the appeal shall not vacate the order appealed from.

The provisions of the act to expedite the hearing and determination of suits in equity, approved Feb. 11, 1903, are made applicable to suits brought against the commission to enjoin, suspend or set aside any of its orders or requirements. No injunction, interlocutory order or decree suspending or restraining the enforcement of an order of the commission shall be granted except on hearing after not less than five days' notice to the commission. An appeal may be taken from any interlocutory decree or order granting or continuing injunction in any suit, but shall lie only to the Supreme court of the United States. The appeal must be taken within thirty days from the entry of such order or decree and it shall take precedence in the appellate court over all other causes, except causes of like character and criminal causes.

After a decision, order or requirement has been made by the commission in any proceeding any party thereto may at any time make application for a rehearing of the same and it shall be lawful for the commis-

sion to grant such a rehearing if sufficient reason therefor shall be made to appear.

UNIFORM ACCOUNTS REQUIRED.

For the purpose of enabling it the better to carry out the provisions of the law the commission may prescribe a period of time within which all common carriers shall have, as near as may be, a uniform system of accounts and the manner in which such accounts shall be kept. The commission shall at all times have access to the accounts. If carriers refuse to keep such accounts or to submit them to inspection they shall forfeit to the United States the sum of \$500 for each offense. Falsification of accounts or the keeping of accounts not authorized by the commission is subject to a fine of not less than \$1,000 or more than \$5,000, or to imprisonment of from one to three years, or to both fine and imprisonment.

COMMISSION IS ENLARGED.

The interstate-commerce commission is enlarged so as to consist of seven members with terms of seven years and each is to receive \$10,000 compensation annually.

LAW AGAINST ADULTERATION OF FOOD.

The first section of the law prohibits the manufacture in any territory or in the District of Columbia of any article of food or drug which is adulterated or misbranded. Each violation of the law is punishable by a fine of not more than \$500 or by a year's imprisonment or by both. The second section prohibits the introduction into any state or territory from any other state or territory or from any foreign country or the shipment to any foreign country of adulterated or misbranded foods or drugs. Any person shipping, receiving, offering for sale or exporting such foods or drugs is subject to a fine of not exceeding \$200 for the first offense and to a fine of not more than \$300 or a year's imprisonment or both for each subsequent offense.

Section 3 provides that the secretaries of the treasury, agriculture and commerce and labor shall make rules for carrying out the provisions of the act, including the collection and examination of specimens of foods and drugs. Section 4 provides that the examinations shall be made in the bureau of chemistry of the department of agriculture or under the direction of that bureau. Persons accused of violating the act shall be given an opportunity to be heard at the examination. If the law has been violated the facts are to be certified by the secretary of agriculture to the proper United States district attorney, whose duty it shall be (section 5) to begin appropriate proceedings in the United States courts for the enforcement of the penalties.

Sections 7 and 8 in full are as follows:

"Sec. 7. That for the purpose of this act an article shall be deemed to be adulterated—

"In case of drugs:

"1. If, when a drug is sold under or by a name recognized in the United States Pharmacopœia or National Formulary, it differs from the standard of strength, quality or purity as determined by the test laid down in the United States Pharmacopœia or National Formulary official at the time of investigation: Provided, That no drug defined in the United States Pharmacopœia or National Formulary shall be

deemed to be adulterated under this provision if the standard of strength, quality or purity be plainly stated upon the bottle, box or other container thereof, although the standard may differ from that determined by the test laid down in the United States Pharmacopoeia or National Formulary.

"2. If its strength or purity fall below the professed standard or quality under which it is sold.

"In the case of confectionery:

"If it contains terra alba, barytes, talc, chrome yellow or other mineral substance or poisonous color or flavor, or other ingredient deleterious or detrimental to health, or any vinous, malt or spirituous liquor or compound or narcotic drug.

"In the case of food:

"1. If any substance has been mixed and packed with it so as to reduce or lower or injuriously affect its quality or strength.

"2. If any substance has been substituted wholly or in part for the article.

"3. If any valuable constituent of the article has been wholly or in part abstracted.

"4. If it be mixed, colored, powdered, coated or stained in a manner whereby damage or inferiority is concealed.

"5. If it contain any added poisonous or other added deleterious ingredient which may render such article injurious to health: Provided, That when in the preparation of food products for shipment they are preserved by an external application applied in such manner that the preservative is necessarily removed mechanically, or by maceration in water, or otherwise, and directions for the removal of said preservative shall be printed on the covering or the package, the provisions of this act shall be construed as applying only when said products are ready for consumption.

"6. If it consists in whole or in part of a filthy, decomposed or putrid animal or vegetable substance or any portion of an animal unfit for food, whether manufactured or not, or if it is the product of a diseased animal or one that has died otherwise than by slaughter.

"Sec. 8. That the term 'misbranded,' as used herein, shall apply to all drugs or articles of food or articles which enter into the composition of food, the package or label of which shall bear any statement, design or device regarding such article or the ingredients or substances contained therein which shall be false or misleading in any particular, and to any food or drug product which is falsely brauded as to the state, territory or country in which it is manufactured or produced.

"That for the purposes of this act an article shall also be deemed to be misbranded:

"In case of drugs:

"1. If it be an imitation of or offered for sale under the name of another article.

"2. If the contents of the package as originally put up shall have been removed, in whole or in part, and other contents shall have been placed in such package, or if the package fail to bear a statement on the label of the quantity or proportion of any alcohol, morphine, opium, cocaine, heroin, alpha or beta eucaine, chloroform, cannabis indica, chloral hydrate or acetanilide or any derivative or preparation of any such substances contained therein.

"In the case of food:

"1. If it be an imitation of or offered

for sale under the distinctive name of another article.

"2. If it be labeled or branded so as to deceive or mislead the purchaser or purport to be a foreign product when not so, or if the contents of the package as originally put up shall have been removed in whole or in part and other contents shall have been placed in such package, or if it fail to bear a statement on the label of the quantity or proportion of any morphine, opium, cocaine, heroin, alpha or beta eucaine, chloroform, cannabis indica, chloral hydrate or acetanilide or any derivative or preparation of any such substances contained therein.

"3. If in package form, and the contents are stated in terms of weight or measure, they are not plainly and correctly stated on the outside of the package.

"4. If the package containing it or its label shall bear any statement, design or device regarding the ingredients or the substances contained therein, which statement, design or device shall be false or misleading in any particular: Provided, That an article of food which does not contain any added poisons or deleterious ingredients shall not be deemed to be adulterated or misbranded in the following cases:

"1. In the case of mixtures or compounds which may be now or from time to time hereafter known as articles of food, under their own distinctive names, and not an imitation of or offered for sale under the distinctive name of another article, if the name be accompanied on the same label or brand with a statement of the place where said article has been manufactured or produced.

"2. In the case of articles labeled, branded or tagged so as to plainly indicate that they are compounds, imitations or blends, and the word 'compound,' 'imitation' or 'blend,' as the case may be, is plainly stated on the package in which it is offered for sale: Provided, That the term 'blend' as used herein shall be construed to mean a mixture of like substances, not excluding harmless coloring or flavoring ingredients used for the purpose of coloring and flavoring only: And provided further, That nothing in this act shall be construed as requiring or compelling proprietors or manufacturers of proprietary foods which contain no unwholesome added ingredient to disclose their trade formulas, except in so far as the provisions of this act may require to secure freedom from adulteration or misbranding."

Section 9 provides that no dealer shall be prosecuted under the act when he can produce a guaranty signed by the wholesaler, manufacturer or other party that the articles in question are not misbranded or adulterated.

Section 10 makes any article of food, drug or liquor that is adulterated or misbranded liable to be proceeded against in any District court of the United States and seized for confiscation by a process of libel for condemnation.

Section 11 provides that if after examination it shall appear that any article of food or drug that is misbranded or adulterated or is dangerous to health is offered to be imported into the United States, such article shall be refused admission. Section 12 provides that the term "territory" as used in the act shall include the insular possessions of the United States and that the word

"person" shall be construed to include corporations, companies, societies and associations. The acts of agents shall in every case be considered the acts of the employing persons.

The law, according to the last section (13), goes into effect Jan. 1, 1907.

MEAT-INSPECTION LAW.

Following is the text of the meat-inspection law which was passed as an amendment to the agricultural appropriation bill, unnecessary verbiage and repetitions being eliminated:

That for the purpose of preventing the use in interstate or foreign commerce of meat and meat food products which are unsound, unhealthful, unwholesome or otherwise unfit for human food, the secretary of agriculture, at his discretion, may cause to be made by inspectors appointed for that purpose an examination and inspection of all cattle, sheep, swine and goats before they shall be allowed to enter into any slaughtering, packing, meat-canning, rendering or similar establishment, in which they are to be slaughtered; and all cattle, swine, sheep and goats found on such inspection to show symptoms of disease shall be set apart and slaughtered separately, and when so slaughtered the carcasses shall be subject to a careful inspection, all as provided by the rules and regulations to be prescribed by the secretary of agriculture.

That for the purposes hereinbefore set forth the secretary of agriculture shall cause to be made a post-mortem examination and inspection of the carcasses and parts thereof of all cattle, sheep, swine and goats to be prepared for human consumption at any slaughtering, meat-canning, salting, packing, rendering or similar establishment in any state, territory or the District of Columbia for transportation or sale as articles of interstate or foreign commerce; and the carcasses and parts thereof of all such animals found to be sound, healthful, wholesome and fit for human food shall be marked, stamped, tagged or labeled as "Inspected and passed"; and said inspectors shall label, mark, stamp or tag as "Inspected and condemned" all carcasses and parts thereof of animals found to be unsound, unhealthful, unwholesome or otherwise unfit for human food; and all carcasses and parts thereof thus inspected and condemned shall be destroyed for food purposes by the said establishment in the presence of an inspector and the secretary of agriculture may remove inspectors from any such establishment which fails to so destroy any such condemned carcass or part thereof, and said inspectors, after said first inspection, shall, when they deem it necessary, reinspect said carcasses or parts thereof to determine whether since the first inspection the same have become unsound, unhealthful, unwholesome or in any way unfit for human food.

The foregoing provisions shall apply to all carcasses or parts of carcasses of cattle, sheep, swine and goats, or the meat or meat products thereof which may be brought into any slaughtering, meat-canning, salting, packing, rendering or similar establishment, and such examination and inspection shall be had before the said carcasses or parts thereof shall be allowed to enter into any department wherein the same are to be treated and prepared for meat food products; and the foregoing pro-

visions shall also apply to all such products which, after having been issued from any slaughtering, meat-canning, salting, packing, rendering or similar establishment, shall be returned to the same or to any similar establishment where such inspection is maintained.

That for the purposes heretofore set forth the secretary of agriculture shall cause to be made by inspectors an examination and inspection of all meat food products prepared for interstate or foreign commerce in any slaughtering, meat-canning, salting, packing, rendering or similar establishment, and for the purposes of any examination and inspection said inspectors shall have access at all times, by day or night, whether the establishment be operated or not, to every part of said establishment; and said inspectors shall mark, stamp, tag or label as "Inspected and passed" all such products found to be sound, healthful and wholesome and which contain no dyes, chemicals, preservatives or ingredients which render such meat or meat food products unsound, unhealthful, unwholesome or unfit for human food; and said inspectors shall label, mark, stamp or tag as "Inspected and condemned" all such products found unsound, unhealthful and unwholesome:

Provided, That, subject to the rules and regulations of the secretary of agriculture, the provisions hereof in regard to preservatives shall not apply to meat food products for export to any foreign country and which are prepared or packed according to the specifications or directions of the foreign purchaser, when no substance is used in the preparation or packing thereof in conflict with the laws of the foreign country to which said article is to be exported; but if said articles shall be in fact sold or offered for sale for domestic use or consumption then this proviso shall not exempt said article from the operation of all the other provisions of this act.

That when any meat or meat food product prepared for interstate or foreign commerce which has been inspected as hereinbefore provided and marked "Inspected and passed" shall be placed or packed in any can, pot, tin, canvas or other receptacle or covering in any establishment where inspection is maintained, the person, firm or corporation preparing said product shall cause a label to be attached to said can, pot, tin, canvas or other receptacle or covering, under the supervision of an inspector, who label shall state that the contents thereof have been "Inspected and passed" under the provisions of this act; and no inspection and examination of meat or meat food products deposited or inclosed in cans, tins, pots, canvas or other receptacle or covering in any establishment where inspection is maintained shall be deemed to be complete until such meat or meat food products have been sealed or inclosed in said can, tin, pot, canvas or other receptacle or covering under the supervision of an inspector, and no such meat or meat food products shall be sold or offered for sale by any person, firm or corporation in interstate or foreign commerce under any false or deceptive name; but established trade name or names which are usual to such products and which are not false and deceptive and which shall be approved by the secretary of agriculture are permitted.

The secretary of agriculture shall cause to be made by experts in sanitation or by

other competent inspectors such inspection of all slaughtering, meat-canning, salting, packing, rendering or similar establishments in which cattle, sheep, swine and goats are slaughtered and the meat and meat food products thereof are prepared for interstate or foreign commerce as may be necessary to inform himself concerning the sanitary conditions of the same and to prescribe the rules and regulations of sanitation under which such establishments shall be maintained; and where the sanitary conditions of any such establishment are such that the meat or meat food products are rendered unclean, unsound, unhealthful, unwholesome or otherwise unfit for human food, he shall refuse to allow said meat or meat food products to be labeled, marked, stamped or tagged as "Inspected and passed."

That the secretary of agriculture shall cause an examination and inspection of all cattle, sheep, swine and goats and the food products thereof, slaughtered and prepared in the establishments hereinbefore described for the purposes of interstate or foreign commerce to be made during the nighttime as well as during the daytime when the slaughtering of said cattle, sheep, swine and goats or the preparation of said food products is conducted during the nighttime.

That on and after Oct. 1, 1906, no person, firm or corporation shall transport or offer for transportation, and no carrier of interstate or foreign commerce shall transport or receive for transportation from one state or territory or the District of Columbia to any other state or territory or the District of Columbia, or to any place under the jurisdiction of the United States, or to any foreign country, any carcasses or parts thereof, meat, or meat food products thereof which have not been inspected, examined and marked as "Inspected and passed" in accordance with the terms of this act and with the rules and regulations prescribed by the secretary of agriculture: Provided, That all meat and meat food products on hand on Oct. 1, 1906, at establishments where inspection has not been maintained, or which have been inspected under existing law, shall be examined and labeled under such rules and regulations as the secretary of agriculture shall prescribe, and then shall be allowed to be sold in interstate or foreign commerce.

That no person, firm or corporation or officer, agent or employe thereof shall forge, counterfeit, simulate or falsely represent, or shall without proper authority use, fall to use or detach, or shall knowingly or wrongfully alter, deface or destroy, or fail to deface or destroy any of the marks, stamps, tags, labels or other identification devices provided for in this act or in and as directed by the rules and regulations prescribed hereunder by the secretary of agriculture on any carcasses, parts of carcasses or the food product or containers thereof, subject to the provisions of this act or any certificate in relation thereto authorized or required by this act or by the said rules and regulations of the secretary of agriculture.

That the secretary of agriculture shall cause to be made a careful inspection of all cattle, sheep, swine and goats intended and offered for export to foreign countries at such times and places and in such manner as he

may deem proper to ascertain whether such cattle, sheep, swine and goats are free from disease.

And for this purpose he may appoint inspectors who shall be authorized to give an official certificate clearly stating the condition in which such cattle, sheep, swine and goats are found.

And no clearance shall be given to any vessel having on board cattle, sheep, swine or goats for export to a foreign country until the owner or shipper of such cattle, sheep, swine or goats has a certificate from the inspector stating that the said cattle, sheep, swine or goats are sound and healthy or unless the secretary of agriculture shall have waived the requirement of such certificate.

That the secretary of agriculture shall also cause to be made a careful inspection of the carcasses and parts thereof of all cattle, sheep, swine and goats, the meat of which, fresh, salted, canned, corned, packed, cured or otherwise prepared, is intended and offered for export to any foreign country, at such times and places and in such manner as he may deem proper.

And for this purpose he may appoint inspectors who shall be authorized to give an official certificate stating the condition in which said cattle, sheep, swine or goats and the meat thereof are found.

That the inspectors provided for herein shall be authorized to give official certificates of the sound and wholesome condition of the cattle, sheep, swine and goats, their carcasses and products as herein described, and one copy of every certificate granted under the provisions of this act shall be filed in the department of agriculture, another copy shall be delivered to the owner or shipper, and when the cattle, sheep, swine and goats or their carcasses and products are sent abroad a third copy shall be delivered to the chief officer of the vessel on which the shipment shall be made.

That no person, firm or corporation engaged in the interstate commerce of meat or meat food products shall transport or offer for transportation, sell or offer to sell any such meat or meat food products in any state or territory or in the District of Columbia or any place under the jurisdiction of the United States, other than in the state or territory or in the District of Columbia or any place under the jurisdiction of the United States in which the slaughtering, packing, canning, rendering or other similar establishment owned, leased, operated by said firm, person or corporation is located unless and until said person, firm or corporation shall have complied with all of the provisions of this act.

That any person, firm or corporation, or any officer or agent of any such person, firm or corporation who shall violate any of the provisions of this act shall be deemed guilty of a misdemeanor and shall be punished on conviction thereof by a fine of not exceeding \$10,000 or imprisonment for a period not more than two years, or by both such fine and imprisonment, in the discretion of the court.

That the secretary of agriculture shall appoint from time to time inspectors to make examination and inspection of all cattle, sheep, swine and goats, the inspection of which is hereby provided for, and of all carcasses and parts thereof, and of all meats and meat food products thereof, and

of the sanitary conditions of all establishments in which such meat and meat-food products hereinbefore described are prepared, and said inspectors shall refuse to stamp, mark, tag or label any carcass or any part thereof or meat food product therefrom prepared in any establishment hereinbefore mentioned until the same shall have actually been inspected and found to be sound, healthful, wholesome and fit for human food, and to contain no dyes, chemicals, preservatives or ingredients which render such meat food product unsound, unhealthful, unwholesome or unfit for human food, and to have been prepared under proper sanitary conditions hereinbefore provided for, and shall perform such other duties as are provided by this act and by the rules and regulations to be prescribed by said secretary of agriculture.

That any person, firm or corporation or any agent or employe of any person, firm or corporation who shall give, pay or offer, directly or indirectly, to any inspector, deputy inspector, chief inspector or any other officer or employe of the United States authorized to perform any of the duties prescribed by this act or by the rules and regulations of the secretary of agriculture any money or other thing of value, with intent to influence said inspector, deputy inspector, chief inspector or other officer or employe of the United States in the discharge of any duty herein provided for shall be deemed guilty of a felony, and upon conviction thereof shall be punished by a fine not less than \$5,000 nor more than \$10,000 and by imprisonment not less than one year nor more than three years, and any inspector, deputy inspector, chief inspector or other officer or employe of the United States authorized to perform any of the duties prescribed by this act who shall accept any money, gift or other thing of value from any person, firm or corporation or officers, agents or employes thereof, given with intent to influence his official action, or who shall receive or accept from any person, firm or corporation engaged in interstate or foreign commerce any gift, money or other thing of value given with any purpose or intent whatsoever, shall be deemed guilty of a felony and shall upon conviction thereof be summarily discharged from office and shall be punished by a fine not less than \$1,000 nor more than \$10,000 and by imprisonment not less than one year nor more than three years.

That the provisions of this act requiring inspection to be made by the secretary of agriculture shall not apply to animals slaughtered by any farmer on the farm and sold and transported as interstate or foreign commerce, nor to retail butchers and retail dealers in meat and meat food products, supplying their customers: Provided, That if any person shall sell or offer for sale or transportation for interstate or foreign commerce any meat or meat food products which are diseased, unsound, unhealthful, unwholesome or otherwise unfit for human food, knowing that such meat food products are intended for human consumption, he shall be guilty of a misdemeanor and on conviction thereof shall be punished by a fine not exceeding \$1,000 or by imprisonment for a period of not exceeding one year, or by both such fine and imprisonment: Provided also, That the secretary of agricul-

ture is authorized to maintain the inspection in this act provided for at any slaughtering, meat-canning, salting, packing, rendering or similar establishment notwithstanding this exception, and that the persons operating the same may be retail butchers and retail dealers or farmers, and where the secretary of agriculture shall establish such inspection then the provisions of this act shall apply notwithstanding this exception.

That there is permanently appropriated out of any money in the treasury not otherwise appropriated the sum of \$3,000,000 for the expenses of the inspection, and the secretary of agriculture shall in his annual estimates made to congress submit a statement in detail showing the number of persons employed in such inspections and the salary or per diem paid to each, together with the contingent expenses of such inspectors and where they have been and are employed.

RULES FOR PACKERS.

In accordance with the provisions of the law the secretary of agriculture issued rules July 27 for observance by the packers. The regulations are in substance as follows:

Diseased animals shall not be used for food nor shall any meats which are not healthy and prepared in a cleanly manner be issued from a packing house.

No preservatives of any kind whatsoever save salt, sugar, wood smoke, vinegar, pure spices and temporarily saltpeter shall be used.

All meat-food packages shall bear labels accurately stating their contents.

The most modern principles of sanitation shall be observed in all packing houses, and proper sanitary conveniences, separated from the rooms in which the meats are prepared, shall be provided for employes.

The clothing and implements of employes shall be clean.

No persons afflicted with tuberculosis shall be employed in a packing house.

NATURALIZATION LAW.

The law establishes a bureau of immigration and naturalization and provides for a uniform rule for the naturalization of aliens throughout the United States. The title of the old bureau of immigration is changed to "bureau of immigration and naturalization" and the bureau in addition to its former duties is given charge of all matters concerning the naturalization of aliens. It is required to provide for use at the various immigration stations books of record wherein are to be registered the name, age, occupation, personal description, place of birth, last residence, intended place of residence and date of arrival of each alien arriving in the United States.

Exclusive jurisdiction to naturalize aliens resident in their districts is conferred upon the United States Circuit and District courts and all courts of record having a seal, a clerk and jurisdiction in actions in law or equity or both in which the amount in controversy is unlimited.

An alien may be admitted to citizenship in the following manner and not otherwise:

1. He shall declare on oath before the clerk of the proper court at least two years before his admission, and after he has reached the age of 18 years, that it is bona fide his intention to become a citizen of the

United States and to renounce allegiance to any foreign state or sovereignty. Such declaration shall set forth the same facts as are registered at the time of his arrival.

2. Not less than two years nor more than seven after he has made such declaration he shall file a petition, signed by himself and verified, in which he shall state his name, place of residence, occupation, date and place of birth, place from which he emigrated, name of the vessel on which he arrived; the time when and the place and name of the court where he declared his intention of becoming a citizen; if he is married, he shall state the name of his wife, the country of her nativity and her place of residence at the time the petition is filed, and if he has children, the name, date and place of birth and place of residence of each child living. The petition shall also set forth that he is not a disbeliever in or opposed to organized government or a member of any body of persons opposed to organized government, and that he is not a polygamist or a believer in polygamy; that he intends to become a citizen of and to live permanently in the United States, and every other fact material to his naturalization and required to be proved upon the final hearing of his application. The petition shall be verified by the affidavits of at least two credible witnesses who are citizens. At the time of the filing of the petition there shall be also filed a certificate from the department of commerce and labor stating the date, place and manner of his arrival in the United States and the declaration of intention of such petitioner, which certificate and declaration shall be attached to and be a part of his petition.

3. He shall, before he is admitted to citizenship, declare on oath in open court that he will support the constitution of the United States, and that he absolutely renounces all allegiance to any foreign prince, potentate, state or sovereignty.

4. It shall be made to appear to the satisfaction of the court admitting any alien to citizenship that immediately preceding the date of his application he has resided continuously within the United States five years at least, and within the state or territory where such court is at the time held one year at least, and that during that time he has behaved as a man of good moral character, attached to the principles of the constitution. In addition to the oath of the applicant, the testimony of at least two witnesses, citizens of the United States, as to the facts of residence, moral character and attachment to the principles of the constitution shall be required.

5. He must renounce any hereditary title or order of nobility which he may possess.

6. When any alien, who has declared his intention, dies before he is actually naturalized the widow and minor children may, by complying with the other provisions of the act, be naturalized without making any declaration of intention.

Immediately after the filing of the petition the clerk of the court shall give notice thereof by posting in a public place the name, nativity and residence of the alien, the date and place of his arrival in the United States and the date for the final hearing of his petition and the names of the witnesses whom the applicant expects to summon in his behalf. Petitions for natu-

ralization may be filed at any time, but final action thereon shall be had only on stated days and in no case until at least ninety days have elapsed after the filing of the petition. No person shall be naturalized within thirty days preceding a general election within the territorial jurisdiction of the court.

No person who disbelieves in or who is opposed to organized government, or who is a member of or affiliated with any organization entertaining and teaching such disbelief in or opposition to organized government, or who advocates or teaches the duty, necessity or propriety of the unlawful assaulting or killing of any officer or officers of the government of the United States, or of any other organized government, because of his or their official character, or who is a polygamist, shall be naturalized.

No alien shall hereafter be naturalized or admitted as a citizen of the United States who cannot speak the English language. This requirement does not apply to those physically unable to comply with it; or to those making homestead entries upon the public lands of the United States.

Every final hearing upon petitions shall be held in open court before a judge and every final order shall be under the hand of the court and entered in full upon a record and the applicant and witnesses shall be examined under oath. The United States shall have the right to cross-examine the petitioner and his witnesses and shall also have the right to call witnesses, produce evidence and be heard in opposition to the granting of any petition in naturalization proceedings.

It is made the duty of the clerk to keep and file a duplicate of each declaration of intention and within thirty days after the issuance of a certificate of naturalization send a duplicate of such certificate to the bureau in Washington. It shall also be his duty to report the name of each alien who is denied naturalization. Clerks of courts having jurisdiction of naturalization matters are responsible for all blank certificates of citizenship received by them and shall account for them.

The following fees shall be charged:

For receiving and filing a declaration of intention and issuing a duplicate, \$1.

For making, filing and docketing the petition for citizenship and for the final hearing, \$2.

For entering the final order and the issuance of the certificate of citizenship, \$2.

The clerk of the court is to retain one-half of the fees collected during the fiscal year up to the sum of \$3,000. The other half and all above \$3,000 shall be turned over to the government.

Any person who shall forge or assist in forging a certificate of citizenship shall be imprisoned for not more than ten years or fined not to exceed \$10,000, or both. Any person who shall engrave or have in his possession any plate in the likeness of any plate designed for the printing of certificates of citizenship shall be punished by a fine of not more than \$10,000 or by imprisonment at hard labor for not more than ten years or by both. Any person who knowingly procures naturalization in violation of the provisions of the act shall be fined not more than \$5,000 or shall be imprisoned not more than five years, or both.

JOINT-STATEHOOD ACT.

By the terms of the act Oklahoma and Indian Territory are united to form the state of Oklahoma. When a constitution is adopted in state convention and ratified by the people the president will officially proclaim the admission of the new state to the union. The new commonwealth is to have five representatives and two senators. The capital is to be at Guthrie until 1913 and thereafter at such place as shall be fixed by the legislature.

Arizona and New Mexico are empowered to elect delegates to a constitutional convention at the election on Nov. 6. At the same time they will vote separately on the question whether they desire to unite as the single state of Arizona. If there is a majority in each territory for a joint statehood the delegates to the constitutional convention will assemble, but if there is no such majority the proceedings will terminate until a new enabling act is passed by congress. (Rejected by Arizona Nov. 6.)

CONSULAR SERVICE REORGANIZED.

The law classifies and grades the consuls and consuls-general of the United States and fixes the salaries for each class. It abolishes the grade of commercial agent, provides for five inspectors of consulates, prohibits the appointment of any one who is not a citizen of the United States to any clerical position in any consulate the salary of which position is \$1,000 a year or more and forbids any consul whose salary is \$1,000 or more from engaging in any business as a merchant, factor, broker or other trader or as a clerk or agent while he is in office and from practicing as a lawyer or being interested in the fees of any lawyer. All fees, except in the cases of consular agents, who shall be paid by one-half of the fees received in their offices up to the maximum of \$1,000, shall be paid into the United States treasury.

IMMUNITY OF WITNESSES LIMITED.

Be it enacted, etc., That under the immunity provisions in the act entitled "An act in relation to testimony before the interstate-commerce commission," and so forth, approved Feb. 11, 1893, in section 6 of the act entitled "An act to establish the department of commerce and labor," approved Feb. 14, 1903, and in the act entitled "An act to further regulate commerce with foreign nations and among the states," approved Feb. 19, 1903, and in the act entitled "An act making appropriations for the legislative, executive and judicial expenses of the government for the fiscal year ending June 30, 1904, and for other purposes," approved Feb. 25, 1903, immunity shall extend only to a natural person who, in obedience to subpoena, gives testimony under oath or produces evidence, documentary or otherwise, under oath.

NATIONAL QUARANTINE.

The act provides that as soon as practicable the surgeon-general of the public health and marine hospital service of the United States, with the approval of the secretary of the treasury, shall select suitable places for quarantine grounds and anchorages for vessels at such points on or near the coast lines as are best suited for quarantine grounds and anchorages and necessary to

prevent the introduction of yellow fever into the United States. The law further provides the establishment on one of the islands of the Dry Tortugas group a quarantine station to which infected vessels may be sent. The surgeon-general is to have control of all quarantine stations, grounds and anchorages of refuge established by the government.

MESA VERDE NATIONAL PARK.

The act creates the Mesa Verde National park and places under the control of the secretary of the interior the lands in Colorado on which are located cliff dwellings and other prehistoric ruins. Examinations, excavations and collections are only to be permitted for the benefit of scientific or educational institutions and any one who without permission removes or molests any of the evidences of an ancient civilization is subject to a fine of \$1,000 and a year's imprisonment or both.

PRESIDENT'S TRAVELING EXPENSES.

That hereafter there may be expended for or on account of the traveling expenses of the president of the United States such sum as congress may from time to time appropriate, not exceeding \$25,000 per annum, such sum when appropriated to be expended in the discretion of the president and accounted for on his certificate solely. There is hereby appropriated out of any money in the treasury not otherwise appropriated for the purposes authorized in this act for the fiscal year 1907 the sum of \$25,000.

DELEGATE FROM ALASKA.

The law provides that Alaska shall be entitled to a delegate on the floor of the house of representatives, possessing like powers and privileges as other delegates. His salary is fixed at \$5,000 a year and \$1,500 for mileage and other expenses. He is to be elected by the people of Alaska and is not to be appointed. At the first election, on the second Tuesday of August, 1906, there should be elected two delegates, one for a short term or during the remainder of the 59th congress, and the other for a long term, or the whole of the 60th congress.

PRESERVATION OF NIAGARA FALLS.

The diversion of water from the Niagara river is prohibited except with the consent of the secretary of war. This does not apply to the diversion of the water of the great lakes for sanitary, domestic or navigation purposes. The president of the United States is requested to open negotiations with the government of Great Britain for the purpose of providing by treaty for such regulation and control of the Niagara river and its tributaries as will preserve the scenic grandeur of the Niagara falls and rapids.

THE PANAMA CANAL.

Be it enacted that a lock canal be constructed across the Isthmus of Panama connecting the waters of the Atlantic and Pacific oceans, of the general type proposed by the minority of the board of consulting engineers, created by order of the president dated Jan. 24, 1905, in pursuance of an act entitled "An act to provide for the construction of a canal connecting the waters of the Atlantic and Pacific oceans," approved June 28, 1902.

LIABILITY OF RAILROADS TO EMPLOYEES.

The law provides that no contract of employment, insurance, relief benefit or indemnity for injury or death entered into by any employe of a railroad engaged in interstate commerce shall constitute any bar or defense to any action brought to recover damages for personal injuries to or death of such employe. Slight contributory negligence shall not be a bar to the recovery of damages.

FREE DENATURED ALCOHOL.

The bill provides for the withdrawal from bond, tax free, of domestic alcohol when rendered unfit for beverage or liquid medicinal uses by mixture with suitable de-

naturing materials. The law goes into effect Jan. 1, 1907.

THE STATE MILITIA.

To increase the efficiency of the state militia and to promote rifle practice an annual appropriation of \$2,000,000 is made with which to provide arms, stores and equipment.

NEW BRIDGE AT ST. LOUIS.

The city of St. Louis is authorized to build a bridge over the Mississippi river under the usual restrictions.

LAKE ERIE CANAL.

The act authorizes the construction by a private company of a ship canal from Lake Erie to the Ohio river.

WEIGHTS OF DIAMONDS AND FINENESS OF GOLD.

The weight of diamonds and other precious stones is expressed in carats, grains and quarter-grains. The grains are pearl grains, one of which is equal to four-fifths of a troy grain. Four quarter-grains make one grain and four grains make one carat. A carat is therefore equal to four-fifths of four troy grains, or 3.2.

The fineness of gold is also expressed in carats. Pure gold is said to be twenty-four carats fine. If it contains eight parts of a baser metal or alloy it is only sixteen carats fine. The carats therefore indicate the proportion of pure gold to alloy. Most of the gold used by jewelers is about fourteen carats fine, having ten parts of alloy.

THE PANAMA CANAL.

CHRONOLOGY.

First exploration of route, 1527.
 Advocated by Humboldt, 1803.
 Panama railroad built, 1850-1855.
 Panama Canal company formed by De Lesseps, 1879.
 Work on canal begun Feb. 24, 1881.
 Canal company failed Dec. 11, 1888.
 De Lesseps and others sentenced to prison for fraud Feb. 9, 1893.
 New French canal company formed October, 1894.
 De Lesseps died Dec. 7, 1894.

 Canal treaty with Panama negotiated Nov. 18, 1903; ratified by republic of Panama Dec. 2, 1903; ratified by United States senate Feb. 23, 1904.
 Canal commissioners appointed Feb. 29, 1904. Papers transferring canal to the United States signed in Paris April 22, 1904.
 Bill for government of canal zone passed by the senate April 15, 1904; passed by the house April 21; approved April 26.
 Canal property at Panama formally turned over to the United States commissioners May 4, 1904.
 President outlines rules for the government of the canal zone and war department takes charge of the work May 9, 1904.
 Gen. George W. Davis appointed first governor of canal zone May 9, 1904.
 John F. Wallace appointed chief engineer May 10, 1904; resigned June 29, 1905.
 Republic of Panama paid May 21, 1904.
 First payment on \$40,000,000 to French canal company made May 24, 1904.
 Loren C. Collins appointed Supreme court judge for canal zone June 17, 1905.

CANAL OFFICIALS.

The commissioners appointed in 1904 were Rear-Admiral John G. Walker, chairman; Maj.-Gen. George W. Davis, William H. Burr, Benjamin M. Harrod, Carl Ewald Grunsky, Frank I. Hecker and William Barclay Parsons. This commission was found to be unwieldy and unsatisfactory and at the request of President Roosevelt the members handed in their resignations March 29, 1905. April 3 a new commission was named as follows:

Theodore P. Shonts, chairman.
 Charles E. Magoon, governor. (Appointed vice-governor of the Philippines in 1906. No successor named.)
 John F. Wallace, chief engineer (resigned June 29).
 John F. Stevens, chief engineer.
 Rear-Admiral M. T. Endicott, U. S. N.

Brlg.-Gen. Peter C. Hains, U. S. A., retired.
 Col. Oswald H. Ernst, corps of engineers, U. S. A.
 Benjamin N. Harrod.

Consulting Engineers (not members of commission)—William H. Burr, William Barclay Parsons.

Headquarters of Commission—In Panama.

Salaries—Each member of the commission receives \$7,500 a year, with traveling expenses. The chairman is given \$22,500 additional, the chief engineer \$17,500 additional and the governor of the canal zone \$10,000. The head of each department is allowed the use of a furnished house on the isthmus.

EXECUTIVE DEPARTMENTS.

By order of the president three executive departments were created headed by Theodore P. Shonts, Charles E. Magoon and John F. Wallace. The head of the first department is chairman of the commission and has direct and immediate charge of:

1. The fiscal affairs of the commission.
2. The purchase and delivery of all material and supplies.
3. The accounts, bookkeeping and audits.
4. The commercial operations in the United States of the Panama railroad and steamship lines.
5. He has charge of the general concerns of the commission subject to the supervision and direction of the secretary of war and performs such other duties as are placed upon him from time to time by the secretary of war.

The head of the second department is the governor of the zone, with the duties and powers indicated in the executive order of May 9, 1904, which includes in general:

1. The administration and enforcement of law in the zone.
2. All matters of sanitation within the canal zone, and also in the cities of Panama and Colon and the harbors, etc., so far as authorized by the treaty, the executive orders and decrees of Dec. 3, 1904, between the United States and the republic of Panama relating thereto.
3. The custody of all supplies needed for sanitary purposes and such construction necessary for sanitary purposes as may be assigned to this department by the commission.
4. Such other duties as he may be charged with from time to time by the secretary of war.
5. He shall reside on the isthmus and devote his entire time to the service, except when granted leave of absence by the secretary of war.

The head of the third department is the chief engineer. He has full charge on the isthmus:

1. Of all the actual work of construction carried on by the commission on the isthmus.
2. The custody of all the supplies and plant of the commission upon the isthmus.
3. The practical operation of the railroad

on the isthmus, with the special view to its utilization in canal construction work.

4. He shall reside on the isthmus and devote his entire time to the service except when granted leave of absence by the secretary of war.

While Stevens was appointed chief engineer, he was not made a member of the commission, and the responsibility which had been divided between Wallace and Shonts was all placed upon the latter. The engineering work is under the immediate supervision of Mr. Stevens, but under the general direction of Chairman Shonts.

In September, 1905, a number of eminent engineers of America and Europe met in Washington, D. C., to make investigations and recommendations as to the type of canal to be built, as it had not been decided whether it should be a sea-level or a lock canal. They visited the isthmus and on returning to Washington formulated majority and minority reports, the foreign engineers favoring a sea-level and a majority of the American engineers a lock canal.

In a message to congress Feb. 19, 1906, President Roosevelt transmitted the reports of the board of consulting engineers and the Isthmian canal commission and announced that unless otherwise directed by congress he would order the canal commission to proceed with the construction of the lock type of canal. The majority of the board of consulting engineers, eight in number, including the five foreign engineers, favored a sea-level canal, and one member of the canal commission, Rear-Admiral Endicott, took the same view. Five of the eight American members of the board of consulting engineers and five members of the Isthmian canal commission favored the lock canal and so did Chief Engineer Stevens and the secretary of war. The president concurred in the recommendation of the minority of the consulting engineers and of the majority of the canal commission that the lock plan be adopted. This was also the view taken by the members of the 59th congress, which at its first session passed a bill directing that a lock canal should be constructed. It was also determined that all the materials used in building the canal should be purchased in the United States.

PLAN OF THE CANAL.

The canal begins in the bay of Limon, a mile northwest of the city of Colon on the Atlantic side, with a channel 500 feet in width and 41 feet in depth at mean tide, running due south to the shore line of Limon bay, at the mouth of the Mindi river. This distance is 4½ miles. Then the canal passes through low and swampy ground in a southerly direction 3 miles to the town of Gatun, the width for this stretch being 500 feet and the depth 45 feet. At Gatun there is a space between the hills of over 7,000 feet, through which the waters of the Chagres river and its tributaries flow to the sea. This space is buttressed on either side with rocks and hills, and about midway in this space there is a mountain of rock and earth, in which it is proposed to excavate a diversion channel through which the Chagres river will flow during the construction of the earth dam. The plan is to construct this dam across the entire space at a height of 135 feet above sea level and create a lake. Vessels are to be raised to the level of the lake, to be known as Lake Gatun, by three

duplicate locks ranging in a flight of steps, each lock being 900 feet interior length, 95 feet wide, 40 feet deep over the miter sills, with a lift in each lock of 28 2-3 feet. These six locks, constructed of a mass of masonry and concrete, will be buried in Gatun hill and founded on rock throughout. Lake Gatun, when created by the construction of this dam, will be about 110 square miles in area and will form the summit level of the canal, which will be 85 feet above sea level. The total length of the lake will be 30 miles, of which 23 miles will be navigated by ships crossing the isthmus. Its depth will be about 75 feet in the immediate vicinity of the dam, this being maintained with little reduction to Bohio (a distance of about 10 miles), and thence reducing gradually toward Obispo, where the depth of 45 feet will be obtained with but little excavation, the bed of the river being about 45 feet below the surface of the future lake.

For 15.69 miles above the Gatun locks the deep portion of the lake will have generally a width exceeding half a mile, and only a small amount of excavation will be required to provide a navigable channel nowhere less than 1,000 feet wide at the bottom and 45 feet deep. Farther up the lake, as the amount of excavation required to obtain a depth of 45 feet increases, the minimum width of the channel will be decreased, first to 800 feet for a distance of 3.86 miles from San Pablo to Juan Grande, then to 500 feet for 3.73 miles to Obispo, and to 300 feet for 1.55 miles from Obispo to Las Cascades, where the channel will be further narrowed to 200 feet through the heaviest portion of the great central mass known as Culebra.

For a distance of 4.7 miles through the deep portion of the Culebra cut the channel is to have a bottom width of 200 feet and to have nearly vertical sides below the water line, and then will become 300 feet wide for 1.88 miles to the Pedro Miguel locks, where the summit level will end. The duplicate locks at Pedro Miguel will have one lift of 31 feet. Passing the locks the channel will be 500 feet wide for 1.64 miles, then increasing to 1,000 feet or more for the further distance of 3.38 miles to the Sosa locks on the shore of Panama bay. This broad navigation will be in an artificial lake created by three dams, to be subsequently described. There are to be duplicate flights of locks on the west side of Sosa hill near La Boea with two lifts of about 31 feet each from ordinary low tide to the level of Lake Sosa. From the Sosa lock to the 7-fathom curve in Panama bay, a distance of 4 miles, the channel is to be 300 feet wide at the bottom and 45 feet deep below mean tide.

The waterway may be summarized with reference to channel widths as follows:

Width.	Length, miles.	Per cent of route.
100 feet.....	19.08	38.4
800 feet.....	3.86	7.8
500 feet.....	12.29	24.7
300 feet.....	7.21	14.5
200 feet.....	4.70	9.4
Locks and approaches.....	2.58	5.2
Total	49.72	100.0

The estimated cost of the canal is \$139,705,200 and the time for its completion eight and a half years. It is expected that it will be open for navigation in 1914 or 1915.

DEATH OF HENRIK IBSEN.

Henrik Ibsen, one of the foremost dramatists of modern times, died in Christiania, Norway, May 23, 1906. He had been ill for some time and had not engaged in active literary work for a number of years. Ibsen was born March 20, 1828, and began writing poetry at the age of 21. His first play, "Catiline," was written in 1850. "Brand"

is considered his greatest poem and "A Doll's House," "The Pillars of Society," "Ghosts" and "An Enemy of the People" are among the best known of his dramas. These and others of his productions have been translated into many languages so that Ibsen's influence upon the modern stage was practically world-wide.

KING AND QUEEN OF NORWAY CROWNED.

King Haakon VII. and Queen Maud of Norway were crowned in the ancient cathedral at Trondhjem, June 22, 1906. The religious ceremonies were conducted by the bishops of Trondhjem, Christiania and Bergen and the crown was presented in each case by Premier Michelsen. Among the

spectators were the prince and princess of Wales and a large number of diplomats, statesmen, military and naval officers, representatives of other countries and distinguished persons from many parts of the world.

*Innocent party only. †Subsequent to marriage. ‡Curable, after marriage. §Absence of ten years. ¶After divorce.

NOTE—Consanguinity and Infidelity are causes for divorce in all the states.

MARRIAGE LAWS.

Marriage may be contracted without the consent of parents by males who are 21 years of age or more. This is the rule in about all the states having laws on the subject. In Arizona the age is 18. For females the age is 21 in Connecticut, Florida, Kentucky, Louisiana, Ohio, Pennsylvania, Rhode Island, South Dakota, Virginia, West Virginia and Wyoming; 16 is the age in Arizona, Maryland and Nebraska and 18 in the other states. Marriages contracted before the age of consent are illegal in nearly all the states.

Marriage licenses are required in all the states and territories with the exception of New Mexico, New Jersey, New York, North Dakota, Oklahoma and South Carolina.

Marriages between whites and negroes are prohibited by law in Alabama, Arizona,

Arkansas, California, Colorado, Delaware, District of Columbia, Florida, Georgia, Idaho, Indiana, Kentucky, Maryland, Mississippi, Missouri, Nebraska, Nevada, North Carolina, Oklahoma, Oregon, South Carolina, Tennessee, Texas, Utah, Virginia and West Virginia. Michigan specifically declares such marriages valid.

Marriages between first cousins are prohibited in Arizona, Arkansas, Illinois, Indiana, Kansas, Louisiana, Missouri, Montana, Nevada, New Hampshire, North Dakota, Ohio, Oklahoma, Oregon, Pennsylvania, South Dakota and Wyoming. Step-relatives are not permitted to intermarry except in California, Colorado, Florida, Georgia, Idaho, Minnesota, New Mexico, New York, North Carolina, Oregon, Utah and Wisconsin.

Commanderies have been established in twenty-two states and territories. Total membership about 1,700.

The order is a military organization with patriotic objects, having for its scope the period of American history since national independence. It stands for the needed and honorable principle of national defense against foreign aggression. The principal feature of the order is the perpetuating of the names, as well as the services, of commissioned officers who served in either the war of the revolution, the war with Tripoli, the war of 1812, the Mexican war or the war with Spain and all future campaigns, recognized by the United States government as war with foreign powers. Veteran companionship is conferred upon such officers and hereditary companionship upon their direct lineal descendants in the male line.

BALLOON RACING.

Sixteen balloons started from Paris Sept. 30, 1906, for a long-distance and endurance race under the auspices of the Aero club of the French club. James Gordon Bennett offered a cup styled the "Coupe Internationale des Aeronautes." The contest was won by Lieut. Frank S. Lahm, an American, who

was accompanied by Maj. H. B. Hersey, an American weather-bureau observer. They landed near Scarborough, England, after covering a distance of about 415 miles. Sig. Von Willer, who made 370 miles, was second. C. S. Rolls of England won the endurance medal by remaining longest in the air.

RECORD OF RACES TO DATE.

1851—Aug. 22. In this, the year of the great exhibition in London, the Royal Yacht club of England offered a cup to the winner of a yacht race around the Isle of Wight. The course was 60 miles in length and was won by the schooner-yacht America, designed by George Steers for John C. Stevens of the New York Yacht club. The America was 94 feet over all, 88 feet on the water line, 22½ feet beam and 11½ feet draft. There was no time allowance and the competing yachts ranged in size from a three-masted 392-ton schooner, the Brilliant, to the 47-ton cutter, the Aurora, which came in second in the race. The time of the America was 10 hours and 34 minutes; that of the Aurora was 24 minutes slower. The cup after that became known as the America's cup and has now been successfully defended for fifty-four years.

THE EMPEROR'S CUP.

The first international ocean yacht race for a cup offered by the emperor of Germany was sailed in 1905. The course was from Sandy Hook, N. J., to the Lizard, England, a distance of approximately 3,000 miles. The Atlantic, which was sailed by Capt. Charles Barr, won the race, arriving at the Lizard at 9:16 p. m., May 29, and beating the best previous record, made by the Endymion, by one day and sixteen and one-half hours. The actual elapsed time was twelve days and

MINE RIOTS IN CANANEA, MEXICO.

Disturbances caused by a strike of Mexican laborers employed by the Greene Consolidated Copper company in its mine at Cananea, Mexico, resulted in the killing of four Americans and twelve Mexicans June 1 and 2, 1906. It was charged

that politics also had something to do with the collision, agents working against the interests of President Diaz having incited the workmen to acts of violence. Order was restored by Mexican troops hurried to the scene from neighboring points.

THE B. F. FERGUSON MONUMENT FUND.

By the will of Benjamin Franklin Ferguson, a pioneer lumberman who died April 10, 1905, the perpetual income from a trust fund of \$1,000,000 was set aside for defraying the cost of statuary to be erected in the parks and boulevards of Chicago. The fund is to be known as the "B. F. Ferguson monument fund" and is to be used "entirely and exclusively under the direction

of the board of trustees of the Art Institute of Chicago in the erection and maintenance of enduring statuary and monuments of stone, granite or bronze, in the parks, along the boulevards and in other public places, commemorating worthy men and women of America or important events of American history." The Northern Trust company is designated as trustee.

*Law passed in 1905. †No tax collected. ‡Total for 1903 and 1904.

NOTE—The following states and territories have no inheritance-tax laws: Arizona, District of Columbia, Florida, Georgia, Idaho, Kansas, Mississippi, Nevada, New Mexico, Oklahoma, Rhode Island, South Carolina and Texas.

LEGACY OR INHERITANCE TAX LAWS.

A law taxing the right to inherit personal property by will or intestate law was passed by congress July 6, 1797. The rate was 25 cents on amounts from \$50 to \$100; 50 cents on amounts from \$100 to \$500, and for every further sum of \$500 the additional sum of \$1." This act continued in force until June 30, 1802. A national legacy-tax law was again enacted July 1, 1862, amended in 1864 and in 1866 and repealed in 1870, five years after the close of the war of the rebellion. Again June 13, 1893, congress enacted a legacy-tax law which was amended in 1901 and continued in force until repealed July 1, 1902. Under the acts of 1893 and 1901 the sum of \$21,603,699.02 was collected and paid into the national treasury up to June 30, 1904.

Pennsylvania enacted a legacy-tax law April 6, 1826, which law as amended from time to time is still in force. Legacy-tax laws were enacted in Maryland in 1844 and Delaware in 1869. They were enacted in North Carolina in 1846 and repealed in 1883. Were enacted in Virginia in 1844, repealed in 1855, re-enacted in 1863 and again repealed in 1884. Since 1885 legacy-tax laws have been enacted in twenty-nine states, namely, Arkansas, California, Colorado, Con-

necticut, Illinois, Iowa, Kentucky (1906), Louisiana, Maine, Massachusetts, Michigan, Minnesota, Missouri, Montana, Nebraska, New Hampshire (1905), New Jersey, New York, North Dakota, Ohio (repealed 1905), Oregon, Tennessee, Utah, Vermont, Virginia, Washington, West Virginia, Wisconsin and Wyoming.

DEATH OF PRESIDENT HARPER.

William B. Harper, president of the University of Chicago and one of the most noted educators of his generation, died at his home in Chicago Jan. 10, 1906. He had been incurably ill from cancer for some months, but continued actively at work until the last few days of his life. Dr. Harper was distinguished as a teacher of Hebrew and Sanskrit, as a writer on biblical subjects, as an orator and as an organizer of ex-

traordinary ability. It was through his work and influence mainly that the University of Chicago, now ranking as one of the great schools of the world, was established and provided with abundant means for carrying on its mission of usefulness. He was born in July, 1856, and was thus less than 50 years of age at the time of his death.

RACE WAR IN ATLANTA, GA.

In a series of riots in Atlanta, Ga., Sept. 22-25, 1906, eighteen negroes and one white man were killed. The cause alleged was

the attacking of white women by colored men. Order was restored by sending several companies of state troops into the city.

The total recorded immigration into the United States since the organization of the government is, in round numbers, 24,000,000 persons.

IMMIGRATION LAW OF THE UNITED STATES.

Approved March 4, 1903.

The act codifies and amends the existing immigration laws. It raises the poll tax on aliens from \$1 to \$2, whether they arrive by sea or land, but exempts citizens of Canada, Cuba and Mexico. The tax is not levied on aliens in transit through the United States nor upon such as have been admitted

into the country before and have already paid the tax. The money collected from this source is to go into the national treasury and constitute a permanent fund for defraying the expenses of regulating immigration. The following classes are excluded from admission into the United States: Idiots,

insane persons, epileptics and persons who have been insane five years previous; paupers and persons likely to become public charges; persons afflicted with dangerous and contagious diseases; felons, polygamists, anarchists or persons who believe in or advocate the overthrow by force or violence of the government of the United States or of all governments or of all forms of law, or the assassination of public officials; prostitutes; those who have been, within one year from the date of application for admission, deported as being under agreement or contract to perform labor or service of some kind; all assisted immigrants, unless it is affirmatively shown that they do not belong to any of the foregoing classes; but this section shall not be held to prevent persons living in the United

States from sending for a relative or friend who is not of the excluded classes. Persons convicted of purely political offenses are not excluded.

It is provided that skilled labor may be imported if labor of like kind unemployed cannot be found in this country. The provisions of the law applicable to contract labor do not exclude professional actors, artists, lecturers, singers, ministers of any religious denomination, professors for colleges or seminaries, persons belonging to any recognized learned profession or persons employed strictly as personal or domestic servants. The time within which persons landed in violation of law, or who shall become public charges, may be deported is extended from one to two and three years.

BRITISH EDUCATION BILL.

The most important measure passed by the house of commons at the first session of the new parliament in 1906 was the education bill. This, if concurred in by the house of lords, will nationalize all the primary schools of the united-kingdom, bring them under complete public control and abolish all religious tests. The first clause, which is the really operative one, is as follows:

"On and after Jan. 1, 1908, a school shall not be considered a public elementary school unless it is a school provided by the local education authority."

Until 1902 there were in the united kingdom board schools and "voluntary" or denominational schools, both receiving government support, and the former getting in addition a part of the taxes. An act of parliament in 1902 placed all the schools on the rates (taxes), and the schools were distinguished by the terms "provided" for board schools and "nonprovided" for voluntary schools. Under the act of 1906 all schools must be board schools and publicly managed, all "nonprovided" schools being abolished.

Undenominational teaching is to be the rule hereafter, with certain exceptions. Owners of existing denominational school buildings may make it a part of their bargain with the local authority that in the case of children whose parents so desire, religious instruction of "some special character" shall be permitted on not more than two mornings in the week. Such instruction, however, must not be paid for by the local authority nor may the teacher take part in it. On the other three mornings undenom-

national religious teaching will be given. No denominational teaching of any kind will be permitted in what are now provided schools or the old board schools.

In cases where the parents of at least four-fifths of the children desire for them religious instruction of a special character, and if there is sufficient public-school accommodation in the district for the remainder of the children, the local authority may allow "extended facilities" for such instruction, but not at the public expense.

Children attending public elementary schools are not required to be present in the schoolhouse except during the time allotted exclusively to secular instruction. No teacher is to be required as a part of his duty to give any religious instruction whatever, nor to attend any church, nor to be subject to any religious test. In all schools he may take part in undenominational religious teaching, but he must not take part, except in certain specified cases, in denominational instruction.

In addition to any other parliamentary grant, there shall be annually paid out of moneys provided by parliament a grant of £1,000,000 (\$5,000,000), to be distributed among the local education authorities in such shares and in such manner as may be determined by the board of education. The king is authorized to establish a central education authority for Wales, to be called the council of Wales, which shall have power to supply and to add the supply of education of all kinds in Wales.

NATIONAL CEMETERIES.

ARCTIC AND ANTARCTIC EXPLORATION.

News was received from Robert E. Peary Nov. 2, 1906, that he had reached 87 degrees 6 minutes north latitude, thus eclipsing the record made by Duke d'Abuzzi in 1900 by about thirty-four miles. His telegram announcing this important event in the history of arctic exploration tersely summarized the work of his expedition as follows: "Hopedale, Labrador (via Twillingate, N. F.), Nov. 2.—Herbert L. Bridgman: The Roosevelt wintered on the north coast of Grant land, a little north of Alert's winter quarters. Went north with sledges in February via Hekla and Columbia. Delayed by open water between 84 and 85 degrees. Beyond 85 six days. Gale disrupted ice, destroyed caches, cut off communication with supporting bodies and drifted due east. Reached 87 degrees 6 minutes north latitude over ice, drifting steadily eastward. Returning ate eight dogs. Drifted eastward, delayed by open water, and reached north coast of Greenland in straitened conditions. Killed musk oxen and returned along Greenland coast to ship. Two supporting parties driven on north coast of Greenland. One reached by me in starving condition. After one week's recuperation on Roosevelt sledged west, completing north coast of Grant land, and reached other land near 100th meridian. Homeward voyage was incessant battle with ice, storm and head winds. Roosevelt magnificent ice fighter and sea boat. No deaths or illness in expedition. PEARY."

Commander Peary sailed from New York for the north in his ship, the Roosevelt, July 15, 1905.

WELLMAN-CHICAGO RECORD-HERALD EXPEDITION.

The Wellman-Chicago Record-Herald polar expedition attracted widespread attention during the year. Preparations for this were begun in the latter part of 1905, when the Chicago Record-Herald commissioned its Washington correspondent, Walter Wellman, to build an airship for the purpose of reaching the north pole. Mr. Wellman made the first public announcement of his plans Dec. 31, 1905, and in January proceeded to Paris, where he gave orders for the construction of a dirigible balloon according to plans elaborated by himself, M. Santos-Dumont and other experienced aeronauts. Briefly, his idea was to build an airship of sufficient size to carry himself and companions with the necessary equipment from Spitzbergen to the north pole and back while keeping in touch with the outside world by means of wireless telegraphy.

Work on the airship was begun in February, 1906, M. Louis Godard of Paris being the contracting engineer. The chief specifications were as follows: Length of balloon, 164.04 feet; greatest diameter, 52.49 feet; surface, 21,098 square feet; lifting power, 16,000 pounds; length of steel car, 52.5 feet; weight of airship complete, 6,600 pounds; weight of crew and equipment, 9,400 pounds; propelling power, two gasoline motors, one of fifty and the other of twenty-five horse-power. The airship was completed in June and on the 16th of that month it was shipped to Dane's island, Spitzbergen, where a balloon house was already

under construction. Wireless stations were constructed at Hammerfest, Norway, and on Dane's island and these were used during the summer.

Mr. Wellman arrived with his airship, which he christened "America," at the proposed starting point July 10 and joined with his companions in pushing forward the preparatory work as fast as possible, but there were many delays, defects were discovered in the machinery and other circumstances were such as to make it impossible to attempt the voyage until the summer of 1907. The idea of making the flight in 1906 was finally abandoned Aug. 28. This contingency had been foreseen from the start and was not unexpected. It is proposed to make the trip in July or August of 1907. Those who are expected to accompany Mr. Wellman are Gaston Hervieu, aeronaut; Maj. Hersey, weather observer; M. J. Smith, wireless telegraph expert, and Paul Colardeau, motor engineer.

THE NORTHWEST PASSAGE.

In December, 1905, Capt. Roald Amundsen of Norway arrived in Alaska after having completed the northwest passage and relocated the magnetic pole. He began his voyage in June, 1903, sailing from Christiania in the forty-seven-ton sloop Gjoa. His course took him through Baffin bay, Lancaster sound, Barrow strait, Peel sound, James Ross strait, Rae strait, Simpson strait, Dease strait, Coronation gulf, Dolphin strait and Union strait to King Point on the western side of the Mackenzie river delta, arriving there in September, 1905. The voyage was completed through Bering strait in the summer of 1906, the Gjoa being taken to Seattle. Capt. Amundsen and his crew returned home via San Francisco, Chicago and New York. The expedition devoted much time to fixing the position of the north magnetic pole, which, it is reported, was found in King William land, not far from the place ascribed to it by Ross. The captain accumulated much information relating to magnetic variation, inclination and intensity, the three elements of terrestrial magnetism, and made extensive surveys in King William land, Boothia and the adjacent territory.

THE MIKKELSEN EXPEDITION.

Capt. Einar Mikkelsen sailed in the schooner Duchess of Bedford from Victoria, B. C., May 21, 1906, on an expedition to the Beaufort sea and the regions lying between the American archipelago and the New Siberia islands north of Asia. His purpose was to winter on Banks land and in the spring of 1907 start on a sledge journey from Prince Alfred cape toward the northwest. Capt. Mikkelsen received a grant of \$3,000 from the American Geographical society to aid him in his enterprise. He was accompanied by Ernest DeK. Lettingwell of Chicago.

THE CARNEGIE HERO FUND.

In April, 1904, Andrew Carnegie placed in the hands of a commission the sum of \$5,000,000 to be known as "the hero fund." Its purpose is to reward with medals and money the men and women who perform heroic deeds, or, in case they lose their lives, to care for those dependent upon them. Only such as follow peaceful vocations on sea or land in the United States and Canada are eligible to become beneficiaries of the fund. The headquarters of the commission is in Pittsburgh, Pa., and F. M. Wilmot is the secretary. The first awards of medals and money were made in May, and others in October, 1905. The names of the recipients will be found on page 360 of The Daily News Almanac and Year-Book for 1906. Awards announced May 16, 1906, included the following:

Lucy Ernst, Philadelphia, silver medal for saving life of boy bitten by a rattlesnake. She sucked the poison from the wound and was made seriously ill thereby.

Capt. T. E. Haggerty, silver medal and \$1,200; Fireman Michael Sasso and Engineer R. W. Simpson, each a silver medal and \$500 for rescue of crew of schooner Yukon near Ashtabula, O.

Widow of Michael Glismonde, Mount Pleasant, Pa., silver medal and \$600. Her husband lost his life trying to save a boy overcome by gas.

William Watkins, Edwarsville, Pa., silver medal and \$1,200 for rescuing three miners from death by gas.

Michael P. O'Brien, New York, N. Y., silver medal for rescuing a mother and two children from a burning building.

Walter H. Murbach, Elyria, O., silver medal for rescue of a boy from drowning.

Widow of Henry Stuckel, Unity, Pa., bronze medal and \$1,200. Mr. Stuckel lost his life trying to save two men from drowning.

John Delo, Oil City, Pa., bronze medal and \$500 for rescuing comrade from being electrocuted on an electric light pole.

Therese S. McNally, 13 years of age,

bronze medal and \$2,000 for saving a 4-year-old child from drowning.

Richard X. Hughes, Bangor, Pa., bronze medal for rescuing a workman whose clothing had caught fire.

Capt. Mark Casto and crew of six men of fishing schooner, medals and \$9,500 for rescuing fifty-two persons from wreck of steamer Cherokee, near Atlantic City, N. J., Jan. 14, 1906. (Award announced Jan. 31, 1906.)

The following awards were announced Oct. 17, 1906:

William J. A. Darst, aged 14, and Clifford W. Snyder, aged 14, each a bronze medal and \$1,000 for saving two boys from drowning in Lake Michigan at Chicago.

Elsie C. Plantz, aged 15, Appleton, Wis., silver medal for rescuing a girl from river.

Irving Church, aged 20, Menominee Falls, Mich., bronze medal for rescuing three girls from river.

Harris J. Giddings, Lawrence A. Hanlon and Peter Lancaster, Milwaukee, Wis., firemen, each a gold medal and \$1,500 for rescuing at the risk of their lives man imprisoned in tunnel.

James V. Goodman, aged 30, Warsaw, Ind., killed while rescuing city marshal from sewer where he had been overcome by gas; widow given a silver medal and \$1,500.

Arthur Simon, aged 15, Wabash, Ind., bronze medal for saving two girls from drowning.

William C. Stillwell, aged 13, Bellaire, Mich., bronze medal and \$2,000 for saving young girl from drowning.

Rufus K. Combs, Midway, Ky., silver medal and \$1,000 for saving man from vault filled with gas.

Samuel M. de Sherbinin, Langham, Canada, bronze medal for saving man from drowning.

Henry J. Schiller, aged 31, Lakeside, O., bronze medal and \$1,500 for saving boy from drowning in the lake.

John M. Parks, LeRoy McCoy and Wallace C. McPeters, Ketchum, Idaho, bronze medals for saving fellow miners from death.

The total of the cash awards made in May and October was \$23,500.

PASSPORTS.

Passports are issued to citizens of the United States upon application to the state department in Washington. The application must be accompanied by an affidavit, attested by a notary public or other officer empowered to administer oaths, stating that the applicant is a citizen and giving the place of birth and age, and it must be accompanied by the certificate of one other citizen, to whom he is personally known, that the declaration made by the applicant

is true. The application must also be accompanied by a description of the person, particularly as to age, height, complexion, forehead, eyes, nose, mouth, chin, hair and face. Blank forms are furnished by the state department upon application. The fee for each passport is \$1. Citizens traveling abroad may also obtain passports by applying to United States ambassadors and ministers.

REVOLUTION IN CUBA.

Dissatisfaction with the way in which the presidential election in December, 1905, was conducted and the filing of the government offices with moderates led the liberal party of Cuba to revolt against President Palma in 1906. Disorder began in the early part of the year and culminated in armed insurrection in August and September. Among the most active of the rebel leaders were Gen. Loinaz del Castillo, Col. Pino Guerra, Juan Gilberto Gomez, Velas, Carlos and Justo Garcia and Gen. Demetrio Castillo. Their operations were carried on chiefly in the provinces of Pinar del Rio, Havana, Santa Clara and Santiago. The government troops were unable to offer effective resistance and before the middle of September nearly the whole of the country with the exception of the city of Havana was in the possession of the insurgents.

Sept. 14 President Roosevelt wrote a letter to Senor Quesada, Cuban minister to the United States, in which he warned the Cuban people that unless they adjusted their differences peaceably and put an end to the armed revolt it would be the duty of the United States, under its treaty with Cuba, to intervene for the protection of life, property and individual liberty. At the same time he sent the secretary of war, William H. Taft, and the assistant secretary of state, Robert Bacon, to Havana as the representatives of the United States to secure a settlement of the troubles. Warships had already been sent and Sept. 13 a number of marines were temporarily landed in Havana. Conferences were held between representatives of the insurgents and the government and the American officials with the result that a truce was declared. President Palma considered the terms upon which peace was to be re-established humiliating and, with the members of his cabinet, resigned Sept. 29. The Cuban congress was dissolved on the same day and thus the country was left without a government. Secretary Taft immediately assumed charge on behalf of the United States and issued a proclamation, dated at Havana, Sept. 29, 1906, the essential part of which follows:

"To the people of Cuba: The failure of congress to act on the irrevocable resignation of the president of the republic of Cuba or to elect a successor leaves the country without a government at a time when great disorder prevails and requires that, pursuant to the request of Mr. Palma, the necessary steps be taken in the name and by the authority of the president of the United States to restore order and protect life and property in the island of Cuba and the islands and keys adjacent thereto, and for this purpose to establish therein a provisional government.

"The provisional government hereby established will be maintained only long enough to restore order, peace and public confidence, by direction of and in the name of the president of the United States, and then to hold such elections as may be necessary to determine on those persons upon whom the permanent government of the republic should be devolved.

"In so far as is consistent with the nature of a provisional government established under the authority of the United States this will be a Cuban government, conforming with the constitution of Cuba. The Cuban flag will be hoisted as usual over the government buildings of the island; all the executive departments and provincial and municipal governments, including that of the city of Havana, will continue to be administered as under the Cuban republic; the courts will continue to administer justice and all the laws not in their nature inapplicable by reason of the temporary and emergent character of the government will be in force."

Oct. 3 President Roosevelt appointed Charles E. Magoon provisional governor of Cuba and Oct. 13 Secretaries Taft and Bacon sailed for home. Gen. J. F. Bell, chief of staff, was placed in command of the "Army of Cuban Pacification," consisting of about 6,000 men. The insurgents gave up their arms and Oct. 10 a proclamation giving general amnesty was issued covering all acts of political violence.

THE CARNEGIE FOUNDATION.

On the 27th of April, 1905, it was announced by Frank A. Vanderlip, vice-president of the National City bank of New York city, that Andrew Carnegie had transferred to a board of trustees \$10,000,000 first mortgage 5 per cent United States Steel corporation bonds, the purpose of the trust fund thus created being to provide annuities for college professors in the United States, Canada and Newfoundland who from old age or other physical disability are no longer in a position to render the most efficient service. The trustees are as follows:

A. T. Hadley, Yale university.
Charles William Elliot, Harvard university.
Nicholas Murray Butler, Columbia university.
Jacob G. Seburman, Cornell university.
Woodrow Wilson, Princeton university.
L. Clark Selbye, Smith college.
Charles C. Harrison, University of Pennsylvania.
Alex. C. Humphreys, Stevens institute.

S. B. McCormick, Western University of Pennsylvania.

Edwin B. Craighead, Tulane university.

H. C. King, Oberlin college.

C. F. Thwing, Western Reserve university.

Thomas McClelland, Knox college.

Edwin H. Hughes, Depauw university.

H. McClelland Bell, Drake university.

George H. Denny, Washington and Lee university.

President Peterson, McGill university.

Samuel Plantz, Lawrence university.

David S. Jordan, Leland Stanford Jr. university.

W. H. Crawford, Allegheny college.

Henry S. Pritchett, Massachusetts Institute of Technology.

F. A. Vanderlip, New York.

T. Morris Carnegie, New York.

R. A. Franks, Hoboken, N. J.

The corporation having charge of the fund is styled "The Carnegie Foundation." No annuity to exceed \$2,400 is paid.

ISLAND OF PORTO RICO.

Porto Rico, according to the decision of the United States Supreme court in the insular cases May 27, 1901, is a territory appurtenant and belonging to the United States, but not a part of the United States within the revenue clause of the constitution. The island was ceded to the United States by Spain Dec. 10, 1898, and was under military rule until the Foraker law went into effect May 1, 1900. (For the provisions of that law see The Daily News Almanac for 1901.) In accordance with the third section of that act, the legislative assembly of Porto Rico having put into operation a system of local taxation to meet the necessities of government, President McKinley on the 25th of July, 1901—the anniversary of the landing of American troops on the island in 1898—proclaimed free trade between the United States and Porto Rico.

GOVERNMENT—Civil government, under the provisions of the Foraker act, was established May 1, 1900. The upper house consists of eleven members, six of whom are "cabinet" officers appointed by the president; the lower house is made up of thirty-five delegates elected by the people every two years. The governor, who is appointed by the president, has practically the same duties as the governor of any other territory of the United States. The present offi-

cers are: Governor, Beckman Winthrop; secretary, R. H. Post; attorney-general, Frank Fuerlle; commissioner of education, Roland P. Falkner.

AREA AND POPULATION—The area of Porto Rico is about 3,600 square miles and the population, as shown by the military census of 1899, is 953,243. Of these 941,751 are natives. The whites number 589,426 and the colored 363,817. The colored are subdivided into 304,352 mestizos, 59,390 negroes and 75 Chinese. By departments the population is: Aguadilla, 99,645; Arecibo, 162,308; Bayamon, 147,681; Guayama, 111,986; Humacao, 100,866; Mayaguez, 127,566; Ponce, 203,191. The cities having more than 5,000 inhabitants are: San Juan, 32,048; Ponce, 27,952; Mayaguez, 15,187; Arecibo, 8,008; Aguadilla, 6,425; Yauco, 6,108; Caguas, 5,450; Guayama, 5,334.

COMMERCE—For the year ended June 30, 1906, the total domestic exports from Porto Rico to foreign countries were \$4,060,594, and to the United States \$19,055,474. Foreign imports amounted to \$2,602,784, and imports from the United States amounted to \$18,648,991. Of the exports Spain took \$810,290; Cuba, \$1,556,293; France, \$634,191; Germany, \$136,106; Austria-Hungary, \$274,932.

The leading articles of export are coffee, oranges, brown sugar and tobacco.

THE PHILIPPINE ISLANDS.

The Philippine Islands were ceded to the United States by Spain Dec. 10, 1898. Maj.-Gen. Merritt was the first military governor. He was succeeded in August, 1899, by Maj.-Gen. E. S. Otis, who in turn was followed in May, 1900, by Maj.-Gen. Arthur MacArthur. The last named remained in office until July 4, 1901, when the military authority was transferred to Gen. A. R. Chaffee. By order of the president Gen. Chaffee was relieved of his duties as military governor July 4, 1902, and the office terminated. The Philippine commission was at the same time made the superior authority. Sept. 2 the Islands were divided into three military departments, to be known as the department of Luzon, the department of Visayas and the department of Mindanao.

OFFICIALS AND SALARIES—The government of the Philippine Islands is in the hands of a commission appointed by the president of the United States, consisting in November, 1906, of James F. Smith of California, Prof. Dean C. Worcester of Michigan, W. Morgan Shuster of the District of Columbia, W. Cameron Forbes of Massachusetts and Trinidad Parlo de Tavera, Benito Legarda and Jose R. Luzuriaga of the Philippines. The officers in 1906 were:

Governor-General—James F. Smith.

Vice-Governor and Secretary of Commerce and Police—Vacancy.

Secretary Interior Department—Dean C. Worcester.

Secretary of Commerce and Police—W. Cameron Forbes.

Secretary Public Instruction—W. M. Shuster.

Executive Secretary—Arthur W. Fergusson.

Auditor—Abraham L. Lawshe.

Treasurer—Frank A. Branagan.

Superintendent of Education—David P. Barrows.

Director-General of Posts—C. M. Cotterman.

Attorney-General—Gregorio Araneta.

Solicitor-General—Vacancy.

Acting Collector of Customs—H. B. McCoy.

Chief Justice Supreme Court—Cayetano Arellano.

The governor receives \$20,000 a year (\$15,000 as governor-general) and the other commissioners receive \$15,500 each (\$10,500 being for their services as heads of departments). The salaries of other leading officials are: Executive secretary, \$7,500; assistant executive secretary, \$4,000; auditor, \$6,000; collector of customs, \$7,000; attorney-general, \$7,000; solicitor-general, \$5,000; chief justice Supreme court, \$10,500; associate justices, \$10,000; superintendent of public education, \$6,000; director-general of posts, \$6,000; treasurer, \$7,000.

AREA AND POPULATION—The total land and water area of the Philippine archipelago is 832,968 square miles and the population 7,635,436.

PRODUCTS AND CLIMATE—The chief products are hemp, sugar, coffee, tobacco leaf, copra, cigars and indigo. Between 600,000 and 700,000 bales of hemp are exported annually.

The climate of the Philippine Islands is considered excellent, for the tropics. The mean temperature in Manila ranges from 77 in January to 83 in May. June, July, August and September are the rainy months; March, April and May the hot and dry, and October, November, December, January and February the temperate and dry.

TRADE WITH THE UNITED STATES—The

shipments of merchandise from the United States to the Philippines in the fiscal year ended June 30, 1906, amounted in value to \$5,458,867, as compared with \$6,198,384 in 1905. The principal articles sent were: Bread-stuffs, \$379,755; cotton manufactures, \$403,896; iron and steel manufactures, \$838,918; oils, \$218,593; provisions, \$490,705; spirits, wines and liquors, \$149,798; wood and manu-

factures of wood, \$431,249. The imports amounted in value to \$12,337,927, as compared with \$12,657,904 in 1905. The principal articles imported were: Unmanufactured manila, \$10,818,683; straw hats, \$29,807; sugar, \$1,424,136; tobacco, \$5,896.

IMPORTS AND EXPORTS—The total imports of the Philippine islands in 1905 amounted to \$23,114,852; total exports, \$16,681,097.

TERRITORY OF HAWAII.

Annexed to United States Aug 12, 1896.

Created a territory June 14, 1900.

Governor—George H. Carter.

Secretary—Henry E. Cooper.

POPULATION—According to the federal census of 1900 the total population of the territory is 154,001. In 1890 it was 89,990. The only large city is Honolulu, which in 1900 had a population of 39,306. By island divisions the population is as follows: Hawaii, 46,843; Kauai and Niihan, 20,734; Lanai and Maui, 25,416; Oahu, 58,504; Molokai, 2,504.

COMMERCE WITH THE UNITED STATES—The total value of the shipments of merchandise from Hawaii to the United States for the

twelve months ended June 30, 1906, was \$26,850,463. Brown sugar was the principal item, amounting to 712,560,997 pounds, valued at \$23,840,803. SANTOS DUMONT'S FLYING MACHINE.

In Paris Oct. 23, 1906, M. Santos Dumont, the aeronaut, made a circular flight of more than one kilometer (.62 mile) in a machine built on the aeroplane principle and propelled by a sixty-horse-power motor. While

the flight was not entirely successful, it apparently demonstrated that the problem of aerial navigation without the aid of gas had been solved and M. Dumont was awarded a cup and cash prize of \$10,000.

*Estimated.

The membership of trade unions in the United States can only be stated approximately, as there are numerous organizations that publish no figures and many others claim no accuracy for the figures that they do publish; even the American Federation of Labor does not obtain accurate reports as to the membership of the affiliated national unions. The total membership of the federation as officially reported at its annual convention last December was 1,494,300. To

this may be added 250,000 members of the seven organizations of railway men that are not attached to the federation and perhaps as many more in other outside unions and federations—including in the latter term the Knights of Labor, American Labor union, Industrial Workers of the World, and in the former term the boxmakers and sawyers, bricklayers and masons, letter carriers, lithographers, Western Federation of Miners, plasterers and stonecutters.

DIVORCE DECISION BY THE SUPREME COURT.

It was decided by the United States Supreme court April 16, 1906, that divorce obtained in states which do not have jurisdiction over both parties to a marriage are

not enforceable outside the state granting them. A divorce to be legal must be obtained in the state of which both parties are residents.

When the constitution has been framed it must be ratified by the people of the two territories at an election. The representatives in congress are to be chosen at the same election. If the constitution is ratified it will be certified to the president, who will then issue a proclamation announcing the admission of Oklahoma to the union.

The United States senators will be elected by the legislature after the formal admission of the state into the union.

WINNERS OF THE NOBEL PRIZES.

[Prepared for The Daily News Almanac by B. Lofgren, chief clerk of the Nobel foundation.]

PHYSICS.

- 1901—William Conrad Roentgen, professor of physics at the University of Munich, for his discovery of the rays bearing his name.
- 1902—Divided equally between Henrik Anton Lorentz, professor of physics at the University of Leyden, and Peter Zeeman, professor of physics at the University of Amsterdam, for their researches in the effects of magnetism on the phenomena of radiation.
- 1903—Half to Antoine Henri Becquerel, professor of physics at the Ecole Polytechnique and at the Museum d'Histoire Naturelle, Paris, France, member Institute Francaise, in recognition of his discovery of spontaneous radioactivity; half to Pierre Curie, professor of physics at the University of Paris (Sorbonne) and teacher in physics at the Paris Municipal School of Industrial Physics and Chemistry, and his wife, Marie Sklodovska Curie, preceptress at the Higher Normal School for Young Girls at Sevres, "as an acknowledgment of the extraordinary merit they have acquired through the work which they have done in common in connection with the radiation phenomena discovered by Prof. Henri Becquerel."
- 1904—Lord Rayleigh, professor of natural philosophy, Royal Institution of Great Britain, London, for his investigation of the constituent elements of the most important gases and for his discovery of argon in connection with that investigation.

- 1905—Prof. Philippe Lenard, professor of physics at the Physical Institute of Kiel, for his investigation of the cathode rays and recognition of his excellent works on "Electricity in Waterfalls," "The Cathode Rays and Their Electric Action on Gases," "The Bringing Out of Cathode Rays from Ultraviolet Light" and others.

CHEMISTRY.

- 1901—Jakob Hendrik van't Hoff, professor of chemistry in the University of Berlin, for discovering the laws of chemical dynamics and of osmotic pressure in solutions.
- 1902—Emil Fischer, professor of chemistry in the University of Berlin, for his synthetic works within the sugar and purine groups.
- 1903—Svante August Arrhenius, professor at the University of Stockholm, for elaborating and demonstrating his theory of electrolytic dissociation, and thus promoting the development of chemistry.
- 1904—Sir William Ramsay, professor of chemistry in the University college, London, in recognition of his merit in discovering atmospheric gases and determining their place in the periodic system.
- 1905—Prof. Adolf von Baeyer, professor of chemistry at Munich, for his recent

discoveries of the green coloring matter "cœrulein" and red coloring matter "eosin" and of "indol" and of his discovery of the process to make artificial indigo blue. He is the world's most noted student of synthetic chemistry and has in the last few years discovered a great number of processes of value to the industrial world.

MEDICINE.

- 1901—Emil Adolf von Behring, professor of hygiene and medical history at the University of Marburg, Prussia, for his works on serum therapeutics, with especial reference to diphtheria.
- 1902—Donald Ross, professor of tropical medicine at the University College of Liverpool, for his discovery of the cause and cure of malaria.

PROCEEDINGS AGAINST TRUSTS.

The prosecution of cases brought against trusts, railroads and other corporations for violating the Sherman, Elkins and similar federal and local laws against acts in restraint of trade was greatly assisted by a decision of the United States Supreme court announced March 12, 1906. It was in effect that in proceedings under the antitrust laws witnesses could be compelled to testify and that books and papers required must be produced. Suits begun by the federal and local authorities in 1904 and 1905 were vigorously prosecuted and many new ones instituted in various parts of the country. Among the defendants were the meat packers, the Standard Oil company, the tobacco, paper, fertilizer, ice, refrigerator, elevator and lumber trusts and various other combinations. The Elkins antirebate law was the basis for many suits against the railroads and the trusts. Up to the middle of November fifty-three indictments had been found against hundreds of defendants, covering thousands of transactions. There had been fourteen criminal convictions and individuals and corporations had been fined more than \$300,000. Brief notices of some of the cases attracting general attention follow:

BEEF PACKERS.

Feb. 21, 1905, a special grand jury was called by the federal authorities to meet in Chicago March 20 to investigate the beef trust for alleged violations of the Sherman

antitrust law. On the date named the inquiry was begun and July 1 twenty-one packing company officials and five of the corporations with which they were connected were indicted by the jury in the United States District court. Seventeen of the number were indicted for a conspiracy to restrain commerce and trade by monopolizing the meat product and four were indicted for conspiring to secure rebates from various railroads in connection with the shipment of meat. The following individuals were indicted for conspiracy:

J. Ogden Armour, Charles W. Armour, Louis F. Swift, Edward F. Swift, Charles H. Swift, Edward Cudahy, Arthur E. Evans, L. A. Carton, Edward Morris, Ira N. Morris, Arthur Meeker, T. J. Connors, P. A. Valentine, A. H. Veeder, R. C. McManus and D. E. Hartwell.

Corporations indicted: Armour & Co. of Illinois; Armour Packing company, organized under the laws of New Jersey, Charles W. Armour of Kansas City, president; Swift & Co., Fairbank Canning company and the Cudahy Packing company.

Indicted for rebating: B. S. Cusey, traffic manager for Schwarzschild & Sulzberger; V. D. Skipworth and C. M. Todd, assistant traffic managers for same firm, and Samuel Weil of New York, vice-president of Schwarzschild & Sulzberger in 1903.

Sept. 21, 1905, the four officials last named

appeared before Judge J. Otis Humphrey in the United States District court in Chicago and pleaded guilty to the indictments charging them with conspiracy to accept railroad rebates. A fine of \$10,000 was imposed upon Samuel Weil and \$5,000 upon each of the others.

Oct. 5, 1905, counsel for the defendants filed a demurrer to the indictment and on Oct. 18 the demurrer was overruled as to some of the counts and sustained as to others. Oct. 23 special immunity pleas were filed and Dec. 13 the trial began. A jury had been called, but it was excluded while the lawyers argued the immunity plea. The packers were represented by John S. Miller, W. J. Hyues, Moritz Rosenthal and John C. Cowen and the government by United States Attorney-General William H. Moody and District Attorney Charles B. Morrison. March 21, 1906, Judge J. Otis Humphrey, before whom the case was heard, decided that the individual packers were entitled to immunity from prosecution, specifically because the investigation of the beef industry in 1904 by Commissioner of Corporations James R. Garfield was in effect compulsion upon the packers to produce evidence tending to incriminate themselves—evidence which afterward was contained in the indictments against them. As to the corporations, however, the judge held that they were entitled to no such immunity and that they must stand trial.

June 12 in Kansas City, Mo., Armour & Co. and the Nelson Morris Packing company were found guilty of having accepted rebates from the Chicago, Burlington & Quincy railroad. The case was appealed.

RAILROAD REBATING.

NEW YORK CENTRAL CASE.

In the United States Circuit court, New York, Oct. 17, 1906, the New York Central Railroad company and Frederick L. Pomeroy, its general traffic manager, were found guilty of giving rebates to the American Sugar Refining company in 1904. Judge George C. Holt, who presided at the trial, fined the company \$108,000 and Pomeroy \$6,000. In passing sentence the judge said the crime had been deliberate and premeditated and therefore was much more heinous than the ordinary, common, vulgar crimes usually brought before the criminal courts. The corporation had received large and valuable public privileges. It was under the highest obligations to treat all citizens alike and not to grant any unjust discriminations.

CHICAGO & ALTON CASE.

In the United States District court in Chicago, Judge K. M. Landis presiding, the Chicago & Alton Railroad company and two of its former officers were found guilty July 6, 1906, of granting rebates to Schwarzschild & Sulzberger, packers. July 11 the company was fined \$20,000 on each of two counts; John N. Faithorn, former vice-president, \$5,000 on each of two counts, and Fred A. Wann \$5,000 on each of two counts, making the total \$60,000.

SANTA FE CASE.

Chief Justice William J. Mills in the United States court at Las Vegas, N. M., July 12, 1906, imposed a fine of \$15,000 on the Atchison, Topeka & Santa Fe Railroad company and the Colorado Fuel and Iron company for violating the antirebate law.

MINNESOTA CASES.

Nov. 8, 1906, the federal grand jury in Minneapolis, Minn., returned ten true bills against the Wisconsin Central, the Minneapolis & St. Louis, the Chicago, St. Paul, Minneapolis & Omaha and the Great Northern railroad companies for granting rebates and the McCaull-Densmore Grain company for accepting rebates.

BURLINGTON ROAD CASE.

In Kansas City, Mo., June 13, the Chicago, Burlington & Quincy road was convicted of giving rebates to certain packing companies.

REFRIGERATOR COMPANY CASE.

In Milwaukee, Wis., June 11, the federal court issued a perpetual injunction against several railroads forbidding the granting of rebates to a refrigerator car company.

STANDARD OIL COMPANY.

PRESIDENT'S MESSAGE.

May 3, 1906, President Roosevelt sent the Garfield oil report to congress with a message in which he said that the Standard Oil company had, according to the facts developed in the investigation, benefited enormously by secret rates, many of which were clearly unlawful. "This benefit," the president declared, "amounts to at least \$750,000 a year. This \$750,000 represents the profit that the Standard Oil company obtains at the expense of the railroads; but of course the ultimate result is that it obtains a much larger profit at the expense of the public." The message recommended that the fee to oil lands held by the government should be held by the government; that railroads should be permitted to protect themselves from the great corporations and that the interstate-commerce commission should examine the affairs of a railroad as thoroughly as bank examiners examine banks. The president also announced in the message that the department of justice would institute proceedings in certain of the cases reported upon by the commissioner of corporations.

INDICTMENTS IN CHICAGO.

Aug. 27, 1906, ten indictments containing 6,423 counts were returned against the Standard Oil company by two federal grand juries in the United States Circuit court in Chicago. The indictments covered five different classes of offenses and the total amount of rebates alleged to have been paid to the company by seven railroads was \$487,690. The indictments were brought under the Elkins law and constituted what was practically the first step taken by the government in the prosecution of the oil trust, though indictments had been returned a short time before by juries at Jamestown, N. Y., and Jackson and Memphis, Tenn. The railroads concerned in the Chicago cases were the Chicago, Burlington & Quincy, Chicago & Alton, the Chicago & Eastern Illinois, the Evansville & Terre Haute, the Illinois Central, the Southern and the Lake Shore & Michigan Southern.

THE OHIO CASE.

In the case of the state of Ohio against the Standard Oil company of Ohio the jury at Findlay returned a verdict Oct. 19, 1906, of guilty on the charge of conspiracy in restraint of trade in violation of the Val-

entire antitrust law. Proceedings were also begun under the antirebate law in Cleveland, O.

ACTION IN ST. LOUIS.

Attorney-General Moody instituted proceedings against the Standard Oil company of New Jersey under the Sherman antitrust act by filing in the United States Circuit court in St. Louis, Mo., Nov. 15, a petition in equity against the company and its seventy constituent corporations and partnerships and seven individual defendants, asking

that the combination be declared unlawful and in the future enjoined from entering into any contract or combination in restraint of trade.

THE PAPER TRUST.

The prosecution of the General Paper company begun by the government in 1904 was successfully terminated in the United States District court in Minneapolis, Minn., when the defendant company withdrew its pleas and was compelled to dissolve its organization.

EARTHQUAKE AND FIRE IN VALPARAISO, CHILE.

Nearly two-thirds of the city of Valparaiso, Chile, was destroyed by earthquakes and fire Aug. 16-17, 1906. Santiago and other smaller cities on the coast suffered severely from the shocks, which were more than 300 in number. The loss of life in Valparaiso was at first estimated at 5,000, but later investigation showed that probably not more than 1,500 were killed. The exact number will never be known, as the fire following the earthquake destroyed everything in the ruins. The property loss was also exaggerated, being first placed at \$250,000,000. It has since been estimated at \$100,000,000.

The first shock occurred at 7:15 p. m., Aug. 16, and was followed a few minutes later by a second still more severe, and then by a series of lighter ones lasting five hours. As was the case in San Francisco, the water and gas mains were broken and fires broke out almost immediately in several places and swept over a large part of the city, doing much more damage than the earthquake itself. The inhabitants fled into the open squares and to the surrounding hills, where they suffered much from lack of food, water and shelter, the railroads leading to other points having been made temporarily use-

less, so that no provisions could be brought in except by water. The sailors from the Chilean fleet landed Aug. 17 and did much to restore order and prevent looting.

Most of the damage done by the shocks and fire was in the main business part of the city, the quarter in which the custom house and municipal buildings were located suffering the least. Many of the finer residences on the hills were destroyed by landslides. Among the prominent structures ruined were the churches of Espiritu Santo and La Marced, the Club de Setiembre and the Victoria theater. Nearly every building in the Avenue Brazil and Victoria street, both prominent thoroughfares, was destroyed. The earthquake shocks were so severe that practically no building in Valparaiso escaped without some damage. The Chilean government voted \$4,000,000 for the relief of the sufferers and other countries sent contributions.

In Santiago thirty persons were killed and property valued at \$1,500,000 was destroyed. Other towns damaged by the earthquake were Arica, Casablanca, Quillota, San Felipe, Quiribue, Petorca and Limache.

DISASTER AT ATLANTIC CITY, N. J.

Sunday afternoon, Oct. 28, 1906, a train of three electric cars on the West Jersey and Seashore electric road plunged through a trestle spanning the waterway between At-

lantic City, N. J., and the mainland. Of the eighty-eight passengers aboard fifty-three were drowned, only a few of those in the rear coach escaping.

SAN FRANCISCO EARTHQUAKE AND FIRE.

Date—April 18, 1906.
 Lives lost—452.
 Persons injured—1,500.
 Persons made homeless—265,000.
 Property loss—\$350,000,000 (estimated).
 Loss to insurance companies—\$132,823,067.21.
 Buildings destroyed—60,000.
 Blocks or squares burned—453.
 Area of burned district—3.96 square miles.
 Relief appropriation by congress—\$2,500,000.
 Relief subscriptions—\$11,000,000.

One of the greatest calamities in the history of the United States occurred Wednesday, April 18, 1906, when an earthquake destroyed a portion of the city of San Francisco, Cal., and started a number of fires resulting in a conflagration which within the following two or three days wiped out part of the residence and nearly the whole of the business section of the city. Four hundred and fifty-two persons were killed and property to the value of \$350,000,000 was destroyed.

The first shock came at 5:13 o'clock on the morning of April 18. It was very severe and, while it was followed by many other quakes on that and succeeding days, they did comparatively little damage. The total loss of life occasioned by the original shock was 266, the other casualties resulting from the fire later in the day, and the amount of property lost by the collapse of buildings was estimated at about \$10,000,000. The principal buildings which were destroyed or seriously damaged by the earthquake alone were the city hall, the Albert Pike Masonic Memorial temple, St. Dominic's church, the Terminus hotel and the St. Agnew's insane asylum, forty miles from the city.

THE GREAT FIRE.

The earthquake broke the water mains, gas mains and electric light wires and when between 6:30 and 7:30 o'clock in the morning fires broke out near the Palace hotel, in the Mission district and at the base of Telegraph hill, there was nothing to hinder the progress of the flames. To add to the confusion, Dennis Sullivan, chief of the fire department, was so severely injured by the fall of a brick chimney at the time of the first shock that he died three days later. At first the most serious fire was that in the region south of Market street, but it soon spread to the business section and then out to the Mission and the Hayes Valley residence district. The other scattered fires combined with it and became a conflagration which swept away stores, banks, hotels, newspaper offices, theaters, halls, schools, churches, office structures—in short, buildings and establishments of every description. The noted Chinese settlement was utterly destroyed and so were most of the poorer classes of residences around Telegraph hill. The famous palaces on Nob hill met the same fate. The advance of the flames was only stayed on the second day at the broad Van Ness avenue, the efforts of the fire fighters here proving successful with the aid of dynamite and a change in the wind. The region destroyed extended three miles in extreme length and two miles in extreme width, covering an area of 3.96 square miles. North of Market street 342

city blocks were burned and south of Market street 111 blocks. The churches destroyed alone numbered fifty-seven, their aggregate value being \$1,808,500. The manufacturing plants and great sugar refineries to the south escaped, as did the larger part of the residence district to the north and west. Fortunately the great ferry building at the foot of Market street was saved, leaving open an avenue of escape for the thousands of refugees.

NOTABLE BUILDINGS DESTROYED.

Following is a list of some of the more notable buildings destroyed or seriously damaged by the earthquake and fire combined:

Apartment Buildings—Aberdeen, Buena Vista, Hamilton, Linda Vista, Pleasanton, St. Augustine.
 Art Institute—Hopkins.
 Bank Buildings—Bank of British North America, Canadian Bank of Commerce, First National, Italian-American, London, Paris and American, Nevada National, Union Trust, United States subtreasury.
 Clubs—Bohemian, Concordia, Pacific Union, Olympic, Union League.
 Department Stores—City of Paris, Emporium, Nathan, Dohrman & Co., Newman & Levinson, O'Connor, Moffatt & Co., White House.
 Hospitals—St. Mary's, Waldeck.
 Hotels—Abbot'sford, Alexandria, California, Colonial, Fairmount, Grand, Hotel Granada, Hotel Netherland, Hotel Savoy, Kingsley, Lick house, Occidental, Palace, Plymouth, Russ, St. Francis, St. Nicholas, Valencia, Victoria, Winchester.
 Newspaper Offices—Bulletin, Call, Chronicle, Evening Post, Examiner.
 Office, Mercantile and Insurance Buildings—Claus Spreckels, Crocker, Flood, Gore, Grant, Haywood, Hobart, Mercantile Trust, Merchants' Exchange, Mills, Monadnock, Mutual Life, Natoma, Pacific Mutual, Parrott, Phelan, Postal, Shreve, Sunset Telephone, Upham, Western Union.
 Public Buildings—City hall, postoffice, mint, Theaters and Halls—Alcazar, Central, Columbia, Grand opera house, Majestic, Mechanics' Pavillion, Odd Fellows' hall, Orpheum.
 The mint was not badly injured and the postoffice was put in use almost immediately. The Haywood and other buildings of modern steel construction stood the fire and earthquake better than any other class of structures.

THOUSANDS MADE HOMELESS.

San Francisco in April, 1906, had an estimated population of about 360,000 and of these some 265,000 were made temporarily homeless. Many took refuge in Oakland or went to other cities, but the majority were given shelter in army tents in Golden Gate park and other open places. Order was maintained by federal and state troops under Gen. Frederick Funston, who took charge immediately after the earthquake, and, besides helping to stop the advance of the fire and preventing looting, looked after the distribution of food and clothing until Mayor Eugene E. Schmitz appointed committees to do a part of this work. Within a few days after the disaster Dr. Edward

T. Devine, representing the National Red Cross society, at the suggestion of President Roosevelt, went to San Francisco and took charge of the relief measures. He was ably assisted by ex-Mayor James D. Pheian and other prominent citizens of the city and by experienced men from other places. At first there was lack of water and food, but the mains were quickly repaired and provisions by trainloads were rushed in at once from all sides.

RELIEF CONTRIBUTIONS.

Congress, which was in session, appropriated \$2,500,000 for the relief of the stricken city and corporations, companies and individuals throughout the country at once began raising money for the purchase of supplies of every kind needed. Within a few weeks \$4,245,000 in cash had been sent to the San Francisco finance committee, of which James D. Pheian was the chairman, and the total actually subscribed by June 5 was \$7,467,088.97. The exact figures of the amount contributed for the benefit of the sufferers will never be exactly known, as much of it came from relatives and friends and went directly to individuals.

APPROXIMATE STATEMENT.

Appropriated by congress.....	\$2,500,000
Cash subscriptions.....	8,319,000
Privately distributed.....	200,000

INSURANCE LOSSES.

Most of the American and foreign insurance companies doing business in San Francisco passed safely through the crisis caused by their enormous losses, the Traders of Illinois being a notable exception. Its loss was placed at \$3,748,000 and it was placed in a receiver's hands. Some of the companies objected to paying the amounts called for in the policies because they held that they were not liable for earthquake damages, but most of them settled by paying all claims in full or in part. According to a statement prepared by the New York state superintendent of insurance the gross amount of insurance involved was \$222,836,307.74 and the actual loss to the companies \$132,823,067.21. The actual loss of the foreign companies was \$57,701,865.63, of the

New York companies \$23,138,090.74, and of companies in other states \$51,983,111.44.

EFFECT ON STOCKS.

The following table shows the effect of the San Francisco disaster upon the market value of some of the active stocks traded in on the New York stock exchange, the total depreciation of all stocks being estimated at about \$900,000,000.

IN OTHER TOWNS.

Some of the smaller cities in the vicinity of San Francisco also suffered severely from the earthquake. In Santa Rosa seventy-one persons were killed and fifty-three injured, twenty-four blocks of buildings being destroyed. The business center of San Jose was ruined and a score of persons were killed. At the Stanford university several of the buildings were wrecked and others damaged. There was also considerable destruction at Sallinas, Napa, Hollister, Redwood City and Santa Cruz. But little damage was done at Oakland, Berkeley and Alameda, though these places are only across the bay from San Francisco.

GREAT ERUPTION OF MOUNT VESUVIUS.

About the middle of March, 1906, lava began to overflow from the crater of Mount Vesuvius, taking a southwesterly direction. Other signs of unusual activity were also apparent, but it was not until the first week in April that danger was feared by persons living in the vicinity of the volcano. Then an enormous stream of lava came from the summit and, flowing down the side of the mountain, united with streams that burst from the lower strata. The molten flood almost entirely destroyed the village of Boscotrecase. Throughout the lava discharge the volcano was comparatively quiet and without electrical phenomena or explosions. The only ominous sign was the advancing wave of lava and the cinders forming an enormous cloud in the shape of a pine tree over the crater. What followed is thus described by Prof. Matteucci, director of the observatory on the volcano, who remained at his post throughout the disturbance:

"Our really terrible time came at 3 o'clock Sunday morning, April 8, and lasted until 8 o'clock. The mountain, which hitherto had been silent, suddenly gave out a deafening roar and a great rent was made in its cone. Huge solid rocks were hurled skyward. Some of them fell near the observatory, threatening to crush in the roof, but most of them fell far outside the observatory zone. There were no scoriae in this first discharge, but solid, bluelike stones, which cut the roof and damaged the windows. Throughout Sunday enormous solid blocks of stone rose to a height of 2,500 feet from the crater, while ashes and sand were thrown much higher, but toward Monday the terrible shocks of earthquake gradually diminished. One of the worst features of the eruption was the unusual extent of the electrical phenomena, the darkness being broken by vivid flashes of lightning, giving the sky a bloodlike color, with short, heavy peals

of thunder interspersed. No one thought of sleep, but all stood gazing at the awful scene. At 3 o'clock in the morning the lowest station seemed to be burning and at half past 3 the whole cone broke open with a tremendous earthquake shock. Red-hot projectiles were precipitated toward Mount Somma and the observatory. Compared with other great eruptions this is one of the most important in the history of Vesuvius. Its effects are less terrible than those of the eruption in the year 79, when Pompeii was buried, but it equals in intensity the great eruptions of 1631 and 1872."

Many of the towns at the foot of Vesuvius suffered severely from the fall of ashes and cinders. Torre del Greco, with a population of 25,000, was half buried and so was Torre Annunziata, a still larger place. Here a number of houses in the suburbs were destroyed by lava. Boscotrecase was partly destroyed by the lava, but the people escaped.

DESTRUCTIVE EARTHQUAKE IN FORMOSA.

Saturday afternoon, March 17, 1906, two earthquake shocks of great severity occurred on the island of Formosa. Investigation by the Japanese authorities showed that 1,238 persons were killed, 872 severely injured and 1,457 slightly injured; total killed and injured, 3,567. Of these only 45 were Japa-

At Ottajano, a town of 20,000 people, four feet of ashes and cinders fell, causing the collapse of five churches and many houses. Here the greatest loss of life occurred, the number of victims being estimated at about 150. Other places that suffered in a lesser degree were San Giuseppe, Portici, Caserta, Nola and San Giorgio. Pompeii was threatened for a time, but only a few houses were destroyed, while the famous ruins from the ancient eruption escaped injury. In Naples, twelve miles from the volcano, the fall of ashes was so great that it caused the collapse of the roof of one of the market places and the death in the ruins of twelve persons and the injury of many more.

The violence of the eruption began subsiding April 11 and a few days later the volcano was in its usual condition. The appearance of the summit was completely changed, several hundred feet of the crater rim having been blown off by the explosions.

nese, all the others being native Formosans. The districts in which fatalities occurred were as follows: Kagi, Damyo, Shinko, Baishiko, Chubo, Bokushiyoku and Tenshiko. The total number of houses destroyed was 5,556 and about as many more were damaged.

HURRICANES ON THE GULF COAST.

The gulf coast from Pensacola, Fla., to New Orleans, La., was devastated by a storm beginning Sept. 25 and culminating Thursday morning, Sept. 27, 1906. The wind blew with cyclonic violence from the southeast and south. Lighthouses and other government stations were ruined and in some cases the occupants drowned. The largest number of lives were lost and the greatest damage done in Pensacola, Fla., and Mobile, Ala. In the former place seventy-five persons lost their lives and \$5,000,000 worth of property was destroyed. In Mobile between seventy-five and 100 lives were lost and property valued at \$4,000,000 was destroyed. New Orleans suffered comparatively little damage to property. About fifteen lives were lost in the vicinity of the city. The villages of Navyport, Bayou la Bache and Coden were swept

away. Eight large vessels and thirty smaller ones were wrecked. The total number of lives lost was about 200 and the total damage not less than \$10,000,000.

More than 1,500 lives were lost in a hurricane which swept the southeastern coast of Florida and the northern part of Cuba Oct. 17-18, 1906. Elliott's key was engulfed by a tidal wave and 250 persons were drowned; seventy were lost from the steamers St. Lucia and Peerless and eighteen were killed in the city of Havana, where the storm was the worst experienced in half a century. The largest number of casualties was on barges and dredges used by contractors building a railroad along the keys to connect the mainland with Key West. About 1,200 workmen were reported drowned. The property loss in Havana was placed at \$2,000,000.

DESTRUCTIVE TYPHOON AT HONGKONG.

In a typhoon which occurred at Hongkong and vicinity Sept. 18, 1906, 10,000 Chinese and a number of Europeans were drowned through the wrecking of steamers, launches, sampans and junks. The storm was of a local nature, but of great severity. Damage to the amount of \$20,000,000 was done to shipping and to property on the Kowloon

peninsula. Among the steamers that foundered or were driven ashore were the Mont-eagle, Fatsan, Albatross, Ying Fat, Keungshan, Sorsogon, S. P. Hitchcock, Emma Luyken, San Rosario, Slava, Pakhong, Petrarch and Chinkai Maru. Several English and French torpedo boats were driven ashore or sunk.

HURRICANE IN SOCIETY AND TAUMOTO ISLANDS.

One hundred and fifty lives were lost and property valued at \$1,500,000 was destroyed by a hurricane which visited the Society and Taumoto Islands Feb. 7 and 8, 1906. The city of Papeete, in Tahiti, was inundated; twenty-five buildings were swept away.

At Anaa a stone building collapsed, killing forty-eight persons who had taken refuge in it. The British ship County of Roxborough, the schooner Tahitiene and the quarantine schooner Elmeo were wrecked and about fifty seamen drowned.

STORMS IN HONDURAS AND SAN SALVADOR.

Oct. 12, 1906, a West Indian hurricane visited the towns of Ruatan, Tela, Utilia and El Provenca, Honduras, causing damages estimated at \$1,000,000. The British schooner Southern Queen and a number of other vessels were wrecked on the coast. In San Sal-

vador the storm began Oct. 12 and lasted nearly ten days. More than 100 persons were drowned in Coatepeque and casualties were reported from numerous other points. An immense amount of damage was done by floods.

REVOLUTION IN RUSSIA.

THE FIRST PARLIAMENT.

In accordance with the manifestoes of Aug. 19 and Oct. 30, 1905, members of the first national assembly in Russia, called the *douma*, were elected in the spring of 1906. They were not chosen by direct vote of the people, but by electoral bodies in the chief cities and provinces, these electoral bodies themselves being chosen by district or town elective assemblies. The term of the deputies, or members of the *douma*, was fixed at five years, or during the life of the *douma*. The old council of the empire was reorganized and formed into the soviet, or upper house of the national assembly, half of the members being elected and half appointed by the czar, the total number being forty-eight. The total membership of the lower house in 1906 would have been 524 had all the elections taken place before the assembly was dissolved. As it was, less than 450 were in attendance. These represented a great variety of nationalities, the majority being Great Russians. In religion 339 were Russian orthodox, 63 catholics, 14 Mohammedans, 11 Jews and 13 protestants, the remainder being old believers, Buddhists or infidels. The membership included 204 peasants and 164 noblemen. In regard to politics classification was found to be difficult owing to the generally hazy ideas of the members as to what they wanted. The constitutional democrats were in control with 153 members and the "group of toil," or peasant party, came next with 107 members. There were also autonomists, democratic reformers, moderates, Octoberists and industrialists and more than 100 belonged to no party. The power of initiative in legislation was given to both houses and before being submitted for imperial sanction laws had to be passed by both. The czar expressly reserved the power of dissolving the *douma* at his pleasure and of rejecting any or all measures passed.

OPENING OF THE DOUMA.

The *douma* began its sessions in St. Petersburg May 10, 1906. The opening ceremonies took place in St. George's hall of the winter palace in the presence of the czar, zarina, the grand dukes and other dignitaries and were marked by much splendor and pomp. In his address from the throne the emperor said:

"Divine Providence has laid upon me the care of the welfare of the fatherland and has moved me to summon representatives elected by the people to co-operate in the work of framing laws. With an ardent belief in a prosperous future for Russia I welcome in you the best men of the empire, to whose election I commanded my beloved people to proceed. Difficult and complicated labors await you, but I believe the ardent wishes of the dear native land will inspire you and unite you. I for my part will unswervingly uphold the institutions which I have granted in the firm conviction that you will devote all your powers to the self-sacrificing service of the fatherland; to a clear presentation of the needs of the peasants, which lie so close to my heart; to the enlightenment of the people and to the development of the country's well-being. You must realize that for the great welfare of

the state not only is liberty necessary, but also order, as the basis of laws. May my ardent wishes be fulfilled. May I see my people happy and be able to bequeath to my son as his inheritance a firmly established, well-ordered, enlightened state. May God bless me in conjunction with the council of the empire and the *douma* in the work before us and may this day prove the moral rejuvenation of Russia and the reincarnation of her best powers! Go to the work to which I have summoned you and justify worthily the trust of your czar and your country. God help me and you!"

REPLY TO THE CZAR.

On the assembling of the *douma* in the Tauride palace, where its sessions were to be held, Prof. Sergei Andreivitch Mourmotsseff, a constitutional democrat, was elected president by a vote of 426 to 7. The council of the empire organized under the presidency of Count Solsky. The first speeches in the *douma* demanded amnesty for all political prisoners.

The address to the czar as adopted by unanimous vote May 18 contained the following demands:

1. General amnesty.
 2. The abolition of the death penalty.
 3. The suspension of martial law and all exceptional laws.
 4. Full civil liberty.
 5. The abolition of the council of the empire.
 6. The revision of the fundamental law.
 7. The establishment of the responsibility of ministers.
 8. The right of interpellation.
 9. Forced expropriation of land.
 10. Guaranty of the rights of trade unions.
 11. No new taxes levied without the consent of parliament.
 12. Budget or taxation projects accepted by parliament not to be altered by a nonrepresentative body.
 13. Parliament to have control of all loans.
- Some of the more striking passages in the address follow:

"Above all, it is first necessary in Russia to repeal the exceptional laws, the laws of increased protection, and the state of siege under cover of which the arbitrariness and irresponsibility of officials appear and develop. At the same time the principle of the responsibility of the administration to the representatives of the nation must be adopted.

"Parliament holds that it is its duty to declare to your majesty in the name of the people that the whole nation will carry out the creative work of renewing its life with all its power and energy, with a firm belief in the imminent elevation of the fatherland if between it and the throne there does not stand an imperial council composed of appointed dignitaries and persons elected by the highest classes of the population and if the legislative powers of the people's representatives are not limited by special laws.

"In the domain of the legislative work before it parliament regards as an absolute necessity for the country a precise law assuring inviolability of the person and liberty of conscience, speech, the press, association, gatherings and strikes.

"Careful examination of the needs of the peasantry and the measures called for by them will form parliament's next task. Parliament would not be doing its duty if it did not make a law for the satisfaction of these needs by the aid of the crown domains and monastic lands and the compulsory expropriation of land belonging to the owners of estates.

"Parliament holds that satisfaction of the needs of the working classes is equally incapable of being deferred. Popular education is another task that lies before parliament.

"Parliament further holds that it is necessary to include among the tasks the fulfillment of which cannot be deferred the question of the satisfaction of the long-matured demands of the various nationalities of the empire. Russia affords the example of a state peopled by many races and nationalities. Union in spirit of all of these is possible only through the satisfaction of the needs of each, whereby the individuality of the divers sides of their lives will be preserved and developed. Parliament will give careful heed to the task of giving wide satisfaction to these just demands.

"Your majesty: At the threshold of all our labors stands a question which stirs the soul of every nationality in the empire, which stirs up the representatives of the people and prevents us from tranquilly taking the first step of our legislative career. The first word which rang through the douma, which was received with the sympathetic cheers of the whole assembly, was the word 'amnesty.' The land thirsts for full political amnesty which will satisfy the demands of the national conscience. This petition cannot be denied. Its fulfillment cannot be delayed."

Ill feeling was created by the refusal of the czar to receive the douma's address in person and tension was greatly increased May 26, when Premier Goremykin, who had succeeded Count Witte at the head of the cabinet, refused in the name of the emperor to agree to the proposals in the reply to the throne speech. The ministerial statement was to the effect that political amnesty could not be granted, though the partial abrogation of martial law and other extreme measures might be looked for. The proposed expropriation of land was rejected on the ground that it interfered with the rights of property and it was declared that the responsibility of ministers and the abolition of the council of the empire were matters involving fundamental law and therefore beyond the province of the douma. The government was willing to concede universal suffrage, but that was all. It proposed to solve the agrarian question by the distribution through the peasants' bank of 25,000,000 acres of crown lands.

In the debates which followed the position taken by the government was severely criticised, especially by Dr. Rodicheff, M. Nabukoff, M. Aladin, Count Ilyeyden and Dr. Lednicki. A resolution was finally adopted demanding the immediate resignation of the Goremykin cabinet. A deadlock resulted and the only measure which passed both houses and was signed by the czar was one appropriating \$7,500,000 for the relief of famine sufferers.

DISSOLUTION OF THE DOUMA.

The final act of the douma was to adopt a manifesto or address to the people setting forth the reasons for the failure of the assembly to secure any of the reforms demanded. Though this manifesto was considerably toned down by the constitutional democrats, it was regarded by the czar and his advisers as another act of defiance and July 21 the douma was dissolved by an imperial ukase. In a manifesto issued on the following day the czar, after referring to the reasons which prompted him to summon the douma and his expectation that the representatives would carry out the great reforms in all departments of the national life which he had proposed, declared:

"A cruel disappointment has befallen our expectations. The representatives of the nation, instead of applying themselves to the work of productive legislation, strayed into a sphere beyond their competence and have been making comments on the imperfections of the fundamental laws, which can only be modified by our imperial will. In short, the representatives of the nation have undertaken really illegal acts, such as an appeal to the nation by parliament.

"The peasants, disturbed by such anomalies, seeing no hope for the amelioration of their lot, resorted in a number of districts to open pillage, destruction of other people's property and disobedience of law. But our subjects ought to remember that improvement in the lot of the people is only possible under conditions of perfect order and tranquillity. We shall not allow arbitrary, illegal action and shall impose our imperial will on the disobedient by all the force of the power of the state.

"We call on well-disposed Russians to unite for the maintenance of legal power and the restoration of peace to our dear fatherland. May calm be re-established in the Russian land. May God help us realize the chiefest of our tasks, that of reform of the lot of the peasants. Our will on this point is unshakable and Russian husbandmen, without other people's property being encroached upon, will be supplied, in cases where peasants' lands are too small, with legal and honest means for the enlargement of their property. Representatives of other classes will, at our request, devote all efforts to the realization of this great task, which will be performed definitely in a legislative manner by a future parliament.

"In dissolving parliament we confirm our immutable intention of keeping this institution, and in conformity with this intention we appoint March 5, 1907, the date for the convocation of the new parliament by ukase addressed to the senate."

VIBORG MANIFESTO.

Between 200 and 300 members of the douma, as soon as they heard of the ukase of dissolution, proceeded to Viborg, Finland, where they organized and adopted an address to the people concluding as follows:

"Citizens, stand up for the trampled-on rights of popular representation and for the imperial douma. Russia must not remain a day without popular representation. You possess the means of acquiring it. The government has, without the assent of the popular representatives, no right to collect taxes from the people nor to summon the people to military service. Therefore you

are, now that the government has dissolved the douma, justified in giving neither money nor soldiers. Should the government, however, contract loans in order to procure funds, such loans will be invalid without the consent of the popular representatives. The Russian people will never acknowledge them and will not be called upon to pay them. Accordingly, until the popular representatives are summoned, do not give a kopeck to the throne or a soldier to the army."

The premiership of M. Goremykin ended with the douma and he was succeeded by M. Stolypin, a former head of the interior department.

MASSACRE OF JEWS.

The reign of lawlessness and terror which began in 1905 continued throughout 1906. There were numberless assassinations by the revolutionists on the one hand and by the "black hundred" reactionary organizations on the other. Hundreds of citizens were tried by military tribunals and summarily executed, while others were deported to Siberia. The venom of the reactionaries was especially directed against the Jews and many "pogroms" or crusades against them were organized and carried out.

In the large manufacturing town of Bialystok, 100 miles northeast of Warsaw, a concerted attack upon the Jewish residents was made June 14 while a religious procession was passing through the streets. Shots were fired and bombs thrown and the people were told that the Jews were the perpetrators. Immediately the work of alleged retaliation was begun. Jewish shops were pillaged and their owners shot or wounded. As in former affairs of this kind, the bodies of the killed were mutilated and allowed to remain in the streets for many hours before being removed. The total number of killed was placed at about 200 and the wounded at 2,000. The massacre continued three days before order was restored.

Sept. 9-10 there was another massacre of Jews at Siedlce, Poland, in which 200 persons were killed and 1,000 wounded by soldiers. The latter pillaged, burned and killed indiscriminately. The massacre was followed by a reign of terror and bloodshed throughout Poland.

FOREST FIRES IN MICHIGAN AND WISCONSIN.

Forest fires swept over large areas in northern Michigan and Wisconsin during the week ended May 19, 1906. Lack of rain and a strong gale caused the flames to spread with great rapidity and many of the villages in the district were either wholly or partly destroyed. Four lives were lost. The counties in which the greatest destruction was wrought were Menominee, Dickinson, Delta and Alger in Michigan, and Marquette in Wisconsin. The towns burned or

partly burned were: Ralph, Alfred, Salvio, Quinisee, Cornell, Northland, Antoine, Foster, Spring Valley, Woodlawn, Homansville, Perronville, Loomis, Saunders, Birch, Pentoga, Dagget, Powers and Niagara, all in Michigan. Altogether an area of nearly 400 square miles was burned over and the total damage was estimated at about \$1,000,000. A large part of the loss fell on lumber companies and the railroads traversing the region.

TOTAL WEALTH OF THE UNITED STATES.

The United States census bureau in November, 1906, issued a bulletin estimating the total wealth of the country in 1904 to have been \$106,881,415,009. This shows an increase in wealth over the estimates for 1900 of nearly 21 per cent, and of 64 per cent over the estimate for 1890, when the total wealth was \$65,037,091,197. In 1904 the value of the real property taxed was \$55,607,719,435;

real property not taxed, \$6,569,527,174; live stock, \$4,073,791,736; railroads and their equipment, \$11,244,752,000; materials and products of manufactures, \$7,409,286,000; furniture, carriages, etc., \$5,700,000,000; manufacturing machinery, etc., \$3,297,754,180; gold and silver coin and bullion, \$2,002,430,272; clothing, \$2,500,000,000.

*Includes scattering votes in a few cases.

In Maryland the electoral vote was split, the democrats getting seven and the republicans one, but the republican elector chosen had 51 more votes than the highest elector on the democratic ticket.

In Pennsylvania the independent vote of 2,568 is included in the Parker vote.

The electoral vote of each state in the elections of 1896, 1900 and 1904 will be found on page 28.

Other data relating to previous presidential elections will be found on pages 28 and 29.

The total vote cast in 1904 was less than that of 1900 by 412,482. It also fell below that of 1896, which was 14,073,285. The decrease was especially marked in the southern and south-western states.

In all cases the vote for the elector on each ticket receiving the highest number of votes has been used.

Note of States and Territories by Counties.

*Pluralities—Owing to litigation and other circumstances the official canvass of several of the counties in New York was delayed until late in December and the official vote of the state was not available at the time this edition of The Daily News Almanac and Year-Book went to press. The above table of pluralities on the two leading candidates for governor is mainly made up from official returns sent in from the various counties and is approximately correct. Mr. Hughes ran ahead of his ticket in New York city, where the pluralities of the other republican candidates for state offices were wiped out, so that the democratic candidates for all the places except that of governor won.

JAPANESE IN THE UNITED STATES.

In 1900 there were in the United States, exclusive of Alaska and Hawaii, 25,077 Japanese. Of these 10,151 lived in California, 5,617 in Washington, 2,501 in Oregon, 1,281 in Idaho, 2,441 in Montana and 228 in Nevada, the remainder being scattered through the other states. The Japanese in Hawaii numbered 61,111 in 1900.

The exclusion of Japanese from the public schools of San Francisco in the fall of 1906 led to diplomatic protests from Japan and to denunciation by the president in his annual message. Steps were taken in December to have the matter passed upon by the courts.

THE PRESIDENT'S MESSAGE.

To the 59th congress, second session.

To the Senate and House of Representatives: As a nation we still continue to enjoy a literally unprecedented prosperity and it is probable that only reckless speculation and disregard of legitimate business methods on the part of the business world can materially mar this prosperity.

No congress in our time has done more good work of importance than the present congress. There were several matters left unfinished at your last session, however, which I most earnestly hope you will complete before your adjournment.

I again recommend a law prohibiting all corporations from contributing to the campaign expenses of any party. Such a bill has already passed one house of congress. Let individuals contribute as they desire, but let us prohibit in effective fashion all corporations from making contributions for any political purpose, directly or indirectly.

Another bill which has just passed one house of the congress and which it is urgently necessary should be enacted into law is that conferring upon the government the right of appeal in criminal cases on questions of law. This right exists in many of the states; it exists in the District of Columbia by act of the congress. It is of course not proposed that in any case a verdict for the defendant on the merits should be set aside. Recently in one district where the government had indicted certain persons for conspiracy in connection with rebates the court sustained the defendant's demurrer, while in another jurisdiction an indictment for conspiracy to obtain rebates has been sustained by the court, convictions obtained under it and two defendants sentenced to imprisonment. The two cases referred to may not be in real conflict with each other, but it is unfortunate that there should even be an apparent conflict. At present there is no way by which the government can cause such a conflict, when it occurs, to be solved by an appeal to a higher court and the wheels of justice are blocked without any real decision of the question. I cannot too strongly urge the passage of the bill in question.

A failure to pass it will result in seriously hampering the government in its effort to obtain justice, especially against wealthy individuals or corporations who do wrong, and may also prevent the government from obtaining justice for wage workers who are not themselves able effectively to contest a case where the judgment of an inferior court has been against them. I have specifically in view a recent decision by a District judge leaving railway employes without remedy for violation of a certain so-called labor statute. It seems an absurdity to permit a single District judge, against what may be the judgment of the immense majority of his colleagues on the bench, to declare a law solemnly enacted by the congress to be "un-constitutional" and then to deny to the government the right to have the Supreme court definitely decide the question.

It is well to recollect that the real efficiency of the law often depends not upon the passage of acts as to which there is great public excitement, but upon the passage of acts of this nature as to which there is not

much public excitement, because there is little public understanding of their importance, while the interested parties are keenly alive to the desirability of defeating them. The importance of enacting into law the particular bill in question is further increased by the fact that the government has now definitely begun a policy of resorting to the criminal law in those trust and interstate-commerce cases where such a course offers a reasonable chance of success. At first, as was proper, every effort was made to enforce these laws by civil proceedings, but it has become increasingly evident that the action of the government in finally deciding, in certain cases, to undertake criminal proceedings was justifiable and that there have been some conspicuous failures in these cases, we have had many successes which have undoubtedly had a deterrent effect upon evil-doers, whether the penalty inflicted was in the shape of fine or imprisonment—and penalties of both kinds have already been inflicted by the courts. Of course, where the judge can see his way to inflict the penalty of imprisonment the deterrent effect of the punishment on other offenders is increased, but sufficiently heavy fines accomplish much.

Judge Holt of the New York District court in a recent decision admirably stated the need for treating with just severity offenders of this kind. His opinion runs in part as follows:

"The government's evidence to establish the defendant's guilt was clear, conclusive and undisputed. The case was a flagrant one. The transactions which took place under this illegal contract were very large, the amounts of rebates returned were considerable and the amount of the rebate itself was large, amounting to more than one-fifth of the entire tariff charge for the transportation of merchandise from this city to Detroit. It is not too much to say, in my opinion, that if this business was carried on for a considerable time on that basis—that is, if this discrimination in favor of this particular shipper was made with an 18 instead of a 23 cent rate and the tariff rate was maintained as against their competitors—the result might be and not improbably would be that their competitors would be driven out of business. This crime is one which in its nature is deliberate and premeditated. I think over a fortnight elapsed between the date of Palmer's letter requesting the reduced rate and the answer of the railroad company deciding to grant it and then for months afterward this business was carried on and these claims for rebates submitted month after month and checks in payment of them drawn month after month. Such a violation of the law, in my opinion, in its essential nature, is a very much more heinous act than the ordinary common, vulgar crimes which come before criminal courts constantly for punishment and which arise from sudden passion or temptation.

"This crime in this case was committed by men of education and of large business experience, whose standing in the community was such that they might have been expected to set an example of obedience to law, upon the maintenance of which alone

In this country the security of their property depends. It was committed on behalf of a great railroad corporation, which, like other railroad corporations, has received gratuitously from the state large and valuable privileges for the public's convenience and its own, which performs quasi public functions and which is charged with the highest obligation in the transaction of its business to treat the citizens of this country alike and not to carry on its business with unjust discriminations between different citizens or different classes of citizens. This crime in its nature is one usually done with secrecy and proof of which it is very difficult to obtain. The interstate-commerce act was passed in 1887, nearly twenty years ago. Ever since that time complaints of the granting of rebates by railroads have been common, urgent and insistent and altho the congress has repeatedly past legislation endeavoring to put a stop to this evil, the difficulty of obtaining proof upon which to bring prosecution in these cases is so great that this is the first case that has ever been brought in this court and, as I am informed, this case and one recently brought in Philadelphia are the only cases that have ever been brought in the eastern part of this country. In fact, but few cases of this kind have ever been brought in this country, east or west. Now, under these circumstances, I am forced to the conclusion, in a case in which the proof is so clear and the facts are so flagrant, it is the duty of the court to fix a penalty which shall in some degree be commensurate with the gravity of the offense.

"As between the two defendants, in my opinion, the principal penalty should be imposed on the corporation. The traffic manager in this case, presumably, acted without any advantage to himself and without any interest in the transaction, either by the direct authority or in accordance with what he understood to be the policy or the wishes of his employer.

"The sentence of this court in this case is that the defendant Pomeroy, for each of the six offenses upon which he has been convicted, be fined the sum of \$1,000, making six fines, amounting in all to the sum of \$6,000; and the defendant, the New York Central & Hudson River Railroad company, for each of the six crimes of which it has been convicted, be fined the sum of \$18,000, making six fines, amounting in the aggregate to the sum of \$108,000, and judgment to that effect will be entered in this case."

In connection with this matter, I would like to call attention to the very unsatisfactory state of our criminal law, resulting in large part from the habit of setting aside the judgments of inferior courts on technicalities absolutely unconnected with the merits of the case and where there is no attempt to show that there has been any failure of substantial justice. It would be well to enact a law providing something to the effect that:

No judgment shall be set aside or new trial granted in any case, civil or criminal, on the ground of misdirection of the jury or the improper admission or rejection of evidence, or for error as to any matter of pleading or procedure unless, in the opinion of the court to which the application is made, after an examination of the entire case, it shall affirmatively appear that the

error complained of has resulted in a miscarriage of justice.

LAW OF INJUNCTIONS.

In my last message I suggested the enactment of a law in connection with the issuance of injunctions, attention having been sharply drawn to the matter by the demand that the right of applying injunctions in labor cases should be wholly abolished. It is at least doubtful whether a law abolishing altogether the use of injunctions in such cases would stand the test of the courts, in which case of course the legislation would be ineffective. Moreover, I believe it would be wrong altogether to prohibit the use of injunctions. It is criminal to permit sympathy for criminals to weaken our hands in upholding the law and if men seek to destroy life or property by mob violence there should be no impairment of the power of the courts to deal with them in the most summary and effective way possible. But so far as possible the abuse of the power should be provided against by some such law as I advocated last year.

In this matter of injunctions there is lodged in the hands of the judiciary a necessary power which is nevertheless subject to the possibility of grave abuse. It is a power that should be exercised with extreme care and should be subject to the jealous scrutiny of all men and condemnation should be meted out as much to the judge who fails to use it boldly when necessary as to the judge who uses it wantonly or oppressively. Of course a judge strong enough to be fit for his office will enjoin any resort to violence or intimidation, especially by conspiracy, no matter what his opinion may be of the rights of the original quarrel. There must be no hesitation in dealing with disorder. But there must likewise be no such abuse of the injunctive power as is implied in forbidding laboring men to strive for their own betterment in peaceful and lawful ways, nor must the injunction be used merely to aid some big corporation in carrying out schemes for its own aggrandizement.

It must be remembered that a preliminary injunction in a labor case, if granted without adequate proof (even when authority can be found to support the conclusions of law on which it is founded), may often settle the dispute between the parties, and therefore if improperly granted may do irreparable wrong. Yet there are many judges who assume a matter-of-course granting of a preliminary injunction to be the ordinary and proper judicial disposition of such cases, and there have undoubtedly been flagrant wrongs committed by judges in connection with labor disputes even within the last few years, altho I think much less often than in former years. Such judges by their unwise action immensely strengthen the hands of those who are striving entirely to do away with the power of injunction, and therefore such careless use of the injunctive process tends to threaten its very existence, for if the American people ever become convinced that this process is habitually abused, whether in matters affecting labor or in matters affecting corporations, it will be well-nigh impossible to prevent its abolition.

It may be the highest duty of a judge at any given moment to disregard, not merely the wishes of individuals of great political or financial power, but the overwhelming tide of public sentiment, and the judge who

does thus disregard public sentiment when it is wrong, who brushes aside the plea of any special interest when the pleading is not founded on righteousness, performs the highest service to the country. Such a judge is deserving of all honor, and all honor cannot be paid to this wise and fearless judge if we permit the growth of an absurd convention which would forbid any criticism of the judge of another type, who shows himself timid in the presence of arrogant disorder or who on insufficient grounds grants an injunction that does grave injustice, or who, in his capacity as a construer and therefore in part a maker of the law, in flagrant fashion thwarts the cause of decent government. The judge has a power over which no review can be exercised; he himself sits in review upon the acts of both the executive and legislative branches of the government; save in the most extraordinary cases he is amenable only at the bar of public opinion, and it is unwise to maintain that public opinion in reference to a man with such power shall neither be expressed nor led.

The best judges have ever been foremost to disclaim any immunity from criticism. This has been true since the days of the great English Lord Chancellor Parker, who said: "Let all people be at liberty to know what I found my judgment upon; that, so when I have given it in any cause, others may be at liberty to judge of me." The proprieties of the case were set forth with singular clearness and good temper by Judge W. H. Taft, when a United States Circuit judge, eleven years ago, in 1895:

"The opportunity freely and publicly to criticize judicial action is of vastly more importance to the body politic than the immunity of courts and judges from unjust aspersions and attack. Nothing tends more to render judges careful in their decisions and anxiously solicitous to do exact justice than the consciousness that every act of theirs is to be subjected to the intelligent scrutiny and candid criticism of their fellow men. Such criticism is beneficial in proportion as it is fair, dispassionate, discriminating and based on a knowledge of sound legal principles. The comments made by learned text writers and by the acute editors of the various law reviews upon judicial decisions are therefore highly useful. Such critics constitute more or less impartial tribunals of professional opinion before which each judgment is made to stand or fall on its merits, and thus exert a strong influence to secure uniformity of decision. But nonprofessional criticism also is by no means without its uses, even if accompanied, as it often is, by a direct attack upon the judicial fairness and motives of the occupants of the bench, for if the law is but the essence of common sense, the protest of many average men may evidence a defect in a judicial conclusion, tho based on the nicest legal reasoning and profoundest learning.

"The two important elements of moral character in a judge are an earnest desire to reach a just conclusion and courage to enforce it. In so far as fear of public comment does not affect the courage of a judge, but only spurs him on to search his conscience and to reach the result which approves itself to his inmost heart, such comment serves a useful purpose. There are few men, whether they are judges for life or

for a shorter term, who do not prefer to earn and hold the respect of all and who cannot be reached and made to pause and deliberate by hostile public criticism. In the case of judges having a life tenure, indeed, their very independence makes the right freely to comment on their decisions of greater importance, because it is the only practical and available instrument in the hands of a free people to keep such judges alive to the reasonable demands of those they serve.

"On the other hand, the danger of destroying the proper influence of judicial decisions by creating unfounded prejudices against the courts justifies and requires that unjust attacks shall be met and answered. Courts must ultimately rest their defense upon the inherent strength of the opinions they deliver as the ground for their conclusions and must trust to the calm and deliberate judgment of all the people as their best vindication."

There is one consideration which should be taken into account by the good people who carry a sound proposition to an excess in objecting to any criticism of a judge's decision. The instinct of the American people as a whole is sound in this matter. They will not subscribe to the doctrine that any public servant is to be above all criticism. If the best citizens, those most competent to express their judgment in such matters, and above all those belonging to the great and honorable profession of the bar, so profoundly influential in American life, take the position that there shall be no criticism of a judge under any circumstances, their view will not be accepted by the American people as a whole. In such event the people will turn to and tend to accept as justifiable the intemperate and improper criticism uttered by unworthy agitators. Surely it is a misfortune to leave to such critics a function, right in itself, which they are certain to abuse. Just and temperate criticism, when necessary, is a safeguard against the acceptance by the people as a whole of that intemperate antagonism toward the judiciary which must be combated by every right-thinking man, and which, if it became widespread among the people at large, would constitute a dire menace to the republic.

LYNCHING AND MOB VIOLENCE.

In connection with the delays of the law, I call your attention and the attention of the nation to the prevalence of crime among us, and above all to the epidemic of lynching and mob violence that springs up, now in one part of our country, now in another. Each section, north, south, east or west, has its own faults; no section can with wisdom spend its time jeering at the faults of another section; it should be busy trying to amend its own shortcomings. To deal with the crime of corruption it is necessary to have an awakened public conscience and to supplement this by whatever legislation will add speed and certainty in the execution of the law. When we deal with lynching even more is necessary. A great many white men are lynched, but the crime is peculiarly frequent in respect to black men. The greatest existing cause of lynching is the perpetration, especially by black men, of the hideous crime of rape—the most abominable in all the category of crimes, even worse than murder. Mobs frequently avenge the commission of this crime by themselves tortur-

ing to death the man committing it, thus avenging in bestial fashion a bestial deed and reducing themselves to a level with the criminal.

Lawlessness grows by what it feeds upon, and when mobs begin to lynch for rape they speedily extend the sphere of their operations and lynch for many other kinds of crimes, so that two-thirds of the lynchings are not for rape at all, while a considerable proportion of the individuals lynched are innocent of all crime.

Gov. Candler of Georgia stated on one occasion some years ago: "I can say of a verity that I have within the last month saved the lives of half a dozen innocent negroes who were pursued by the mob and brought them to trial in a court of law in which they were acquitted."

As Bishop Galloway of Mississippi has finely said: "When the rule of a mob obtains, that which distinguishes a high civilization is surrendered. The mob which lynches a negro charged with rape will in a little while lynch a white man suspected of crime. Every Christian patriot in America needs to lift up his voice in loud and eternal protest against the mob spirit that is threatening the integrity of this republic."

Gov. Jelks of Alabama has recently spoken as follows: "The lynching of any person for whatever crime is inexcusable anywhere—it is a defiance of orderly government; but the killing of innocent people under any provocation is infinitely more horrible, and yet innocent people are likely to die when a mob's terrible lust is once aroused. The lesson is this: No good citizen can afford to countenance a defiance of the statutes, no matter what the provocation. The innocent frequently suffer, and, it is my observation, more usually suffer than the guilty. The white people of the south indite the whole colored race on the ground that even the better elements lend no assistance whatever in ferreting out criminals of their own color. The respectable colored people must learn not to harbor their criminals, but to assist the officers in bringing them to justice. This is the larger crime and it provokes such atrocious offenses as the one at Atlanta. The two races can never get on until there is an understanding on the part of both to make common cause with the law-abiding against criminals of any color."

Moreover, where any crime committed by a member of one race against a member of another race is avenged in such fashion that it seems as if not the individual criminal but the whole race is attacked, the result is to exasperate to the highest degree race feeling. There is but one safe rule in dealing with black men as with white men; it is the same rule that must be applied in dealing with rich men and poor men—that is, to treat each man, whatever his color, his creed or his social position, with even-handed justice on his real worth as a man. White people owe it quite as much to themselves as to the colored race to treat well the colored man who shows by his life that he deserves such treatment, for it is surely the highest wisdom to encourage in the colored race all those individuals who are honest, industrious, law-abiding and who therefore make good and safe neighbors and citizens. Reward or punish the individual on his merits as an individual. Evil will surely come in the end to both races if we substitute for

this just rule the habit of treating all the members of the race, good and bad, alike. There is no question of "social equality" or "negro domination" involved, only the question of relentlessly punishing bad men and of securing to the good man the right to his life, his liberty and the pursuit of his happiness as his own qualities of heart, head and hand enable him to achieve it.

Every colored man should realize that the worst enemy of his race is the negro criminal and above all the negro criminal who commits the dreadful crime of rape and it should be felt as in the highest degree an offense against the whole country and against the colored race in particular for a colored man to fail to help the officers of the law in hunting down with all possible earnestness and zeal every such infamous offender. Moreover, in my judgment, the crime of rape should always be punished with death, as is the case with murder; assault with intent to commit rape should be made a capital crime, at least in the discretion of the court, and provision should be made by which the punishment may follow immediately upon the heels of the offense; while the trial should be so conducted that the victim need not be wantonly shamed while giving testimony and that the least possible publicity shall be given to the details.

The members of the white race on the other hand should understand that every lynching represents by just so much a loosening of the bands of civilization; that the spirit of lynching inevitably throws into prominence in the community all the foul and evil creatures who dwell therein. No man can take part in the torture of a human being without having his own moral nature permanently lowered. Every lynching means just so much moral deterioration in all the children who have any knowledge of it and therefore just so much additional trouble for the next generation of Americans.

Let justice be both sure and swift, but let it be justice under the law and not the wild and crooked savagery of a mob.

EDUCATION OF NEGROES.

There is another matter which has a direct bearing upon this matter of lynching and of the brutal crime which sometimes calls it forth and at other times merely furnishes the excuse for its existence. It is out of the question for our people as a whole permanently to rise by treading down any of their own number. Even those who themselves for the moment profit by such maltreatment of their fellows will in the long run also suffer. No more short-sighted policy can be imagined than, in the fancied interest of one class, to prevent the education of another class. The free public school, the chance for each boy or girl to get a good elementary education, lies at the foundation of our whole political situation. In every community the poorest citizens, those who need the schools most, would be deprived of them if they only received school facilities proportioned to the taxes they paid. This is as true of one portion of our country as of another. It is as true for the negro as for the white man. The white man, if he is wise, will decline to allow the negroes in a mass to grow to manhood and womanhood without education. Unquestionably education such as is obtained in our public schools does not do everything toward making a man a good citizen, but it does much. The

lowest and most brutal criminals, those for instance who commit the crime of rape, are in the great majority men who have had either no education or very little; just as they are almost invariably men who own no property; for the man who puts money by out of his earnings, like the man who acquires education, is usually lifted above mere brutality.

Of course, the best type of education for the colored man, taken as a whole, is such education as is conferred in schools like Hampton and Tuskegee, where the boys and girls, the young men and young women are trained industrially as well as in the ordinary public-school branches. The graduates of these schools turn out well in the great majority of cases and hardly any of them become criminals, while what little criminality there is never takes the form of that brutal violence which invites lynch law. Every graduate of these schools—and for the matter of that every other colored man or woman—who leads a life so useful and honorable as to win the good will and respect of those whites whose neighbor he or she is, thereby helps the whole colored race as it can be helped in no other way, for next to the negro himself the man who can do most to help the negro is his white neighbor who lives near him and our steady effort should be to better the relations between the two. Great too the benefit of these schools has been to their colored pupils and to the colored people, it may well be questioned whether the benefit has not been at least as great to the white people among whom these colored pupils live after they graduate.

Be it remembered, furthermore, that the individuals who, whether from folly, from evil temper, from greed for office or in a spirit of mere base demagoguery, indulge in the inflammatory and incendiary speeches and writings which tend to arouse mobs and to bring about lynching not only thus excite the mob, but also tend to what criminologists call "suggestion," greatly to increase the likelihood of a repetition of the very crime against which they are inveighing. When the mob is composed of the people of one race and the man lynched is of another race, the men who in their speeches and writings either excite or justify the action tend, of course, to excite a bitter race feeling and to cause the people of the opposite race to lose sight of the abominable act of the criminal himself and in addition by the prominence they give to the hideous deed they undoubtedly tend to excite in other brutal and depraved natures thoughts of committing it. Swift, relentless and orderly punishment under the law is the only way by which criminality of this type can permanently be suppressed.

LABOR AND CAPITAL.

In dealing with both labor and capital, with the questions affecting both corporations and trades unions, there is one matter more important to remember than aught else, and that is the infinite harm done by preachers of mere discontent. These are the men who seek to foment a violent class hatred against all men of wealth. They seek to turn wise and proper movements for the better control of corporations and for doing away with the abuses connected with wealth into a campaign of hysterical excitement and falsehood in which the aim is to inflame to madness the brutal passions of

mankind. The sinister demagogs and foolish visionaries who are always eager to undertake such a campaign of destruction sometimes seek to associate themselves with those working for a genuine reform in governmental and social methods and sometimes masquerade as such reformers. In reality they are the worst enemies of the cause they profess to advocate, just as the purveyors of sensational slander in newspaper or magazine are the worst enemies of all men who are engaged in an honest effort to better what is bad in our social and governmental conditions. To preach hatred of the rich man as such, to carry on a campaign of slander and invective against him, to seek to mislead and inflame to madness honest men whose lives are hard and who have not the kind of mental training which will permit them to appreciate the danger in the doctrines preached—all this is to commit a crime against the body politic and to be false to every worthy principle and tradition of American national life.

Moreover, while such preaching and such agitation may give a livelihood and a certain notoriety to some of those who take part in it and may result in the temporary political success of others, in the long run every such movement will either fail or else will provoke a violent reaction, which will itself result not merely in undoing the mischief wrought by the demagog and the agitator but also in undoing the good that the honest reformer, the true upholder of popular rights, has painfully and laboriously achieved. Corruption is never so rife as in communities where the demagog and the agitator bear full sway, because in such communities all moral bands become loosened and hysteria and sensationalism replace the spirit of sound judgment and fair dealing as between man and man. In sheer revolt against the squalid anarchy thus produced men are sure in the end to turn toward any leader who can restore order and then their relief at being free from the intolerable burdens of class hatred, violence and demagoguery is such that they cannot for some time be aroused to indignation against misdeeds by men of wealth, so that they permit a new growth of the very abuses which were in part responsible for the original outbreak.

The one hope for success for our people lies in a resolute and fearless but sane and cool-headed advance along the path marked out last year by this very congress. There must be a stern refusal to be misled into following either that base creature who appeals and panders to the lowest instincts and passions in order to arouse one set of Americans against their fellows, or that other creature, equally base but no baser, who in a spirit of greed or to accumulate or add to an already huge fortune seeks to exploit his fellow Americans with callous disregard to their welfare of soul and body. The man who debauches others in order to obtain a high office stands on an evil equality of corruption with the man who debauches others for financial profit and when hatred is sown the crop which springs up can only be evil.

The plain people who think—the mechanics, farmers, merchants, workers with head or hand, the men to whom American traditions are dear, who love their country and try to act decently by their neighbors, owe

it to themselves to remember that the most damaging blow that can be given popular government is to elect an unworthy and sinister agitator on a platform of violence and hypocrisy. Whenever such an issue is raised in this country nothing can be gained by finching from it, for in such case democracy is itself on trial, popular self-government under republican forms is itself on trial. The triumph of the mob is just as evil a thing as the triumph of the plutocracy and to have escaped one danger avails nothing whatever if we succumb to the other.

In the end the honest man, whether rich or poor, who earns his own living and tries to deal justly by his fellows has as much to fear from the insincere and unworthy demagog, promising much and performing nothing, or else performing nothing but evil, who would set on the mob to plunder the rich, as from the crafty corruptionist, who, for his own ends, would permit the common people to be exploited by the very wealthy. If we ever let this government fall into the hands of men of either of these two classes we shall show ourselves false to America's past. Moreover, the demagog and the corruptionist often work hand in hand. There are at this moment wealthy reactionaries of such obtuse morality that they regard the public servant who prosecutes them when they violate the law, or who seeks to make them bear their proper share of the public burdens, as being even more objectionable than the violent agitator who hounds on the mob to plunder the rich. There is nothing to choose between such a reactionary and such an agitator; fundamentally they are alike in their selfish disregard of the rights of others and it is natural that they should join in opposition to any movement of which the aim is fearlessly to do exact and even justice to all.

RAILWAY EMPLOYEES' HOURS.

I call your attention to the need of passing the bill limiting the number of hours of employment of railroad employes. The measure is a very moderate one and I can conceive of no serious objection to it. Indeed, so far as it is in our power, it should be our aim steadily to reduce the number of hours of labor, with as a goal the general introduction of an eight-hour day. There are industries in which it is not possible that the hours of labor should be reduced, just as there are communities not far enough advanced for such a movement to be for their good, or, if in the tropics, so situated that there is no analogy between their needs and ours in this matter. On the isthmus of Panama, for instance, the conditions are in every way so different from what they are here that an eight-hour day would be absurd, just as it is absurd, so far as the isthmus is concerned, where white labor cannot be employed, to bother as to whether the necessary work is done by alien black men or by alien yellow men. But the wage workers of the United States are of so high a grade that alike from the merely industrial standpoint and from the civic standpoint it should be our object to do what we can in the direction of securing the general observance of an eight-hour day. Until recently the eight-hour law on our federal statute books has been very scantily observed. Now, however, largely thru the instrumentality of the bureau of labor, it is

being rigidly enforced and I shall speedily be able to say whether or not there is need of further legislation in reference thereto, for our purpose is to see it obeyed in spirit no less than in letter. Half holidays during summer should be established for government employes; it is as desirable for wage workers who toil with their hands as for salaried officials whose labor is mental that there should be a reasonable amount of holiday.

The congress at its last session wisely provided for a truant court for the District of Columbia, a marked step in advance on the path of properly caring for the children. Let me again urge that the congress provide for a thoro investigation of the conditions of child labor and of the labor of women in the United States. More and more our people are growing to recognize the fact that the questions which are not merely of industrial but of social importance outweigh all others, and these two questions most emphatically come in the category of those which affect in the most far-reaching way the home life of the nation. The horrors incident to the employment of young children in factories or at work anywhere are a blot on our civilization. It is true that each state must ultimately settle the question in its own way, but a thoro official investigation of the matter, with the results published broadcast, would greatly help toward arousing the public conscience and securing unity of state action in the matter. There is, however, one law on the subject which should be enacted immediately, because there is no need for an investigation in reference thereto, and the failure to enact it is discredit to the national government. A drastic and thoroughgoing child-labor law should be enacted for the District of Columbia and the territories.

Among the excellent laws which the congress past at the last session was an employers' liability law. It was a marked step in advance to get the recognition of employers' liability on the statute books, but the law did not go far enough. In spite of all precautions exercised by employers there are unavoidable accidents and even deaths involved in nearly every line of business connected with the mechanic arts. This inevitable sacrifice of life may be reduced to a minimum, but it cannot be completely eliminated. It is a great social injustice to compel the employe, or rather the family of the killed or disabled victim, to bear the entire burden of such an inevitable sacrifice. In other words, society shirks its duty by laying the whole cost on the victim, whereas the injury comes from what may be called the legitimate risks of the trade. Compensation for accidents or deaths due in any line of industry to the actual conditions under which that industry is carried on should be paid by that portion of the community for the benefit of which the industry is carried on—that is, by those who profit by the industry. If the entire trade risk is placed upon the employe he will promptly and properly add it to the legitimate cost of production and assess it proportionately upon the consumers of his commodity. It is therefore clear to my mind that the law should place this entire "risk of trade" upon the employer. Neither the federal law nor, as far as I am informed, the state laws dealing with the question of employers' liability are sufficiently thoroughgoing. The federal law

should of course include employes in navy yards, arsenals and the like.

The commission appointed by the president Oct. 16, 1902, at the request of both the anthracite coal operators and miners, to inquire into, consider and pass upon the questions in controversy in connection with the strike in the anthracite regions of Pennsylvania and the causes out of which the controversy arose, in their report, findings and award express the belief that "the state and federal governments should provide the machinery for what may be called the compulsory investigation of controversies between employers and employes when they arise." This expression of belief is deserving of the favorable consideration of the congress and the enactment of its provisions into law. A bill has already been introduced to this end.

Records show that during the twenty years from Jan. 1, 1881, to Dec. 31, 1900, there were strikes affecting 117,509 establishments and 6,105,694 employes were thrown out of employment. During the same period there were 1,005 lockouts, involving nearly 10,000 establishments, throwing over 1,000,000 people out of employment. These strikes and lockouts involved an estimated loss to employes of \$307,000,000 and to employers of \$143,000,000, a total of \$450,000,000. The public suffered directly and indirectly probably as great additional loss. But the money loss, great as it was, did not measure the anguish and suffering endured by the wives and children of employes whose pay stopped when their work stopped or the disastrous effect of the strike or lockout upon the business of employers or the increase in the cost of products and the inconvenience and loss to the public.

Many of these strikes and lockouts would not have occurred had the parties to the dispute been required to appear before an unprejudiced body representing the nation and, face to face, state the reasons for their contention. In most instances the dispute would doubtless be found to be due to a misunderstanding by each of the other's rights, aggravated by an unwillingness of either party to accept as true the statements of the other as to the justice or injustice of the matters in dispute. The exercise of a judicial spirit by a disinterested body representing the federal government, such as would be provided by a commission on conciliation and arbitration, would tend to create an atmosphere of friendliness and conciliation between contending parties, and the giving each side an equal opportunity to present fully its case in the presence of the other would prevent many disputes from developing into serious strikes or lockouts and in other cases would enable the commission to persuade the opposing parties to come to terms.

In this age of great corporate and labor combinations neither employers nor employes should be left completely at the mercy of the stronger party to a dispute, regardless of the righteousness of their respective claims. The proposed measure would be in the line of securing recognition of the fact that in many strikes the public has itself an interest which cannot wisely be disregarded, an interest not merely of general convenience, for the question of a just and proper public policy must also be considered. In all legislation of this kind it is well to advance cautiously, testing each step by the actual results; the step proposed can surely

be safely taken, for the decisions of the commission would not bind the parties in legal fashion and yet would give a chance for public opinion to crystallize and thus to exert its full force for the right.

It is not wise that the nation should alienate its remaining coal lands. I have temporarily withdrawn from settlement all the lands which the geological survey has indicated as containing, or in all probability containing, coal. The question, however, can be properly settled only by legislation which in my judgment should provide for the withdrawal of these lands from sale or from entry, save in certain especial circumstances. The ownership would then remain in the United States, which should not, however, attempt to work them, but permit them to be worked by private individuals under a royalty system, the government keeping such control as to permit it to see that no excessive price was charged consumers. It would, of course, be as necessary to supervise the rates charged by the common carriers to transport the product as the rates charged by those who mine it, and the supervision must extend to the conduct of the common carriers, so that they shall in no way favor one competitor at the expense of another. The withdrawal of these coal lands would constitute a policy analogous to that which has been followed in withdrawing the forest lands from ordinary settlement. The coal, like the forests, should be treated as the property of the public and its disposal should be under conditions which would insure to the benefit of the public as a whole.

RAILWAY-RATE LAW.

The present congress has taken long strides in the direction of securing proper supervision and control by the national government over corporations engaged in interstate business—and the enormous majority of corporations of any size are engaged in interstate business. The passage of the railway-rate bill, and only to a less degree the passage of the pure-food bill, and the provision for increasing and rendering more effective national control over the beef-packing industry, mark an important advance in the proper direction. In the short session it will perhaps be difficult to do much further along this line, and it may be best to wait until the laws have been in operation for a number of months before endeavoring to increase their scope, because only operation will show with exactness their merits and their shortcomings and thus give opportunity to define what further remedial legislation is needed. Yet in my judgment it will in the end be advisable in connection with the packing-house inspection law to provide for putting a date on the label and for charging the cost of inspection to the packers. All these laws have already justified their enactment.

The interstate-commerce law, for instance, has rather amusingly falsified the predictions both of those who asserted that it would ruin the railroads and of those who asserted that it did not go far enough and would accomplish nothing. During the last five months the railroads have shown increased earnings and some of them unusual dividends, while during the same period the mere taking effect of the law has produced an unprecedented, a hitherto unheard of, number of voluntary reductions in freights and fares by the railroads. Since the found-

ing of the commission there has never been a time of equal length in which anything like so many reduced tariffs have been put into effect. On Aug. 27, for instance, two days before the new law went into effect, the commission received notices of over 5,000 separate tariffs which represented reductions from previous rates.

It must not be supposed, however, that with the passage of these laws it will be possible to stop progress along the line of increasing the power of the national government over the use of capital in interstate commerce. For example, there will ultimately be need of enlarging the powers of the interstate-commerce commission along several different lines, so as to give it a larger and more efficient control over the railroads.

It can not too often be repeated that experience has conclusively shown the impossibility of securing by the actions of nearly half a hundred different state legislatures anything but ineffective chaos in the way of dealing with the great corporations which do not operate exclusively within the limits of any one state. In some method, whether by a national license law or in other fashion, we must exercise, and that at an early date, a far more complete control than at present over these great corporations—a control that will among other things prevent the evils of excessive overcapitalization, and that will compel the disclosure by each big corporation of its stockholders and of its properties and business, whether owned directly or thru subsidiary or affiliated corporations. This will tend to put a stop to the securing of inordinate profits by favored individuals at the expense whether of the general public, the stockholders or the wage workers. Our effort should be not so much to prevent consolidation as such, but so to supervise and control it as to see that it results in no harm to the people.

The reactionary or ultraconservative apologists for the misuse of wealth assail the effort to secure such control as a step toward socialism. As a matter of fact it is these reactionaries and ultraconservatives who are themselves most potent in increasing socialistic feeling. One of the most efficient methods of averting the consequences of a dangerous agitation, which is 80 per cent wrong, is to remedy the 20 per cent of evil as to which the agitation is well founded. The best way to avert the very undesirable move for the governmental ownership of railways is to secure by the government on behalf of the people as a whole such adequate control and regulation of the great interstate common carriers as will do away with the evils which give rise to the agitation against them.

So the proper antidote to the dangerous and wicked agitation against the men of wealth as such is to secure by proper legislation and executive action the abolition of the grave abuses which actually do obtain in connection with the business use of wealth under our present system—or rather no system—of failure to exercise any adequate control at all. Some persons speak as if the exercise of such governmental control would do away with the freedom of individual initiative and dwarf individual effort. This is not a fact. It would be a veritable calamity to fail to put a premium upon individual initiative, individual ca-

pacify and effort; upon the energy, character and foresight which it is so important to encourage in the individual. But as a matter of fact the deadening and degrading effect of pure socialism, and especially of its extreme form, communism, and the destruction of individual character which they would bring about, are in part achieved by the wholly unregulated competition which results in a single individual or corporation rising at the expense of all others until his or its rise effectually checks all competition and reduces former competitors to a position of utter inferiority and subordination.

In enacting and enforcing such legislation as this congress already has to its credit, we are working on a coherent plan with the steady endeavor to secure the needed reform by the joint action of the moderate men, the plain men who do not wish anything hysterical or dangerous, but who do intend to deal in resolute common-sense fashion with the real and great evils of the present system. The reactionaries and the violent extremists show symptoms of joining hands against us. Both assert, for instance, that if logical, we should go to government ownership of railroads and the like; the reactionaries because on such an issue they think the people would stand with them, while the extremists care rather to preach discontent and agitation than to achieve solid results. As a matter of fact, our position is as remote from that of the Bourbon reactionary as from that of the impracticable or sinister visionary. We hold that the government should not conduct the business of the nation, but that it should exercise such supervision as will insure its being conducted in the interest of the nation. Our aim is, so far as may be, to secure for all decent, hard-working men equality of opportunity and equality of burden.

The actual working of our laws has shown that the effort to prohibit all combination, good or bad, is noxious where it is not ineffective. Combination of capital like combination of labor is a necessary element of our present industrial system. It is not possible completely to prevent it; and if it were possible, such complete prevention would do damage to the body politic. What we need is not vainly to try to prevent all combination, but to secure such rigorous and adequate control and supervision of the combinations as to prevent their injuring the public, or existing in such form as inevitably to threaten injury—for the mere fact that a combination has secured practically complete control of a necessary of life would under any circumstances show that such combination was to be presumed to be against to the public interest.

It is unfortunate that our present laws should forbid all combinations, instead of sharply discriminating between those combinations which do good and those combinations which do evil. Rebates, for instance, are as often due to the pressure of big shippers (as was shown in the investigation of the Standard Oil company and as has been shown since by the investigation of the tobacco and sugar trusts) as to the initiative of big railroads. Often railroads would like to combine for the purpose of preventing a big shipper from maintaining improper advantages at the expense of small shippers and of the general public. Such a combina-

tion, instead of being forbidden by law, should be favored. In other words, it should be permitted to railroads to make agreements, provided these agreements were sanctioned by the interstate-commerce commission and were published. With these two conditions complied with it is impossible to see what harm such a combination could do to the public at large.

It is a public evil to have on the statute books a law incapable of full enforcement because both judges and juries realize that its full enforcement would destroy the business of the country; for the result is to make decent railroad men violators of the law against their will and to put a premium on the behavior of the wilful wrongdoers. Such a result in turn tends to throw the decent man and the wilful wrongdoer into close association and in the end to drag down the former to the latter's level; for the man who becomes a lawbreaker in one way unhappily tends to lose all respect for law and to be willing to break it in many ways.

No more scathing condemnation could be visited upon a law than is contained in the words of the interstate-commerce commission when, in commenting upon the fact that the numerous joint traffic associations do technically violate the law, they say: "The decision of the United States Supreme court in the Trans-Missouri case and the Joint Traffic association case has produced no practical effect upon the railway operations of the country. Such associations, in fact, exist now as they did before these decisions and with the same general effect. In justice to all parties we ought probably to add that it is difficult to see how our interstate railways could be operated with due regard to the interest of the shipper and the railway without concerted action of the kind afforded thru these associations."

This means that the law as construed by the Supreme court is such that the business of the country can not be conducted without breaking it. I recommend that you give careful and early consideration to this subject and if you find the opinion of the interstate-commerce commission justified that you amend the law so as to obviate the evil disclosed.

INHERITANCE AND INCOME TAXES.

The question of taxation is difficult in any country, but it is especially difficult in ours with its federal system of government. Some taxes should on every ground be levied in a small district for use in that district. Thus the taxation of real estate is peculiarly one for the immediate locality in which the real estate is found. Again, there is no more legitimate tax for any state than a tax on the franchises conferred by that state upon street railroads and similar corporations which operate wholly within the state boundaries, sometimes in one and sometimes in several municipalities or other minor divisions of the state. But there are many kinds of taxes which can only be levied by the general government so as to produce the best results, because, among other reasons, the attempt to impose them in one particular state too often results merely in driving the corporation or individual affected to some other locality or other state.

The national government has long derived its chief revenue from a tariff on imports

and from an internal or excise tax. In addition to these there is every reason why, when next our system of taxation is revised, the national government should impose a graduated inheritance tax and, if possible, a graduated income tax. The man of great wealth owes a peculiar obligation to the state, because he derives special advantages from the mere existence of government. Not only should he recognize this obligation in the way he leads his daily life and in the way he earns and spends his money, but it should also be recognized by the way in which he pays for the protection the state gives him. On the one hand it is desirable that he should assume his full and proper share of the burden of taxation; on the other hand, it is quite as necessary that in this kind of taxation, where the men who vote the tax pay but little of it, there should be clear recognition of the danger of inaugurating any such system save in a spirit of entire justice and moderation.

Whenever we as a people undertake to remodel our taxation system along the lines suggested we must make it clear beyond peradventure that our aim is to distribute the burden of supporting the government more equitably than at present; that we intend to treat rich man and poor man on a basis of absolute equality and that we regard it as equally fatal to true democracy, to do or permit injustice to the one as to do or permit injustice to the other.

I am well aware that such a subject as this needs long and careful study in order that the people may become familiar with what is proposed to be done, may clearly see the necessity of proceeding with wisdom and self-restraint, and may make up their minds just how far they are willing to go in the matter; while only trained legislators can work out the project in necessary detail. But I feel that in the near future our national legislators should enact a law providing for a graduated inheritance tax by which a steadily increasing rate of duty should be put upon all moneys or other valuables coming by gift, bequest or devise to any individual or corporation. It may be well to make the tax heavy in proportion as the individual benefited is remote of kin. In any event, in my judgment the pro rata of the tax should increase very heavily with the increase of the amount left to any one individual after a certain point has been reached.

It is most desirable to encourage thrift and ambition, and a potent source of thrift and ambition is the desire on the part of the breadwinner to leave his children well off. This object can be attained by making the tax very small on moderate amounts of property left; because the prime object should be to put a constantly increasing burden on the inheritance of those swollen fortunes which it is certainly of no benefit to this country to perpetuate.

There can be no question of the ethical propriety of the government thus determining the conditions upon which any gift or inheritance should be received. Exactly how far the inheritance tax would, as an incident, have the effect of limiting the transmission by devise or gift of the enormous fortunes in question it is not necessary at present to discuss. It is wise that progress in this direction should be gradual. At first a permanent national inheritance tax,

while it might be more substantial than any such tax has hitherto been, need not approximate, either in amount or in the extent of the increase by graduation, to what such a tax should ultimately be.

This species of tax has again and again been imposed, altho only temporarily, by the national government. It was first imposed by the act of July 6, 1797, when the makers of the constitution were alive and at the head of affairs. It was a graduated tax; the small in amount, the rate was increased with the amount left to any individual, exceptions being made in the case of certain close kin. A similar tax was again imposed by the act of July 1, 1862; a minimum sum of \$1,000 in personal property being excepted from taxation, the tax then becoming progressive according to the remoteness of kin. The war-revenue act of June 13, 1898, provided for an inheritance tax on any sum exceeding the value of \$10,000, the rate of the tax increasing both in accordance with the amounts left and in accordance with the legatee's remoteness of kin. The Supreme court has held that the succession tax imposed at the time of the civil war was not a direct tax, but an impost or excise which was both constitutional and valid. More recently the court, in an opinion delivered by Mr. Justice White, which contained an exceedingly able and elaborate discussion of the powers of the congress to impose death duties, sustained the constitutionality of the inheritance-tax feature of the war-revenue act of 1898.

In its incidents and apart from the main purpose of raising revenue, an income tax stands on an entirely different footing from an inheritance tax, because it involves no question of the perpetuation of fortunes swollen to an unhealthy size. The question is in its essence a question of the proper adjustment of burdens to benefits. As the law now stands it is undoubtedly difficult to devise a national income tax which shall be constitutional. But whether it is absolutely impossible is another question; and if possible it is most certainly desirable. The first purely income-tax law was past by the congress in 1861, but the most important law dealing with the subject was that of 1894. This the court held to be unconstitutional.

The question is undoubtedly very intricate, delicate and troublesome. The decision of the court was only reached by one majority. It is the law of the land and of course is accepted as such and loyally obeyed by all good citizens. Nevertheless, the hesitation evidently felt by the court as a whole in coming to a conclusion, when considered together with the previous decisions on the subject, may perhaps indicate the possibility of devising a constitutional income-tax law which shall substantially accomplish the results aimed at. The difficulty of amending the constitution is so great that only real necessity can justify a resort thereto. Every effort should be made in dealing with this subject, as with the subject of the proper control by the national government over the use of corporate wealth in interstate business, to devise legislation which without such action shall attain the desired end; but if this falls there will ultimately be no alternative to a constitutional amendment.

TECHNICAL EDUCATION.

It would be impossible to overstate (tho it is of course difficult quantitatively to

measure) the effect upon a nation's growth to greatness of what may be called organized patriotism, which necessarily includes the substitution of a national feeling for mere local pride, with as a resultant a high ambition for the whole country. No country can develop its full strength so long as the parts which make up the whole each put a feeling of loyalty to the part above the feeling of loyalty to the whole. This is true of sections and it is just as true of classes. The industrial and agricultural classes must work together, capitalists and wage workers must work together if the best work of which the country is capable is to be done. It is probable that a thoroughly efficient system of education comes next to the influence of patriotism in bringing about national success of this kind. Our federal form of government, so fruitful of advantage to our people in certain ways, in other ways undoubtedly limits our national effectiveness.

It is not possible, for instance, for the national government to take the lead in technical industrial education, to see that the public school system of this country develops on all its technical, industrial, scientific and commercial sides. This must be left primarily to the several states. Nevertheless, the national government has control of the schools of the District of Columbia and it should see that these schools promote and encourage the fullest development of the scholars in both commercial and industrial training. The commercial training should in one of its branches deal with foreign trade. The industrial training is even more important. It should be one of our prime objects as a nation, so far as feasible, constantly to work toward putting the mechanic, the wage worker who works with his hands, on a higher plane of efficiency and reward, so as to increase his effectiveness in the economic world and the dignity, the remuneration and the power of his position in the social world.

Unfortunately, at present the effect of some of the work in the public schools is in the exactly opposite direction. If boys and girls are trained merely in literary accomplishments, to the total exclusion of industrial, manual and technical training, the tendency is to unfit them for industrial work and to make them reluctant to go into it or unfitted to do well if they do go into it. This is a tendency which should be strenuously combated. Our industrial development depends largely upon technical education, including in this term all industrial education, from that which fits a man to be a good mechanic, a good carpenter or blacksmith, to that which fits a man to do the greatest engineering feat. The skilled mechanic, the skilled workman, can best become such by technical industrial education. The far-reaching usefulness of institutes of technology and schools of mines or of engineering is now universally acknowledged and no less far reaching is the effect of a good building or mechanical trades school, a textile or watchmaking or engraving school. All such training must develop not only manual dexterity but industrial intelligence. In international rivalry this country does not have to fear the competition of pauper labor as much as it has to fear the educated labor of specially trained competitors; and we should have the edu-

cation of the hand, eye and brain which will fit us to meet such competition.

In every possible way we should help the wage worker who toils with his hands and who must (we hope in a constantly increasing measure) also toil with his brain. Under the constitution the national legislature can do but little of direct importance for his welfare save where he is engaged in work which permits it to act under the interstate-commerce clause of the constitution; and this is one reason why I so earnestly hope that both the legislative and judicial branches of the government will construe this clause of the constitution in the broadest possible manner. We can, however, in such a matter as industrial training, in such a matter as child labor and factory laws set an example to the states by enacting the most advanced legislation that can wisely be enacted for the District of Columbia.

The only other persons whose welfare is as vital to the welfare of the whole country as is the welfare of the wage workers are the tillers of the soil, the farmers. It is a mere truism to say that no growth of cities, no growth of wealth, no industrial development can atone for any falling off in the character and standing of the farming population. During the last few decades this fact has been recognized with ever-increasing clearness. There is no longer any failure to realize that farming, at least in certain branches, must become a technical and scientific profession. This means that there must be open to farmers the chance for technical and scientific training, not theoretical merely, but of the most severely practical type. The farmer represents a peculiarly high type of American citizenship and he must have the same chance to rise and develop as other American citizens have. Moreover, it is exactly as true of the farmer as it is of the business man and the wage worker that the ultimate success of the nation of which he forms a part must be founded not alone on material prosperity but upon high moral, mental and physical development. This education of the farmer—self-education by preference, but also education from the outside, as with all other men—is peculiarly necessary here in the United States, where the frontier conditions even in the newest states have now nearly vanished, where there must be a substitution of a more intensive system of cultivation for the old wasteful farm management, and where there must be a better business organization among the farmers themselves.

Several factors must co-operate in the improvement of the farmer's condition. He must have the chance to be educated in the widest possible sense—in the sense which keeps ever in view the intimate relationship between the theory of education and the facts of life. In all education we should widen our aims. It is a good thing to produce a certain number of trained scholars and students; but the education superintended by the state must seek rather to produce a hundred good citizens than merely one scholar and it must be turned now and then from the textbook to the study of the great book of nature itself. This is especially true of the farmer, as has been pointed out again and again by all observers most competent to pass practical judgment on the problems of our country life. All students

now realize that education must seek to train the executive powers of young people and to confer more real significance upon the phrase "dignity of labor" and to prepare the pupils so that in addition to each developing in the highest degree his individual capacity for work they may together help create a right public opinion and show in many ways social and co-operative spirit.

Organization has become necessary in the business world and it has accomplished much for good in the world of labor. It is no less necessary for farmers. Such a movement as the grange movement is good in itself and is capable of a well-nigh infinite further extension for good so long as it is kept to its own legitimate business. The benefits to be derived by the association of farmers for mutual advantage are partly economic and partly sociological.

Moreover, while in the long run voluntary effort will prove more efficacious than government assistance, while the farmers must primarily do most for themselves, yet the government can also do much. The department of agriculture has broken new ground in many directions and year by year it finds how it can improve its methods and develop fresh usefulness. Its constant effort is to give the governmental assistance in the most effective way; that is, thru associations of farmers rather than to or thru individual farmers. It is also striving to co-ordinate its work with the agricultural departments of the several states and so far as its own work is educational to co-ordinate it with the work of other educational authorities. Agricultural education is necessarily based upon general education, but our agricultural educational institutions are wisely specializing themselves, making their courses relate to the actual teaching of the agricultural and kindred sciences to young country people or young city people who wish to live in the country.

Great progress has already been made among farmers by the creation of farmers' institutes, of dairy associations, of breeders' associations, horticultural associations and the like. A striking example of how the government and the farmers can co-operate is shown in connection with the menace offered to the cotton growers of the southern states by the advance of the boll weevil. The department is doing all it can to organize the farmers in the threatened districts, just as it has been doing all it can to organize them in aid of its work to eradicate the cattle-fever tick in the south. The department can and will co-operate with all such associations and it must have their help if its own work is to be done in the most efficient style.

Much is now being done for the states of the Rocky mountains and great plains thru the development of the national policy of irrigation and forest preservation; no government policy for the betterment of our internal conditions has been more fruitful of good than this. The forests of the White mountains and southern Appalachian regions should also be preserved, and they cannot be unless the people of the states in which they lie, thru their representatives in the congress, secure vigorous action by the national government.

I invite the attention of the congress to the estimate of the secretary of war for an appropriation to enable him to begin the

preliminary work for the construction of a memorial amphitheater at Arlington. The Grand Army of the Republic in its national encampment has urged the erection of such an amphitheater as necessary for the proper observance of Memorial day and as a fitting monument to the soldier and sailor dead buried there. In this I heartily concur and commend the matter to the favorable consideration of the congress.

MARRIAGE AND DIVORCE.

I am well aware of how difficult it is to pass a constitutional amendment. Nevertheless, in my judgment, the whole question of marriage and divorce should be relegated to the authority of the national congress. At present the wide differences in the laws of the different states on this subject result in scandals and abuses; and surely there is nothing so vitally essential to the welfare of the nation, nothing around which the nation should so bend itself to throw every safeguard as the home life of the average citizen. The change would be good from every standpoint. In particular it would be good because it would confer on the congress the power at once to deal radically and efficiently with polygamy, and this should be done whether or not marriage and divorce are dealt with. It is neither safe nor proper to leave the question of polygamy to be dealt with by the several states. Power to deal with it should be conferred on the national government.

When home ties are loosened, when men and women cease to regard a worthy family life with all its duties fully performed and all its responsibilities lived up to as the life best worth living, then evil days for the commonwealth are at hand.

There are regions in our land and classes of our population where the birth rate has sunk below the death rate. Surely it should need no demonstration to show that wilful sterility is, from the standpoint of the nation, from the standpoint of the human race, the one sin for which the penalty is national death, race death; a sin for which there is no atonement; a sin which is the more dreadful exactly in proportion as the men and women guilty thereof are in other respects, in character and bodily and mental powers, those whom for the sake of the state it would be well to see the fathers and mothers of many healthy children, well brought up in homes made happy by their presence. No man, no woman, can shirk the primary duties of life, whether for love of ease and pleasure or for any other cause, and retain his or her self-respect.

Let me once again call the attention of the congress to two subjects concerning which I have frequently before communicated with them. One is the question of developing American shipping. I trust that a law embodying in substance the views, or a major part of the views, expressed in the report on this subject laid before the house at its last session will be past. I am well aware that in former years objectionable measures have been proposed in reference to the encouragement of American shipping, but it seems to me that the proposed measure is as nearly unobjectionable as any can be. It will of course benefit primarily our seaboard states, such as Maine, Louisiana and Washington, but what benefits part of our people in the end benefits all, just as government aid to irrigation and forestry in

the west is really of benefit not only to the Rocky mountain states but to all our country. If it prove impracticable to enact a law for the encouragement of shipping generally, then at least provision should be made for better communication with South America, notably for fast mail lines to the chief South American ports. It is discreditable to us that our business people, for lack of direct communication in the shape of lines of steamers with South America, should in that great sister continent be at a disadvantage compared to the business people of Europe.

CURRENCY LAWS.

I especially call your attention to the second subject, the condition of our currency laws. The national bank act has ably served a great purpose in aiding the enormous business development of the country and within ten years there has been an increase in circulation per capita from \$21.41 to \$33.98. For several years evidence has been accumulating that additional legislation is needed. The recurrence of each crop season emphasizes the defects of the present laws. There must soon be a revision of them, because to leave them as they are means to incur liability of business disaster. Since your body adjourned there has been a fluctuation in the interest on call money from 2 per cent to 30 per cent and the fluctuation was even greater during the preceding six months. The secretary of the treasury had to step in and by wise action put a stop to the most violent period of oscillation. Even worse than such fluctuation is the advance in commercial rates and the uncertainty felt in the sufficiency of credit even at high rates. All commercial interests suffer during each crop period. Excessive rates for call money in New York attract money from the interior banks into the speculative field; this depletes the fund that would otherwise be available for commercial uses and commercial borrowers are forced to pay abnormal rates, so that each fall a tax in the shape of increased interest charges is placed on the whole commerce of the country.

The mere statement of these facts shows that our present system is seriously defective. There is need of a change. Unfortunately, however, many of the proposed changes must be ruled from consideration because they are complicated, are not easy of comprehension and tend to disturb existing rights and interests. We must also rule out any plan which would materially impair the value of the United States 2 per cent bonds now pledged to secure circulation, the issue of which was made under conditions peculiarly creditable to the treasury. I do not press any especial plan. Various plans have recently been proposed by expert committees of bankers. Among the plans which are possibly feasible and which certainly should receive your consideration is that repeatedly brought to your attention by the present secretary of the treasury, the essential features of which have been approved by many prominent bankers and business men. According to this plan national banks should be permitted to issue a specified proportion of their capital in notes of a given kind, the issue to be taxed at so high a rate as to drive the notes back when not wanted in legitimate trade. This plan would not permit the issue of currency to give banks additional profits, but to meet

the emergency presented by times of stringency.

I do not say that this is the right system. I only advance it to emphasize my belief that there is need for the adoption of some system which shall be automatic and open to all sound banks so as to avoid all possibility of discrimination and favoritism. Such a plan would tend to prevent the spasms of high money and speculation which now obtain in the New York market, for at present there is too much currency at certain seasons of the year and its accumulation at New York tempts bankers to lend it at low rates for speculative purposes; whereas at other times when the crops are being moved there is urgent need for a large but temporary increase in the currency supply. It must never be forgotten that this question concerns business men generally quite as much as bankers; especially is this true of stock men, farmers and business men in the west, for at present at certain seasons of the year the difference in interest rates between the east and the west is from 6 to 10 per cent, whereas in Canada the corresponding difference is but 2 per cent. Any plan must of course guard the interests of western and southern bankers as carefully as it guards the interests of New York or Chicago bankers and must be drawn from the standpoints of the farmer and the merchant no less than from the standpoints of the city banker and the country banker.

The law should be amended so as specifically to provide that the funds derived from customs duties may be treated by the secretary of the treasury as he treats funds obtained under the internal-revenue laws. There should be a considerable increase in bills of small denominations. Permission should be given banks if necessary under settled restrictions to retire their circulation to a larger amount than \$3,000,000 a month.

PHILIPPINE TARIFF.

I most earnestly hope that the bill to provide a lower tariff for or else absolute free trade in Philippine products will become a law. No harm will come to any American industry, and while there will be some small but real material benefit to the Filipinos, the main benefit will come by the showing made as to our purpose to do all in our power for their welfare. So far our action in the Philippines has been abundantly justified, not mainly and indeed not primarily because of the added dignity it has given us as a nation by proving that we are capable honorably and efficiently to bear the international burdens which a mighty people should bear, but even more because of the immense benefit that has come to the people of the Philippine Islands. In these islands we are steadily introducing both liberty and order to a greater degree than their people have ever before known. We have secured justice. We have provided an efficient police force and have put down ladronism. Only in the islands of Leyte and Samar is the authority of our government resisted, and this by wild mountain tribes under the superstitious inspiration of fakirs and pseudo-religious leaders.

We are constantly increasing the measure of liberty accorded the Islanders, and next spring, if conditions warrant, we shall take a great stride forward in testing their capacity for self-government by summoning

the first Filipino legislative assembly, and the way in which they stand this test will largely determine whether the self-government thus granted will be increased or decreased; for if we have erred at all in the Philippines it has been in proceeding too rapidly in the direction of granting a large measure of self-government. We are building roads. We have, for the immeasurable good of the people, arranged for the building of railroads. Let us also see to it that they are given free access to our markets. This nation owes no more imperative duty to itself and mankind than the duty of managing the affairs of all the islands under the American flag—the Philippines, Porto Rico and Hawaii—so as to make it evident that it is in every way to their advantage that the flag should fly over them.

American citizenship should be conferred on the citizens of Porto Rico. The harbor of San Juan in Porto Rico should be dredged and improved. The expenses of the federal court of Porto Rico should be met from the federal treasury. The administration of the affairs of Porto Rico, together with those of the Philippines, Hawaii and our other insular possessions, should all be directed under one executive department, by preference the department of state or the department of war.

The needs of Hawaii are peculiar. Every aid should be given the islands and our efforts should be unceasing to develop them along the lines of a community of small freeholders, not of great planters with coolie-titled estates. Situated as this territory is, in the middle of the Pacific, there are duties imposed upon this small community which do not fall in like degree or manner upon any other American community. This warrants our treating it differently from the way in which we treat territories contiguous to or surrounded by sister territories or other states, and justifies the setting aside of a portion of our revenues to be expended for educational and internal improvements therein. Hawaii is now making an effort to secure immigration fit in the end to assume the duties and burdens of full American citizenship, and whenever the leaders in the various industries of those islands finally adopt our ideals and heartily join our administration in endeavoring to develop a middle class of substantial citizens, a way will then be found to deal with the commercial and industrial problems which now appear to them so serious. The best Americanism is that which aims for stability and permanency of prosperous citizenship, rather than immediate returns on large masses of capital.

Alaska's needs have been partially met, but there must be a complete reorganization of the governmental system, as I have before indicated to you. I ask your especial attention to this. Our fellow citizens who dwell on the shores of Puget sound with characteristic energy are arranging to hold in Seattle the Alaska-Yukon-Pacific exposition. Its special aims include the upbuilding of Alaska and the development of American commerce on the Pacific ocean. This exposition, in its purposes and scope, should appeal not only to the people of the Pacific slope but to the people of the United States at large. Alaska since it was bought has yielded to the government \$11,000,000 of revenue and has produced nearly \$300,000,000 in

gold, furs and fish. When properly developed it will become in large degree a land of homes. The countries bordering the Pacific ocean have a population more numerous than that of all the countries of Europe; their annual foreign commerce amounts to over \$3,000,000,000, of which the share of the United States is some \$700,000,000. If this trade were thoroughly understood and pushed by our manufacturers and producers, the industries not only of the Pacific slope but of all our country, and particularly of our cotton-growing states, would be greatly benefited. Of course, in order to get these benefits we must treat fairly the countries with which we trade.

HOSTILITY TO JAPANESE.

It is a mistake and it betrays a spirit of foolish cynicism to maintain that all international governmental action is and must ever be based upon mere selfishness, and that to advance ethical reasons for such action is always a sign of hypocrisy. This is no more necessarily true of the action of governments than of the action of individuals. It is a sure sign of a base nature always to ascribe base motives for the actions of others. Unquestionably no nation can afford to disregard proper considerations of self-interest any more than a private individual can do. But it is equally true that the average private individual in any really decent community does many actions with reference to other men in which he is guided not by self-interest but by public spirit, by regard for the rights of others, by a disinterested purpose to do good to others and to raise the tone of the community as a whole.

Similarly, a really great nation must often act, and as a matter of fact often does act, toward other nations in a spirit not in the least of mere self-interest, but paying heed chiefly to ethical reasons, and as the centuries go by this disinterestedness in international action, this tendency of the individuals comprising a nation to require that nation to act with justice toward its neighbors, steadily grows and strengthens. It is neither wise nor right for a nation to disregard its own needs, and it is foolish—and may be wicked—to think that other nations will disregard theirs. But it is wicked for a nation only to regard its own interest and foolish to believe that such is the sole motive that actuates any other nation. It should be our steady aim to raise the ethical standard of national action just as we strive to raise the ethical standard of individual action.

Not only must we treat all nations fairly, but we must treat with justice and good will all immigrants who come here under the law. Whether they are catholic or protestant, Jew or gentile; whether they come from England or Germany, Russia, Japan or Italy matters nothing. All we have a right to question is the man's conduct. If he is honest and upright in his dealings with his neighbor and with the state, then he is entitled to respect and good treatment. Especially do we need to remember our duty to the stranger within our gates. It is the sure mark of a low civilization, a low morality, to abuse or discriminate against or in any way humiliate such stranger who has come here lawfully and who is conducting himself properly. To remember this is incumbent on every American citizen, and it is of course

peculiarly incumbent on every government official, whether of the nation or of the several states.

I am prompted to say this by the attitude of hostility here and there assumed toward the Japanese in this country. This hostility is sporadic and is limited to a very few places. Nevertheless, it is most discredit-able to us as a people and it may be fraught with the gravest consequences to the nation. The friendship between the United States and Japan has been continuous since the time, over half a century ago, when Commodore Perry, by his expedition to Japan, first opened the islands to western civilization. Since then the growth of Japan has been literally astounding. There is not only nothing to parallel it but nothing to approach it in the history of civilized mankind. Japan has a glorious and ancient past. Her civilization is older than that of the nations of northern Europe—the nations from whom the people of the United States have chiefly sprung. But fifty years ago Japan's development was still that of the middle ages. During that fifty years the progress of the country in every walk in life has been a marvel to mankind, and she now stands as one of the greatest of civilized nations; great in the arts of war and in the arts of peace; great in military, in industrial, in artistic development and achievement. Japanese soldiers and sailors have shown themselves equal in combat to any of whom history makes note. She has produced great generals and mighty admirals; her fighting men, afloat and ashore, show all the heroic courage, the unquestioning, unflinching loyalty, the splendid indifference to hardship and death which marked the Loyal Ronins, and they show also that they possess the highest ideal of patriotism.

Japanese artists of every kind see their products eagerly sought for in all lands.

The industrial and commercial development of Japan has been phenomenal, greater than that of any other country during the same period. At the same time the advance in science and philosophy is no less marked. The admirable management of the Japanese Red Cross during the late war, the efficiency and humanity of the Japanese officials, nurses and doctors won the respectful admiration of all acquainted with the facts. Thru the Red Cross the Japanese people sent over \$100,000 to the sufferers of San Francisco and the gift was accepted with gratitude by our people. The courtesy of the Japanese, nationally and individually, has become proverbial. To no other country has there been such an increasing number of visitors from this land as to Japan. In return, Japanese have come here in great numbers. They are welcome, socially and intellectually, in all our colleges and institutions of higher learning, in all our professional and social bodies.

The Japanese have won in a single generation the right to stand abreast of the foremost and most enlightened peoples of Europe and America, they have won on their own merits and by their own exertions the right to treatment on a basis of full and frank equality. The overwhelming mass of our people cherish a lively regard and respect for the people of Japan and in almost every quarter of the union the stranger from Japan is treated as he deserves—that is, he is treated as the stranger from any part of civilized Europe is and deserves to be treated.

But here and there a most unworthy feeling has manifested itself toward the Japanese—the feeling that has been shown in shutting them out from the common schools in San Francisco and in mutterings against them in one or two other places, because of their efficiency as workers. To shut them out from the public schools is a wicked absurdity when there are no first-class colleges in the land, including the universities and colleges of California, which do not gladly welcome Japanese students and on which Japanese students do not reflect credit. We have as much to learn from Japan as Japan has to learn from us, and no nation is fit to teach unless it is also willing to learn. Throughout Japan Americans are well treated and any failure on the part of Americans at home to treat the Japanese with a like courtesy and consideration is by just so much a confession of inferiority in our civilization.

Our nation fronts on the Pacific, just as it fronts on the Atlantic. We hope to play a constantly growing part in the great ocean of the orient. We wish, as we ought to wish, for a great commercial development in our dealings with Asia and it is out of the question that we should permanently have such development unless we freely and gladly extend to other nations the same measure of justice and good treatment which we expect to receive in return. It is only a very small body of our citizens that act badly. Where the federal government has power it will deal summarily with any such. Where the several states have power I earnestly ask that they also deal wisely and promptly with such conduct or else this small body of wrongdoers may bring shame upon the great mass of their innocent and right-thinking fellows—that is, upon our nation as a whole. Good manners should be an international no less than an individual attribute. I ask fair treatment for the Japanese as I would ask fair treatment for Germans or Englishmen, Frenchmen, Russians or Italians. I ask it as due to humanity and civilization. I ask it as due to ourselves because we must act uprightly toward all men.

I recommend to the congress that an act be past specifically providing for the naturalization of Japanese who come here intending to become American citizens. One of the great embarrassments attending the performance of our international obligations is the fact that the statutes of the United States are entirely inadequate. They fail to give to the national government sufficiently ample power, thru United States courts and by the use of the army and navy, to protect aliens in the rights secured to them under solemn treaties which are the law of the land. I therefore earnestly recommend that the criminal and civil statutes of the United States be so amended and added to as to enable the president, acting for the United States government, which is responsible in our international relations, to enforce the rights of aliens under treaties.

Even as the law now is something can be done by the federal government toward this end, and in the matter now before me affecting the Japanese everything that it is in my power to do will be done and all of the forces, military and civil, of the United States which I may lawfully employ will be so employed. There should, however, be no particle of doubt as to the power of the national government completely to perform and

enforce its own obligations to other nations. The mob of a single city may at any time perform acts of lawless violence against some class of foreigners which would plunge us into war. That city by itself would be powerless to make defense against the foreign power thus assaulted, and if independent of this government it would never venture to perform or permit the performance of the acts complained of. The entire power and the whole duty to protect the offending city or the offending community lies in the hands of the United States government.

It is unthinkable that we should continue a policy under which a given locality may be allowed to commit a crime against a friendly nation, and the United States government limited, not to preventing the commission of the crime, but, in the last resort, to defending the people who have committed it against the consequences of their own wrongdoing.

CUBAN INSURRECTION.

Last August an insurrection broke out in Cuba which it speedily grew evident that the existing Cuban government was powerless to quell. This government was repeatedly asked by the then Cuban government to intervene and finally was notified by the president of Cuba that he intended to resign, that his decision was irrevocable, that none of the other constitutional officers would consent to carry on the government and that he was powerless to maintain order. It was evident that chaos was impending and there was every probability that if steps were not immediately taken by this government to try to restore order the representatives of various European nations in the island would apply to their respective governments for armed intervention in order to protect the lives and property of their citizens. Thanks to the preparedness of our navy, I was able immediately to send enough ships to Cuba to prevent the situation from becoming hopeless and I furthermore dispatched to Cuba the secretary of war and the assistant secretary of state in order that they might grapple with the situation on the ground. All efforts to secure an agreement between the contending factions by which they should themselves come to an amicable understanding and settle upon some *modus vivendi*—some provisional government of their own—failed. Finally the president of the republic resigned. The quorum of congress assembled failed by deliberate purpose of its members so that there was no power to act on his resignation and the government came to a halt.

In accordance with the so-called Platt amendment, which was embodied in the constitution of Cuba, I thereupon proclaimed a provisional government for the island, the secretary of war acting as provisional governor until he could be replaced by Mr. Magooon, the late minister to Panama and governor of the canal zone on the Isthmus; troops were sent to support them and to relieve the navy, the expedition being handled with most satisfactory speed and efficiency. The insurgent chiefs immediately agreed that their troops should lay down their arms and disband and the agreement was carried out. The provisional government has left the personnel of the old government and the old laws, so far as might be, unchanged and will thus administer the island for a few months until tranquillity can be restored, a

new election properly held and a new government inaugurated. Peace has come in the island and the harvesting of the sugar-cane crop, the great crop of the island, is about to proceed.

When the election has been held and the new government inaugurated in peaceful and orderly fashion the provisional government will come to an end. I take this opportunity of expressing upon behalf of the American people, with all possible solemnity, our most earnest hope that the people of Cuba will realize the imperative need of preserving justice and keeping order in the island. The United States wishes nothing of Cuba except that it shall prosper morally and materially and wishes nothing of the Cubans save that they shall be able to preserve order among themselves and therefore to preserve their independence. If the elections become a farce and if the insurrectionary habit becomes confirmed in the island it is absolutely out of the question that the island should continue independent, and the United States, which has assumed the sponsorship before the civilized world for Cuba's career as a nation, would again have to intervene and to see that the government was managed in such orderly fashion as to secure the safety of life and property.

The path to be trodden by those who exercise self-government is always hard and we should have every charity and patience with the Cubans as they tread this difficult path. I have the utmost sympathy with and regard for them, but I most earnestly adjure them solemnly to weigh their responsibilities and to see that when their new government is started it shall run smoothly and with freedom from flagrant denial of right on the one hand and from insurrectionary disturbances on the other.

PAN-AMERICAN CONFERENCE.

The second international conference of American republics, held in Mexico in the years 1901-02, provided for the holding of the third conference within five years and committed the fixing of the time and place and the arrangements for the conference to the governing board of the bureau of American republics, composed of the representatives of all the American nations in Washington. That board discharged the duty imposed upon it with marked fidelity and painstaking care and upon the courteous invitation of the United States of Brazil the conference was held at Rio de Janeiro, continuing from July 23 to Aug. 29 last. Many subjects of common interest to all the American nations were discussed by the conference and the conclusions reached, embodied in a series of resolutions and proposed conventions, will be laid before you upon the coming in of the final report of the American delegates. They contain many matters of importance relating to the extension of trade, the increase of communication, the smoothing away of barriers to free intercourse and the promotion of a better knowledge and good understanding between the different countries represented.

The meetings of the conference were harmonious and the conclusions were reached with substantial unanimity. It is interesting to observe that in the successive conferences which have been held the representatives of the different American nations have been learning to work together effectively,

for, while the first conference in Washington in 1889 and the second conference in Mexico in 1901-02, occupied many months, with much time wasted in an unregulated and fruitless discussion, the third conference at Rio exhibited much of the facility in the practical dispatch of business which characterizes permanent deliberative bodies and completed its labors within the period of six weeks originally allotted for its sessions.

Quite apart from the specific value of the conclusions reached by the conference, the example of the representatives of all the American nations engaging in harmonious and kindly consideration and discussion of subjects of common interest is itself of great and substantial value for the promotion of reasonable and considerate treatment of all international questions. The thanks of this country are due to the government of Brazil and to the people of Rio de Janeiro for the generous hospitality with which our delegates in common with the others were received, entertained and facilitated in their work.

Incidentally to the meeting of the conference the secretary of state visited the city of Rio de Janeiro and was cordially received by the conference, of which he was made an honorary president. The announcement of his intention to make this visit was followed by most courteous and urgent invitations from nearly all the countries of South America to visit them as the guest of their governments. It was deemed that by the acceptance of these invitations we might appropriately express the real respect and friendship in which we hold our sister republics of the southern continent, and the secretary accordingly visited Brazil, Uruguay, Argentina, Chile, Peru, Panama and Colombia. He refrained from visiting Paraguay, Bolivia and Ecuador only because the distance of their capitals from the seaboard made it impracticable with the time at his disposal. He carried with him a message of peace and friendship and of strong desire for good understanding and mutual helpfulness and he was everywhere received in the spirit of his message. The members of government, the press, the learned professions, the men of business and the great masses of the people united everywhere in emphatic response to his friendly expressions and in doing honor to the country and cause which he represented.

In many parts of South America there has been much misunderstanding of the attitude and purposes of the United States toward the other American republics. An idea had become prevalent that our assertion of the Monroe doctrine implied or carried with it an assumption of superiority and of a right to exercise some kind of protectorate over the countries to whose territories that doctrine applies. Nothing could be farther from the truth. Yet that impression continued to be a serious barrier to good understanding, to friendly intercourse, to the introduction of American capital and the extension of American trade. The impression was so widespread that apparently it could not be reached by any ordinary means.

It was part of Secretary Root's mission to dispel this unfounded impression and there is just cause to believe that he has succeeded. In an address to the third conference at Rio on the 31st of July—an address

of such note that I send it in, together with this message—he said:

"We wish for no victories but those of peace, for no territory except our own, for no sovereignty except the sovereignty over ourselves. We deem the independence and equal rights of the smallest and weakest member of the family of nations entitled to as much respect as those of the greatest empire, and we deem the observance of that respect the chief guaranty of the weak against the oppression of the strong. We neither claim nor desire any rights or privileges or powers that we do not freely concede to every American republic.

"We wish to increase our prosperity, to extend our trade, to grow in wealth, in wisdom and in spirit, but our conception of the true way to accomplish this is not to pull down others and profit by their ruin, but to help all friends to a common prosperity and a common growth, that we may all become greater and stronger together. Within a few months for the first time the recognized possessors of every foot of soil upon the American continents can be and I hope will be represented with the acknowledged rights of equal sovereign states in the great world congress at The Hague. This will be the world's formal and final acceptance of the declaration that no part of the American continents is to be deemed subject to colonization. Let us pledge ourselves to aid each other in the full performance of the duty to humanity which that accepted declaration implies, so that in time the weakest and most unfortunate of our republics may come to march with equal step by the side of the stronger and more fortunate. Let us help each other to show that for all the races of men the liberty for which we have fought and labored is the twin sister of justice and peace. Let us unite in creating and maintaining and making effective an all-American public opinion, whose power shall influence international conduct and prevent international wrong and narrow the causes of war and forever preserve our free lands from the burden of such armaments as are massed behind the frontiers of Europe, and bring us ever nearer to the perfection of ordered liberty. So shall come security and prosperity, production and trade, wealth, learning, the arts and happiness for us all."

These words appear to have been received with acclaim in every part of South America. They have my hearty approval, as I am sure they will have yours, and I cannot be wrong in the conviction that they correctly represent the sentiments of the whole American people. I cannot better characterize the true attitude of the United States in its assertion of the Monroe doctrine than in the words of the distinguished former minister of foreign affairs of Argentina, Dr. Drago, in his speech welcoming Mr. Root at Buenos Ayres. He spoke of—

"The traditional policy of the United States [which], without accentuating superiority or seeking preponderance, condemned the oppression of the nations of this part of the world and the control of their destinies by the great powers of Europe."

It is gratifying to know that in the great city of Buenos Ayres, upon the arches which spanned the streets, entwined with Argentine and American flags for the reception of our representative, there were emblazoned not only the names of Washington and Jef-

erson and Marshall, but also, in appreciative recognition of their services to the cause of South American independence, the names of James Monroe, John Quincy Adams, Henry Clay and Richard Rush. We take especial pleasure in the graceful courtesy of the government of Brazil, which has given to the beautiful and stately building first used for the meeting of the conference the name of "Palacio Monroe." Our grateful acknowledgments are due to the governments and the people of all the countries visited by the secretary of state for the courtesy, the friendship and the honor shown to our country in their generous hospitality to him.

In my message to you on the 5th of December, 1905, I called your attention to the embarrassment that might be caused to this government by the assertion by foreign nations of the right to collect by force of arms contract debts due by American republics to citizens of the collecting nation and to the danger that the process of compulsory collection might result in the occupation of territory tending to become permanent. I then said:

"Our own government has always refused to enforce such contractual obligations on behalf of its citizens by an appeal to arms. It is much to be wished that all foreign governments would take the same view."

This subject was one of the topics of consideration at the conference at Rio and a resolution was adopted by that conference recommending to the respective governments represented "to consider the advisability of asking the second peace conference at The Hague to examine the question of the compulsory collection of public debts and, in general, means tending to diminish among nations conflicts of purely pecuniary origin."

This resolution was supported by the representatives of the United States in accordance with the following instructions:

"It has long been the established policy of the United States not to use its armed forces for the collection of ordinary contract debts due to its citizens by other governments. We have not considered the use of force for such a purpose consistent with that respect for the independent sovereignty of other members of the family of nations, which is the most important principle of international law and the chief protection of weak nations against the oppression of the strong. It seems to us that the practise is injurious in its general effect upon the relations of nations and upon the welfare of weak and disordered states, whose development ought to be encouraged in the interests of civilization, that it offers frequent temptation to bullying and oppression and to unnecessary and unjustifiable warfare. We regret that other powers, whose opinions and sense of justice we esteem highly, have at times taken a different view and have permitted themselves, tho we believe with reluctance, to collect such debts by force. It is doubtless true that the nonpayment of public debts may be accompanied by such circumstances of fraud and wrongdoing or violation of treaties as to justify the use of force. This government would be glad to see an international consideration of the subject which shall discriminate between such cases and the simple nonperformance of a contract with a private person, and a reso-

lution in favor of reliance upon peaceful means in cases of the latter class.

"It is not felt, however, that the conference at Rio should undertake to make such a discrimination or to resolve upon such a rule. Most of the American countries are still debtor nations, while the countries of Europe are the creditors. If the Rio conference, therefore, were to take such action it would have the appearance of a meeting of debtors resolving how their creditors should act, and this would not inspire respect. The true course is indicated by the terms of the program, which proposes to request the second league conference, where both creditors and debtors will be assembled, to consider the subject."

Last June trouble which had existed for some time between the republics of Salvador, Guatemala and Honduras culminated in war—a war which threatened to be ruinous to the countries involved and very destructive to the commercial interests of Americans, Mexicans and other foreigners who are taking an important part in the development of these countries. The thoroly good understanding which exists between the United States and Mexico enabled this government and that of Mexico to unite in effective mediation between the warring republics, which mediation resulted, not without long-continued and patient effort, in bringing about a meeting of the representatives of the hostile powers on board a United States warship as neutral territory and peace was there concluded, a peace which resulted in the saving of thousands of lives and in the prevention of an incalculable amount of misery and the destruction of property and of the means of livelihood. The Rio conference past the following resolution in reference to this action:

"That the third international American conference shall address to the presidents of the United States of America and of the United States of Mexico a note in which the conference which is being held at Rio expresses its satisfaction at the happy results of their mediation for the celebration of peace between the republics of Guatemala, Honduras and Salvador."

This affords an excellent example of one way in which the influence of the United States can properly be exercised for the benefit of the peoples of the western hemisphere—that is, by action taken in concert with other American republics, and therefore free from those suspicions and prejudices which might attach if the action were taken by one alone. In this way it is possible to exercise a powerful influence toward the substitution of considerate action in the spirit of justice for the insurrectionary or international violence which has hitherto been so great a hindrance to the development of many of our neighbors. Repeated examples of united action by several or many American republics in favor of peace by urging cool and reasonable instead of excited and belligerent treatment of international controversies cannot fail to promote the growth of a general public opinion among the American nations which will elevate the standards of international action, strengthen the sense of international duty among governments and tell in favor of the peace of mankind.

I have just returned from a trip to Pan-

ama and shall report to you at length later on the whole subject of the Panama canal.

The Algeiras convention, which was signed by the United States as well as by most of the powers of Europe, supersedes the previous convention of 1880, which was also signed both by the United States and a majority of the European powers. This treaty confers upon us equal commercial rights with all European countries and does not entail a single obligation of any kind upon us, and I earnestly hope it may be speedily ratified. To refuse to ratify it would merely mean that we forfeited our commercial rights in Morocco and would not achieve another object of any kind. In the event of such refusal we would be left for the first time in 120 years without any commercial treaty with Morocco, and this at a time when we are everywhere seeking new markets and outlets for trade.

The destruction of the Pribilof islands fur seals by pelagic sealing still continues. The herd which, according to the surveys made in 1874 by direction of the congress, numbered 4,700,000, and which, according to the survey of both American and Canadian commissioners in 1891, amounted to 1,000,000, has now been reduced to about 180,000. This result has been brought about by Canadian and some other sealing vessels killing the female seals while in the water during their annual pilgrimage to and from the south or in search of food. As a rule the female seal when killed is pregnant and also has an unweaned pup on land, so that for each skin taken by pelagic sealing as a rule three lives are destroyed—the mother, the unborn offspring and the nursing pup, which is left to starve to death. No damage whatever is done to the herd by the carefully regulated killing on land; the custom of pelagic sealing is solely responsible for all of the present evil and is alike indefensible from the economic standpoint and from the standpoint of humanity.

In 1896 over 16,000 young seals were found dead from starvation on the Pribilof islands. In 1897 it was estimated that since pelagic sealing began upward of 400,000 adult female seals had been killed at sea and over 300,000 young seals had died of starvation as the result. The revolting barbarity of such a practise, as well as the wasteful destruction which it involves, needs no demonstration and is its own condemnation. The Bering sea tribunal, which sat in Paris in 1893 and which decided against the claims of the United States to exclusive jurisdiction in the waters of Bering sea and to a property right in the fur seals when outside of the three-mile limit, determined also upon certain regulations which the tribunal considered sufficient for the proper protection and preservation of the fur seal in or habitually resorting to the Bering sea. The tribunal by its regulations established a close season from the 1st of May to the 31st of July and excluded all killing in the waters within sixty miles around the Pribilof islands. They also provided that the regulations which they had determined upon with a view to the protection and preservation of the seals should be submitted every five years to new examination, so as to enable both interested governments to consider whether, in the light of past experience, there was occasion for any modification thereof.

The regulations have proved plainly in-

adequate to accomplish the object of protection and preservation of the fur seals, and for a long time this government has been trying in vain to secure from Great Britain such revision and modification of the regulations as were contemplated and provided for by the award of the tribunal of Paris.

The process of destruction has been accelerated during recent years by the appearance of a number of Japanese vessels engaged in pelagic sealing. As these vessels have not been bound even by the inadequate limitations prescribed by the tribunal of Paris, they have paid no attention either to the close season or to the sixty-mile limit imposed upon the Canadians and have prosecuted their work up to the very islands themselves. On July 16 and 17 the crews from several Japanese vessels made raids upon the island of St. Paul, and before they were beaten off by the very meager and insufficiently armed guard they succeeded in killing several hundred seals and carrying off the skins of most of them. Nearly all the seals killed were females and the work was done with frightful barbarity. Many of the seals appear to have been skinned alive and many were found half skinned and still alive. The raids were repelled only by the use of firearms, and five of the raiders were killed, two were wounded and twelve captured, including the two wounded. Those captured have since been tried and sentenced to imprisonment. An attack of this kind had been wholly unlookt for, but such provision of vessels, arms and ammunition will now be made that its repetition will not be found profitable.

Suitable representations regarding the incident have been made to the government of Japan and we are assured that all practicable measures will be taken by that country to prevent any recurrence of the outrage. On our part, the guard on the island will be increased and better equipped and organized and a better revenue-cutter patrol service about the islands will be established; next season a United States war vessel will also be sent there.

We have not relaxed our efforts to secure an agreement with Great Britain for adequate protection of the seal herd and negotiations with Japan for the same purpose are in progress.

The laws for the protection of the seals within the jurisdiction of the United States need revision and amendment. Only the islands of St. Paul and St. George are now in terms included in the government reservation, and the other islands are also to be included. The landing of aliens as well as citizens upon the islands without a permit from the department of commerce and labor for any purpose, except in case of stress of weather or for water, should be prohibited under adequate penalties. The approach of vessels for the excepted purposes should be regulated. The authority of the government agents on the islands should be enlarged and the chief agent should have the powers of a committing magistrate. The entrance of a vessel into the territorial waters surrounding the islands with intent to take seals should be made a criminal offense and cause of forfeiture. Authority for seizures in such cases should be given and the presence on any such vessel of seals or sealskins or the paraphernalia for taking them should be made prima facie evidence of such in-

tent. I recommend what legislation is needed to accomplish these ends, and I commend to your attention the report of Mr. Sims of the department of commerce and labor on this subject.

In case we are compelled to abandon the hope of making arrangements with other governments to put an end to the hideous cruelty now incident to pelagic sealing it will be a question for your serious consideration how far we should continue to protect and maintain the seal herd on land with the result of continuing such a practise and whether it is not better to end the practise by exterminating the herd ourselves in the most humane way possible.

SECOND PEACE CONFERENCE.

In my last message I advised you that the emperor of Russia had taken the initiative in bringing about a second peace conference at The Hague. Under the guidance of Russia the arrangement of the preliminaries for such a conference has been progressing during the past year. Progress has necessarily been slow, owing to the great number of countries to be consulted upon every question that has arisen. It is a matter of satisfaction that all of the American republics have now, for the first time, been invited to join in the proposed conference.

The close connection between the subjects to be taken up by the Red Cross conference held at Geneva last summer and the subjects which naturally would come before The Hague conference made it apparent that it was desirable to have the work of the Red Cross conference completed and considered by the different powers before the meeting at The Hague. The Red Cross conference ended its labors on the 6th day of July, and the revised and amended convention which was signed by the American delegates will be promptly laid before the senate.

By the special and highly appreciated courtesy of the governments of Russia and the Netherlands, a proposal to call The Hague conference together at a time which would conflict with the conference of the American republics at Rio de Janeiro in August was laid aside. No other date has yet been suggested. A tentative program for the conference has been proposed by the government of Russia and the subjects which it enumerates are undergoing careful examination and consideration in preparation for the conference.

It must ever be kept in mind that war is not merely justifiable, but imperative, upon honorable men, upon an honorable nation, where peace can only be obtained by the sacrifice of conscientious conviction or of national welfare. Peace is normally a great good and normally it coincides with righteousness, but it is righteousness and not peace which should bind the conscience of a nation as it should bind the conscience of an individual, and neither a nation nor an individual can surrender conscience to another's keeping. Neither can a nation which is an entity and which does not die as individuals die refrain from taking thought for the interest of the generations that are to come, no less than for the interest of the generation of to-day, and no public men have a right, whether from shortsightedness, from selfish indifference or from sentimentality, to sacrifice national interests which are vital in character. A just war is in the long run far better for a nation's soul than the

most prosperous peace obtained by acquiescence in wrong or injustice. Moreover, tho it is criminal for a nation not to prepare for war so that it may escape the dreadful consequences of being defeated in war, yet it must always be remembered that even to be defeated in war may be far better than not to have fought at all. As has been well and finely said, a beaten nation is not necessarily a disgraced nation, but the nation or man is disgraced if the obligation to defend right is shirked.

We should as a nation do everything in our power for the cause of honorable peace. It is morally as indefensible for a nation to commit a wrong upon another nation, strong or weak, as for an individual thus to wrong his fellows. We should do all in our power to hasten the day when there shall be peace among the nations—a peace based upon justice and not upon cowardly submission to wrong. We can accomplish a good deal in this direction, but we cannot accomplish everything and the penalty of attempting to do too much would almost inevitably be to do worse than nothing, for it must be remembered that fantastic extremists are not in reality leaders of the causes which they espouse, but are ordinarily those who do most to hamper the real leaders of the cause and to damage the cause itself. As yet there is no likelihood of establishing any kind of international power, of whatever sort, which can effectively check wrongdoing, and in these circumstances it would be both a foolish and an evil thing for a great and free nation to deprive itself of the power to protect its own rights and even in exceptional cases to stand up for the rights of others. Nothing would more promote iniquity, nothing would further defer the reign upon earth of peace and righteousness than for the free and enlightened peoples which, tho with much stumbling and many shortcomings, nevertheless strive toward justice, deliberately to render themselves powerless while leaving every despotism and barbarism armed and able to work their wicked will. The chance for the settlement of disputes peacefully, by arbitration, now depends mainly upon the possession by the nations that mean to do right of sufficient armed strength to make their purpose effective.

NAVY AND ARMY.

The United States navy is the surest guarantor of peace which this country possesses. It is earnestly to be wished that we would profit by the teachings of history in this matter. A strong and wise people will study its own failures no less than its triumphs, for there is wisdom to be learned from the study of both, of the mistake as well as of the success. For this purpose nothing could be more instructive than a rational study of the war of 1812 as it is told, for instance, by Capt. Mahan. There was only one way in which that war could have been avoided. If during the preceding twelve years a navy relatively as strong as that which this country now has had been built up and an army provided relatively as good as that which the country now has, there never would have been the slightest necessity of fighting the war, and if the necessity had arisen the war would under such circumstances have ended with our speedy and overwhelming triumph. But our people during those twelve years refused to make any preparations

whatever regarding either the army or the navy. They saved a million or two of dollars by so doing and in mere money paid a hundredfold for each million they thus saved during the three years of war which followed—a war which brought untold suffering upon our people, which at one time threatened the gravest national disaster and which in spite of the necessity of waging it resulted merely in what was in effect a drawn battle, while the balance of defeat and triumph was almost even.

I do not ask that we continue to increase our navy. I ask merely that it be maintained at its present strength and this can be done only if we replace the obsolete and outworn ships by new and good ones, the equals of any afloat in any navy. To stop building ships for one year means that for that year the navy goes back instead of forward. The old battle ship Texas, for instance, would now be of little service in a stand-up fight with a powerful adversary. The old double-turret monitors have outworn their usefulness, while it was a waste of money to build the modern single-turret monitors. All these ships should be replaced by others and this can be done by a well-settled program of providing for the building each year of at least one first-class battle ship equal in size and speed to any that any nation is at the same time building, the armament presumably to consist of as large a number as possible of very heavy guns of one caliber, together with smaller guns to repel torpedo attack, while there should be heavy armor, turbine engines and in short every modern device. Of course, from time to time, cruisers, colliers, torpedo-boat destroyers or torpedo boats will have to be built also. All this, be it remembered, would not increase our navy, but would merely keep it at its present strength. Equally, of course, the ships will be absolutely useless if the men aboard them are not so trained that they can get the best possible service out of the formidable but delicate and complicated mechanisms intrusted to their care. The marksmanship of our men has so improved during the last five years that I deem it within bounds to say that the navy is more than twice as efficient, ship for ship, as half a decade ago. The navy can only attain proper efficiency if enough officers and men are provided and if these officers and men are given the chance (and required to take advantage of it) to stay continually at sea and to exercise the fleets singly and above all in squadron, the exercise to be of every kind and to include unceasing practise at the guns, conducted under conditions that will test marksmanship in time of war.

In both the army and the navy there is urgent need that everything possible should be done to maintain the highest standard for the personnel, alike as regards the officers and the enlisted men. I do not believe that in any service there is a finer body of enlisted men and of junior officers than we have in both the army and the navy, including the marine corps. All possible encouragement to the enlisted men should be given, in pay and otherwise, and everything practicable done to render the service attractive to men of the right type. They should be held to the strictest discharge of their duty and in them a spirit should be encouraged which demands not the mere

performance of duty but the performance of far more than duty, if it conduces to the honor and the interest of the American nation, and in return the amplest consideration should be theirs.

West Point and Annapolis already turn out excellent officers. We do not need to have these schools made more scholastic. On the contrary we should never lose sight of the fact that the aim of each school is to turn out a man who shall be above everything else a fighting man. In the army in particular it is not necessary that either the cavalry or infantry officer should have special mathematical ability. Probably in both schools the best part of the education is the high standard of character and of professional morale which it confers.

But in both services there is urgent need for the establishment of a principle of selection which will eliminate men after a certain age if they cannot be promoted from the subordinate ranks and which will bring into the higher ranks fewer men and these at an earlier age. This principle of selection will be objected to by good men of mediocre capacity who are fitted to do well while young in the lower positions, but who are not fitted to do well when at an advanced age they come into positions of command and of great responsibility. But the desire of these men to be promoted to positions which they are not competent to fill should not weigh against the interests of the navy and the country. At present our men, especially in the navy, are kept far too long in the junior grades and then at much too advanced an age are put quickly thru the senior grades, often not attaining to these senior grades until they are too old to be of real use in them, and if they are of real use, being put thru them so quickly that little benefit to the navy comes from their having been in them at all.

The navy has one great advantage over the army in the fact that the officers of high rank are actually trained in the continual performance of their duties—that is, in the management of the battle ships and armored cruisers gathered into fleets. This is not true of the army officers, who rarely have corresponding chances to exercise command over troops under service conditions. The conduct of the Spanish war showed the lamentable loss of life, the useless extravagance and the inefficiency certain to result if during peace the high officials of the war and navy departments are praised and rewarded only if they save money at no matter what cost to the efficiency of the service and if the higher officers are given no chance whatever to exercise and practise command. For years prior to the Spanish war the secretaries of war were praised chiefly if they practised economy, which economy, especially in connection with the quartermaster, commissary and medical departments, was directly responsible for most of the mismanagement that occurred in the war itself—and parenthetically be it observed that the very people who clamored for the misdirected economy in the first place were foremost to denounce the mismanagement, loss and suffering which were primarily due to this same misdirected economy and to the lack of preparation it involved.

There should soon be an increase in the number of men for our coast defenses; these

men should be of the right type and properly trained and there should therefore be an increase of pay for certain skilled grades, especially in the coast artillery. Money should be appropriated to permit troops to be massed in body and exercised in maneuvers, particularly in marching. Such exercise during the summer just past has been of incalculable benefit to the army and should under no circumstances be discontinued. If on these practise marches and in these maneuvers elderly officers prove unable to bear the strain, they should be retired at once, for the fact is conclusive as to their unfitness for war—that is, for the only purpose because of which they should be allowed to stay in the service. It is a real misfortune to have scores of small company or regimental posts scattered thruout the country; the army should be gathered in a few brigade or division posts and the generals should be practised in handling the men in masses. Neglect to provide for all of this means to incur the risk of future disaster and disgrace.

The readiness and efficiency of both the army and navy in dealing with the recent sudden crisis in Cuba illustrate afresh their value to the nation. This readiness and efficiency would have been very much less had it not been for the existence of the general staff in the army and the general board in the navy; both are essential to the proper development and use of our military forces afloat and ashore. The troops that were sent to Cuba were handled flawlessly. It was the swiftest mobilization and dispatch of troops over sea ever accomplished by our government. The expedition landed completely equipped and ready for immediate service, several of its organizations hardly remaining in Havana over night before splitting up into detachments and going to their several posts. It was a fine demonstration of the value and efficiency of the general staff. Similarly, it was owing in large part to the general board that the navy was able at the outset to meet the Cuban crisis with such instant efficiency, ship after ship appearing on the shortest notice at any threatened point, while the marine corps in particular performed indispensable service. The army and navy war colleges are of incalculable value to the two services and they cooperate with constantly increasing efficiency and importance.

The congress has most wisely provided for a national board for the promotion of rifle practise. Excellent results have already come from this law, but it does not go far enough. Our regular army is so small that in any great war we should have to trust mainly to volunteers, and in such event these volunteers should already know how to shoot, for if a soldier has the fighting edge and ability to take care of himself in the open his efficiency on the line of battle is almost directly proportionate to excellence in marksmanship. We should establish shooting galleries in all the large public and military schools, should maintain national target ranges in different parts of the country and should in every way encourage the formation or rifle clubs thruout all parts of the land. The little republic of Switzerland offers us an excellent example in all matters connected with building up an efficient citizen soldiery. THEODORE ROOSEVELT.

ST. LOUIS-CHICAGO DRAINAGE DECISION.

Jan. 17, 1900, the state of Missouri through its attorney-general filed a bill in the United States Supreme court against the state of Illinois and the sanitary district of Chicago in the nature of injunction proceedings against the operation of the sanitary canal. It was alleged in the bill that the city of St. Louis and many other cities in the Mississippi valley depended for their water supply on the Mississippi river and that this water would to a certainty be polluted and poisoned if the drainage from the city of Chicago was permitted to flow into the Illinois river and thence into the Mississippi. The suit passed through various stages and a great deal of testimony was taken to substantiate or refute the charges in the bill, and it was not until Feb. 19, 1906, that the Supreme court handed down its decision. This was to the effect that the state of Missouri had failed to make out its case, which was consequently dismissed. The court in passing upon the facts said:

"There is no pretense that there is a nuisance of the simple kind that was known to older common law. There is nothing which can be detected by unassisted senses—no visible increase of filth, no new smell. On the contrary, it is proved that the great volume of pure water from Lake Michigan which is mixed with the sewage at the start

has improved the Illinois river in these respects to a noticeable extent. Formerly it was sluggish and ill smelling. Now it is comparatively a clear stream to which edible fish have returned. Its water is drunk by fishermen, it is said, without evil results.

"The data upon which the increase in deaths from typhoid fever in St. Louis is alleged are disputed; the elimination of other causes is denied. The experts differ as to the time and distance within which the stream would purify itself. No case of an epidemic caused by infection at so remote a source is brought forward, and the cases which are produced are controverted. The plaintiff obviously must be cautious upon this point, for if this suit should succeed many others would follow, and it not improbably would find itself defendant to a bill by one or more of the states lower down upon the Mississippi.

"As to principles to be laid down, the caution necessary is manifest. It is a question of first magnitude whether the destiny of our great rivers is to be the sewers of the cities along their banks, or to be protected against everything which threatens their purity. To decide the whole matter at one blow by irrevocable fiat would be at least premature."

ILLINOIS PRIMARY ELECTION LAW.

Passed May 16, approved May 23 and effective July 1, 1906.

In an opinion handed down April 5, 1906, the state Supreme court declared the Illinois primary law enacted in 1905 unconstitutional on the grounds that it contained provisions delegating legislative functions to political organizations, required the payment of fees by candidates for office, set up a geographical qualification for candidates for the legislature and made out one set of requirements for one part of the state and another set for another part. Gov. Deneen, on the same day, issued a call for an extra session of the legislature for the purpose of enacting a new primary law. The session began April 10 and ended May 16. The primary law then passed is substantially as follows:

Hereafter the nominations of all candidates for all elective state and county offices, clerks of the Appellate courts, representatives in congress, members of the state board of equalization, members of the general assembly, sanitary district trustees and such municipal officers as are to be elected at the November election, by all political parties, shall be made by conventions of delegates to be elected by means of a primary election under the provisions of this act. This act shall not apply to the nomination of candidates for county commissioners in counties not under township organization and township officers. The title "political party" shall mean a party which at the last preceding presidential election cast for its candidate for presidential elector receiving the highest number of votes at least 2 per cent of the total vote cast at said election.

DELEGATE DISTRICTS.

The county central committee of each political party shall establish delegate districts in their respective counties on or before July 3, 1906, and on or before March 1, 1909, and every four years thereafter. Such delegate district shall consist of not more than seven contiguous election precincts or election districts in as compact form as possible, as now established or that may hereafter be established for the purpose of a general election, and shall contain, as near as may be, and not exceeding 800 voters of any one political party, for the purpose of electing delegates to a state, congressional, senatorial, county or sanitary district, and a municipal convention for the nomination of such municipal officers as are to be elected at the November election.

No delegate district for the election of delegates to any county convention shall consist of a larger area than one political town as now organized by law or of larger area than a congressional township in counties not under township organization. Separate delegate districts may be established for the purpose of selecting delegates to county conventions, making such districts as nearly equal as practicable, having in view the number of party voters in such districts.

Primary elections under this act shall be held in each delegate district at the regularly established polling places in the various precincts for holding general elections on the first Saturday in August, 1906, and on the last Saturday in April, 1908, and every

two years thereafter. The polls shall open and close at the same hours as provided in the general election laws for the opening and closing of the polls at general elections. Any person entitled to vote at such primary elections shall be entitled to absent himself from his employment for two hours for the purpose of voting, without any deduction from his wages or salary, provided application for leave of absence is made prior to the day of the primary. The employer may specify the hours when the employe may absent himself.

The call for state, congressional and senatorial conventions shall be issued at least thirty-three days before the primary election and the call for the county convention at least thirty days before the primary. The call shall state the time and place of the conventions and the number of delegates to which each district or political subdivision is entitled. Notices in accordance with the calls shall be posted by the election judges at least three days before the primaries.

The judges and clerks of the general election in each election precinct or district are constituted judges and clerks of all primary elections in their respective precincts. Not more than two of such judges and clerks, and, where there is a board of election commissioners, not more than one such clerk, shall be affiliated with the same political party. The judges of election shall permit each ticket of delegates to be represented by a challenger, chosen by a majority of those named for delegates on such ticket. The challenger shall be permitted to remain within the polling place until the returns are signed. Voting booths are to be arranged in the same way as heretofore and the provisions for ballot boxes, pollbooks, tally sheets and other supplies are unchanged.

Any member of a political party desiring to become a candidate for the office of United States senator shall have his name printed upon the official primary ballot of his party by filing in the office of the secretary of state not less than thirty days before the primary a request in writing therefor, and the secretary of state shall, not less than twenty-five days before the primary, certify to the county clerk or the board of election commissioners the names of all candidates for United States senator, giving the political affiliation of each. The vote upon candidates for United States senator shall be had for the sole purpose of ascertaining the sentiment of the voters in the respective parties.

Any candidate for an elective office, except trustees of the state university, shall have his name printed upon the official primary ballot, provided he shall file with the secretary of state at least thirty days prior to the primary a petition signed by at least 1,000 voters of his party.

Any candidate for representative in congress or member of the state board of equalization shall have his name printed on the official primary ballot, provided he shall have filed with the secretary of state at least thirty days prior to the primary a petition signed by at least 2 per cent of the voters of his party in his congressional district.

Any candidate for member of the general assembly shall have his name printed upon the official primary ballot, provided he shall have filed with the secretary of state at least thirty days prior to the primary a petition signed by at least 2 per cent of the voters of his party in his senatorial district.

Any candidate for county judge, county clerk, judge of the Probate court, clerk of the Probate court, clerk of the Circuit court, recorder of deeds, county treasurer, county superintendent of schools, county surveyor, sheriff, coroner and state's attorney shall have his name printed upon the official primary ballot, provided he shall have filed in the office of the county clerk of his county at least thirty days prior to the primary a petition signed by at least 2 per cent of the voters of his party in his county.

Petitions must be made out in accordance with the requirements of the general election law. Each signature must be sworn to by a person who saw it written.

THE OFFICIAL BALLOT.

The method of voting at primary elections shall be by ballot. Two forms of ballots shall be used. One shall be designated as the "official primary ballot" and shall be furnished at public expense and the other shall be designated as the "delegate ballot" and shall be furnished at private expense. The official ballot of each political party shall be separately printed upon paper of uniform quality, texture and size and in black ink, but the official primary ballot of no two political parties shall be of the same color in any one county. The delegate ballot shall correspond with the official ballot and shall be uniform in size—ten and a half inches in length and seven inches wide. At the top of the official ballot shall be printed in large capital letters words designating the ballot. If a republican ballot the words shall be "Republican Primary Ballot," if a democratic ballot the words shall be "Democratic Primary Ballot," and in like manner for each political party.

Beginning not less than one inch below the designating words, the name of each office to be filled shall be printed in capital letters and in the following order: United States senator, governor, lieutenant-governor, secretary of state, auditor of public accounts, treasurer, superintendent of public instruction, attorney-general, clerk of the Supreme court, clerk of the Appellate court, representative in congress, member of the state board of equalization, members of the general assembly and such county officers as are specified above. Below the name of each office shall be printed in small letters "vote for one." Below the name of each office shall also be printed in capital letters the names, alphabetically arranged, of all the candidates for the office. Immediately in front of and opposite the name of each candidate shall be printed a square and all squares shall be of uniform size.

THE DELEGATE BALLOT.

The delegate ballot shall be arranged as follows: At the top of the ballot shall be printed in large capital letters the words "Republican Delegate Ballot" or "Democratic Delegate Ballot" and in like manner for each political party. Then shall follow the date of the primary, designation of the delegate district and the election districts constituting the same. Beginning not less

than one inch below the designating words, the names of the conventions to which the delegates are to be chosen shall be printed in capital letters and in the following order: State convention, congressional convention, senatorial convention, county convention, sanitary district convention and municipal convention for the nomination of candidates to be elected at the November election. Below the name of each convention shall be printed in a vertical column the names of the requisite number of delegates to which the delegate district is entitled in each of the conventions.

The primary judges shall permit within the polling places and within reach of the voters a sufficient supply of the various delegate ballots of each political party.

No person shall vote at any primary election unless he shall be a legally qualified voter and unless he has resided in the election precinct or election district at least thirty days prior to the date of the primary election, and unless he declares his party affiliation, as required by this act, and in all cases where registration is required as a condition precedent to voting at regular elections only registered voters shall be permitted to vote at such primary election.

No person shall be allowed to vote who shall have signed the petition of a candidate of any party with which he does not affiliate when such candidate is to be voted for at the primary election.

No person shall be allowed to vote who shall have signed the nominating petition of an independent candidate for any office for which office candidates are to be voted for at the primary election, or if he shall have voted at the primary election of another political party within the period of one year next preceding such primary election.

MANNER OF VOTING.

Any person desiring to vote at a primary election shall state his name, residence and party affiliation to the primary judges. If not challenged one of the judges shall give him one of the official ballots of the party with which he declares himself affiliated. On receiving the official primary ballot of his party, and having a delegate ballot of his party, the voter shall retire alone to one of the voting booths and prepare such official primary ballot by making a cross in the square in front of the name of each candidate of his choice for each office to be filled. He shall then fold each ballot and hand it to the primary judge, who shall mark it with his initials and deposit it in the ballot box. The primary clerk shall then enter the voter's name, residence and party affiliation in the registry poll books.

The votes shall be canvassed in the room or place where the primary election is held, the judges first separating the official primary ballots from the delegate ballots, rejecting all upon which the initials of a primary judge do not appear. The judges shall then count the official ballots separately and each primary clerk shall mark upon the tally sheets the votes which each candidate of the party whose name is written or printed on the official ballot has received in a separate column for that purpose, with the name of such candidate, the name of his political party and the name of the office for which he is a candidate for nomination, at the head of the column.

The primary judges shall then count the delegate ballots of each political party separately, in accordance with the provisions of the act entitled "An act to dispense with individual tally marks in canvassing the so-called 'straight ticket,'" approved May 13, 1905.

As soon as the votes are counted the primary clerks shall foot up the tally sheets so as to show the total number of votes cast for each candidate of each political party and the total number of votes cast for each delegate to the various conventions and the total vote cast by the party and certify the same as correct. Thereupon the primary judges shall set down in the registry poll books, under the name of said political party, the name of each candidate voted for upon the official primary ballot, the name of the office for which he is a candidate for nomination, the total number of votes which the candidate received, the total number of votes cast by the party at the primary, and shall then certify the same to be true and correct.

The primary judges shall also set down in the registry poll book the name of each candidate voted for, for delegate to the state, congressional, senatorial, county, sanitary district and municipal conventions, the designation of the convention to which he is a candidate for delegate, the total number of votes the delegate received, and the judges shall certify the same to be correct.

After the votes have been counted and entered in the poll books they shall be sealed up in envelopes and turned over with the registry poll books and tally sheets to the county clerk or board of election commissioners, who shall keep them for three months.

Within forty-eight hours after the vote in each precinct has been canvassed the judges shall return to the county clerk or the board of election commissioners the tally sheets showing the vote for delegates in such precinct of each party. It shall be the duty of the county clerk or election commissioners to add together the votes of all the precincts in each delegate district for each delegate to each convention and give certificates of election to the delegates receiving the highest number of votes.

CANVASS OF RETURNS.

As soon as the complete returns are delivered the county clerk or board of election commissioners shall, with the assistance of the county judge, canvass the returns and make separate tabulated statements for each political party. Each of such statements shall show, in appropriate columns, the total number of votes cast in each delegate district for each candidate for nomination for office. Each county clerk or board of election commissioners, within five days after the primary election, shall send to the secretary of state the total vote for each candidate for United States senator of each political party.

If upon the completion of the canvass of the returns it appears that any candidate of any party for the nomination for any

state, congressional or senatorial office has received a plurality of all the votes cast for candidates for nomination for such office in any delegate district, such candidate shall have cast for him the votes of all the delegates from such delegate district for at least the first ballot. Nominations shall be made by majority vote of all the delegates elected to each convention.

The state canvassing board shall canvass the primary vote for United States senator and certify tabulated statements thereof separately for each political party showing the total number of votes cast and the total vote for each candidate. The secretary of state shall cause to be delivered to the secretary of the state convention of the respective political parties next following such primary election a statement showing the total vote cast for each such candidate for United States senator.

Expenses of primary elections are to be met in the same way as those of regular elections.

DATE OF CONVENTIONS.

All county conventions shall be held on the Thursday after the primary election.

All senatorial conventions shall be held on the second Tuesday after the primary election, provided that where a county constitutes a senatorial district the senatorial convention for such district shall be held on the same day as the county convention, and the delegates elected to the county convention shall be ex-officio delegates to the senatorial convention.

All senatorial conventions shall be held on the second Thursday after the primary election day.

All state conventions shall be held on the third Tuesday after the primary election.

No person other than a delegate shall be elected as an officer of any convention, and the chairman of all conventions shall be elected by a roll call. None but legally qualified voters shall be eligible as delegates and no person shall act as a delegate except when elected in accordance with the provisions of the act. However, in the absence of a delegate or delegates, then the delegates representing the district shall select some one to represent such absent delegate or delegates. Delegates so selected shall stand instructed to vote in the convention the same as the absent delegate or delegates were instructed to vote.

No delegate shall have the power or authority to appoint any proxy or substitute to vote in his stead.

When a vacancy shall occur in any elective office and a special election shall become necessary, the managing committee of the several political parties for the territorial area in which such vacancy occurs shall nominate the candidate or candidates for the respective parties to fill such vacancy.

Persons guilty of fraud, corruption or any act constituting a misdemeanor under the primary law are subject to fines of from \$25 to \$1,000 and imprisonment in the county jail of not less than one month or more than two years.

JURISDICTION.

1. All actions on contracts, express or implied, when the amount claimed by the plaintiff exceeds \$1,000, and all actions for the recovery of personal property or for the recovery of damages for the conversion of or injury to personal property when the value of the property or the amount of damages sought to be recovered, as claimed by the plaintiff, exceeds \$1,000, and which, for convenience, will be designated as cases of the first class.

2. All suits of every kind, whether criminal or civil, or whether at law or in equity, which may be transferred to it by change of venue or otherwise by the Circuit, Superior or Criminal courts of Cook county for trial and disposition, and which will be designated as cases of the second class.

3. All criminal cases in which the punishment is by fine or imprisonment otherwise than in the penitentiary, and which will be designated as cases of the third class.

4. All those classes of suits and proceedings, whether civil or quasi-criminal, of which justices of the peace are now given jurisdiction by law, in all of which classes of suits the Municipal court shall have jurisdiction when the amount sought to be recovered, whether by way of damages, penalty or otherwise, does not exceed \$1,000. Provided, that in any action upon a bond the amount sought to be recovered thereon and not the penalty of the bond shall determine the jurisdiction and that when payments are to be made by installments an action may be brought in the Municipal court for any installment not exceeding \$1,000 as it becomes due. These will be designated as cases of the fourth class.

5. All other suits at law for the recovery of money only, when the amount claimed does not exceed \$1,000, and which will be designated as cases of the fifth class.

COURT DISTRICTS.

COSTS IN CIVIL CASES.

1. In cases of the first class the plaintiff shall pay \$3 to the clerk when suit is begun and \$6 more if he asks for a jury trial.

2. In cases of the second class the plaintiff at the time of the bringing of the transcript of the record to the Municipal court shall pay \$8 and \$6 more if he files a demand for a jury.

3. In cases of the first and second class the defendant at the time of the filing of his appearance shall pay to the clerk \$3 and if he asks for a jury \$6 additional.

4. In any case of the fourth or fifth class the plaintiff, at the time of beginning suit, shall pay to the clerk of the court \$2 when the amount claimed does not exceed \$200; \$5 if the amount exceeds \$500 and does not exceed \$1,000, and \$2 in a case of forcible entry and detainer. If a jury is asked \$6 additional must be paid.

In any case of the fourth or fifth class the defendant, at the time of his appearance, shall pay to the clerk \$2 if the amount claimed by the plaintiff exceeds \$200 and the further sum of \$6 if he (the defendant) asks for a jury.

6. The costs to be paid for the services of the bailiffs and of sheriffs and other costs not mentioned in the above cases of the first and second class shall be the same as in the Circuit court.

7. In any case of the fourth or fifth class the party delivering to the bailiff any paper to be served shall pay him \$1 for each defendant named upon whom service is to be made, and in cases of writs of attachment,

repay or execution the further sum of \$1 when any levy is made, and shall also pay for the actual expense of seizing and caring for property.

8. In any case of the fourth or fifth class the party securing any certified copy of the record shall pay to the clerk the same fees as are paid to the clerk of the Circuit court for similar services.

9. In any case of the fourth or fifth class the bailiff, as commissions on moneys realized by execution, shall collect from the defendant in the execution 5 per cent upon the money realized if it does not exceed \$100, but if it exceeds \$100 the amount shall be 5 per cent on the first \$100 and 3 per cent upon the excess over \$100.

COSTS IN CRIMINAL CASES.

Costs in criminal and quasi-criminal cases and proceedings in the Municipal court in-

stituted in the name of the people or of any state or county officers shall be:

1. Clerk's fees for all services rendered by him, \$6.

2. Bailiff's fees the same as those which may now or hereafter be fixed by law for the sheriff in counties of the third class for similar services.

Costs in cases in the Municipal court instituted in the name of the city of Chicago or in the name of any city official shall be the same as those named above.

The clerk and each deputy shall collect for the acknowledgment of memoranda of chattel mortgages and of other written instruments the same fees allowed by law to justices of the peace for similar services and the fees so collected and all costs collected in each week shall be paid over to the city of Chicago on the Monday of the following week.

CHICAGO'S FREE PUBLIC BATHS.

[From report of Secretary E. R. Pritchard.]

Names and locations of baths:
 Carter H. Harrison—192 Mather street.
 Martin B. Madden—3825 Wentworth-av.
 William Mavor—4647 Gross avenue.
 Robert A. Waller—80 South Peoria street.
 Kosciuszko—703 Holt avenue.
 John Wentworth—2838 S. Halsted street.
 William B. Ogden—3646 Emerald avenue.
 Theodore T. Gurney—247 W. Chicago-av.
 Joseph Medill—759 Grand avenue.
 DeWitt C. Cregler—193 Gault court.
 Free baths have also been given at the 14th and 22d street pumping stations and at several lake beaches, but special buildings have not been provided at these points. The Carter H. Harrison bath, which was opened in January, 1894, is said to have

been the first free public bath in the United States, if not in the world. Similar baths in Vienna charged a fee of 2 cents and those in New York 5 cents. The Madden bath was opened in April, 1897; the Mavor bath in May, 1900; the Waller bath in February, 1901; the Kosciuszko bath in April, 1904. The Wentworth, Ogden, Gurney and Cregler baths were completed in the latter part of 1905. The average cost of each plant has been between \$15,000 and \$20,000, and the average annual cost of maintenance \$4,000. The total number of free baths furnished in 1905 was 693,071 and the total for the first six months of 1906 was 362,118. The average cost to the city for each bath is 3.5 cents.

DEATH OF MARSHALL FIELD.

Marshall Field, the world's foremost merchant, died in New York city on the afternoon of Tuesday, Jan. 16, 1906, after an illness lasting a week. About the first of the year he contracted a slight cold and was suffering from it when he left his home in Chicago on Monday, Jan. 8, to attend to business matters in the east. On the train he became seriously ill and on his arrival in New York had to be carried from the train. He was taken to the Holland house, where he was attended by Drs. W. B. James and E. G. Janeway of New York and later by Dr. Frank Billings, his family physician, who had been summoned from Chicago. The cold developed into pneumonia, which finally proved fatal. The funeral took place in Chicago Friday, Jan. 19. The remains rest in the family lot in Graceland cemetery.

At the time of his death Mr. Field was in his 71st year. He was born Aug. 18, 1835, on a farm near Conway, Mass. Coming to Chicago in 1856 he entered the dry-goods store of Cooley, Wadsworth & Co. as a clerk. In a few years he secured an interest in the firm; then, forming a partnership with Levi Z. Leiter, he went into business for himself. He prospered and in the course of time became the leading merchant not only of Chicago but of the world, and one of the world's richest men. While he was interested in many corporations in the east and had much property in various parts of Europe, the bulk of his possessions was in Chicago and consisted chiefly of real estate, buildings and stock in banks and other concerns. No accurate statement of the total value of his estate has been made, but it is believed to approximate \$118,000,000, divided as follows:

Business in Chicago (estimated).....	\$30,000,000
Chicago real estate.....	41,000,000
New York city real estate.....	5,000,000

Other Chicago bank holdings.....	400,000
Mining and farming lands.....	2,000,000
Miscellaneous stocks and bonds (estimated).....	20,000,000

Total\$118,000,000

PROVISIONS OF THE WILL.

Marshall Field's will was filed in the Probate court of Cook county Jan. 24. The document bore the date of Feb. 25, 1904, and was attested in Chicago. It embraced two codicils, one bearing the date of June 15, 1904, and the other Sept. 5, 1905. Specific bequests amounting to \$25,238,000 are made and it is provided that the residue shall be held in trust for his two grandsons, Marshall Field III, and Henry Field, aged 12 and 10 years respectively in 1906. They are the sons of Marshall Field, Jr., who died Nov. 27, 1905. Their sister, Gwendolyn, is also to participate in the trust fund, but she is to receive only one-half as much of the income as that received by each of the boys. When the elder boy shall

have reached the age of 50 the entire residuary estate will be divided between him and his brother, Marshall receiving three-fifths and Henry two-fifths. This division is provided for in the directions for a trusteeship of the residuary estate. The trustees named are the Merchants' Loan and Trust company, Chauncey Keep and Arthur B. Jones. In the event of the death of either Mr. Keep or Mr. Jones or of both William G. Beale is to become trustee.

TAXATION IN CHICAGO.

List of the eleven boards making annual levies within the city limits:

- STATE TAX**—For state purposes. The governor, auditor and treasurer constitute the board which ascertains the rate per cent required to produce the amount of taxes levied by the general assembly. "The state school tax" is levied in the same manner. The rate for all state purposes varies from 50 to 60 cents on the \$100 assessed valuation.
- COUNTY TAX**—The county board levies the taxes for all county purposes, the aggregate of which is limited to 75 cents on the \$100.
- CITY TAX**—The city council, acting with the mayor, levies the taxes for all city purposes, which is limited to \$2 on the \$100.
- SCHOOL TAX**—The city council and the mayor make a separate levy for this purpose, which is limited to \$2.50 on the \$100.
- LIBRARY TAX**—The city council and the mayor make a separate levy for this purpose. The levy is 10 cents on the \$100.
- SANITARY DISTRICT**—The tax is levied by the board of trustees.
- SOUTH PARK SYSTEM**—The south park commissioners levy for park purposes in the towns of South Chicago, Hyde Park and Lake.
- WEST PARK SYSTEM**—The West Chicago park commissioners levy for park purposes in the town of West Chicago.
- LINCOLN PARK**—The Lincoln park commissioners are not "incorporate authorities," the Lincoln park act not having been adopted by popular vote. The levy for Lincoln park is made by the county treasurer, acting as ex-officio supervisor.
- RIDGE PARK**—A small park district in Rogers Park, organized under the law providing for local park districts by popular vote. The board of five commissioners levies for the district.
- THE NORTH SHORE PARK DISTRICT**—Organized the same as Ridge Park.

By an act of the legislature approved May 11, 1901, and by the vote of the people at the spring election in 1902 the townships lying within the limits of Chicago were consolidated and the powers of the town boards transferred to the city council. This reduced the taxing boards in Chicago from eighteen to eleven as above.

CHICAGO STREET-RAILWAY FRANCHISES.

In 1865 the Illinois legislature passed an act by the terms of which the charters of the North Chicago City Railway and the Chicago West Division Railway companies and the rights granted them in the streets of Chicago were extended for a period of ninety-nine years. The companies named became a part of the Union Traction company organized by Charles T. Yerkes in 1899 and which, in April, 1903, went into the hands of receivers. When it was sought to secure improved street-car service and to compel the companies to accept new franchises on terms more favorable to the city, the attorneys for the Union Traction company urged the United States Circuit court to enforce the claims under the ninety-nine year act. May 28, 1904, Judge Peter S. Grosscup announced as the decision of the court that as to all lines built under ordinances passed before May 3, 1875, when the city was incorporated under the new constitution, the ninety-nine-year-act claim was valid and that the company had the right to operate such lines until Feb. 14, 1958. As to lines built under ordinances passed after May 3, 1875, the court held that the rights of the company ended with the expiration of the twenty-year term of the "compromise" ordinance of 1853. As to certain other lines the company had the right to operate them until the city bought or found a purchaser for them.

SUPREME COURT DECISION.

In the course of the litigation over the street-railway properties in Chicago the following cases were carried to the United States Supreme court:

No. 331—Henry A. Blair and Marshall E. Sampsell, as receivers of the North Chicago Street Railroad company, and James H. Eckels and Marshall E. Sampsell, as receivers of the Chicago Union Traction company, appellants, vs. the City of Chicago, et al.

No. 332—The North Chicago City Railway company, appellant, vs. Henry A. Blair, et al.

No. 333—City of Chicago, appellant, vs. John C. Fetzer, et al.

No. 334—Henry A. Blair and Marshall E. Sampsell, as receivers of the West Chicago Street Railway company, and James H. Eckels and Marshall E. Sampsell, as receivers of the Union Traction company, appellants, vs. the City of Chicago, et al.

No. 335—The Chicago West Division company, appellant, vs. Henry A. Blair, et al.

No. 336—City of Chicago, appellant, vs. John C. Fetzer, et al.

The decision of the Supreme court in these cases was announced Monday, March 12, 1906, when Justice Day read the following synopsis of the findings:

1. The Circuit court of the United States for the northern district of Illinois had jurisdiction to render the judgments against the Chicago Union Traction company, the North Chicago Street Railroad company and the West Chicago Street Railroad company set up in the bills afterward filed for the appointment of receivers.

2. The proceedings for the appointment of receivers were not shown to be collusive and fraudulent, and the court had jurisdiction to entertain the bill and appoint the receivers and put them in possession of the property of the railway companies.

3. The ancillary bills filed by the receivers were maintainable in aid of the court's jurisdiction to settle controversies as to the property which was to be administered and disposed of under the orders and decrees of the court.

4. The acts of 1859, 1861 and 1865 were not unconstitutional under the constitution of Illinois of 1848 in force when the same were passed.

5. The act of Feb. 6, 1865, amending the act of Feb. 14, 1859, had the effect to extend the corporate lives of the Chicago City Railway company, the North Chicago City Railway company and the Chicago West Division Railway company for the term of ninety-nine years. It affirmed the contracts with the city prescribing rights and privileges in streets of Chicago in all respects as theretofore made, including time limitations as contained in the ordinances previously passed. It recognized and continued in force the right of the city and companies to make contracts for the use of the streets upon terms and conditions including the time of occupancy, as might be agreed upon between the council and corporation.

6. Corporate privileges can only be held to be granted as against public rights when conferred in plain and explicit terms. The ambiguous phrase in the act of 1865, "during the life hereof," did not operate to extend existing contracts for the term of ninety-nine years or limit the right of the city to make future contracts with the companies covering shorter periods.

7. The amending act of 1865 had reference to the North Chicago City Railway company as well as to corporations specifically named in the first sections of the act of 1859 and 1861.

8. The ordinances of May 23, 1859, granting rights and privileges in certain streets to the Chicago City Railway company and the North Chicago City Railway company, respectively, are radically different. The grant to the former company for the south and west divisions of the city is during all the terms specified in the act of Feb. 14, 1859, which act expressly ratified the ordinance of 1858, granting the right to use the streets therein named for the term of twenty-five years and until the city shall purchase and pay for the same as set forth in said ordinance. On the north side the term granted is for twenty-five years and "no longer." The privileges conferred upon the Chicago City Railway company and its grantees were confirmed as made by the act of 1865, with the effect to continue the right of the companies to occupy the streets named in the ordinances of 1858, May 23, 1859, and similar ordinances for the term of twenty-five years and until the city shall elect to purchase and pay for the property of said railway companies. On the north side the grants being limited to twenty-five years and no longer, no such rights exist to remain in the use of the streets until purchased by the city.

9. Whatever rights existed in the streets were not lost to the companies by the acceptance of the ordinances granting a change from animal to cable or electric power in the operation of the railway.

10. The grants of the town of Jefferson, having been made after the acceptance of

the cities and villages act, are limited to the term of twenty years.

11. The grants by the supervisor of Lake View are not in perpetuity, as the Lake View road was but an extension of the north side system, which was expressly limited in the duration of its grant to the term of twenty-five years. No intention will be presumed to make an extension of this part beyond the life of the grant to the main line of the north side road.

12. The grants by the trustees of Lake View will not extend beyond the life of the corporation making them, and upon the annexation of Lake View to Chicago—the further right to use the streets must be derived from grants by the council of that city under the power conferred by the cities and villages act.

The decree reversed and cause remanded for further proceedings in accordance with the views herein expressed.

A rehearing in the case was denied by the Supreme court May 14. Justices McKenna, Brewer and Brown dissented.

UNEXPIRED FRANCHISES.

The decision wiped out the rights of the traction companies in all the streets of Chicago except the following. The list was prepared by Glenn E. Plumb, traction counsel for the city, and shows the limit of the grants still in force. The lines which the companies have the right to operate until purchased by the city are indicated by a star (*):

ART INSTITUTE.

Lake front, foot of Adams street.

President—Charles L. Hutchinson.
 Secretary—N. H. Carpenter.
 Treasurer—E. A. Hamill.
 Director—W. M. R. French.
 Hours Open—9 a. m. to 5 p. m.
 Free Days—Wednesdays, Saturdays and Sundays.
 Admission on Other Days—25 cents.

The Art institute was incorporated May 24, 1879, upon the application of Marshall Field, Murry Nelson, Charles D. Hamill, Ferd. W. Peck and George E. Adams, for the founding and maintenance of schools of art and design, the formation and exhibition of collections of objects of art and the cultivation and extension of the arts of design by any appropriate means. A building was erected at a cost of \$785,000 and was first occupied Nov. 1, 1893. The ownership is vested in the city of Chicago, while the right of use and occupancy is vested in the Art Institute so long as it shall fulfill the purposes for which it was organized.

The art museum now ranks among the first three or four in the country. It contains the Henry Field collection of paintings, which is especially strong in works of modern French masters; the Demidoff collec-

tion of old masters, chiefly of the Dutch school, and in addition numerous American and other paintings secured by purchase or gift. There is also a large and comprehensive collection of reproductions of sculpture, the greater part of it having been donated by Mrs. A. M. H. Ellis. Reproductions of antique bronzes, of objects found at Pompeii and Herculaneum and of Egyptian antiquities are numerous, while many other fields of art are well represented. The Institute has a library of 4,000 volumes devoted exclusively to art.

The school of instruction in art practice includes departments of painting, sculpture, decorative designing and architecture. There are day and evening classes for beginners and for advanced pupils. The instructors number about 70 and the pupils will average about 2,000 a year. The tuition fees are as follows: Day school, full time for one term of twelve weeks, \$25; full time for one month, \$10; four days a week, for one term, \$23; three days a week, for one term, \$20; two days a week, for one term, \$15. Evening classes, three evenings a week, for one term, \$6; Saturday class, one term, \$5.

MUNICIPAL ART LEAGUE.

Incorporated Jan. 30, 1901.

President—Ralph Clarkson.
 Secretary—James W. Pattison, Tree Studio building.
 Treasurer—Charles L. Hutchinson.
 Exhibition Committee—Mrs. Frederick W. Grover, chairman; Mrs. Frances C. Kendrick, secretary.

Directors—Peter B. Wight, Alfred H. Granger, Louis J. Millet, Oliver Dennett Grover, Ralph Clarkson, James W. Pattison, Charles J. Mulligan, Julia M. Bracken, Lorado Taft, Mrs. George B. Carpenter, William H. Bush, N. H. Carpenter, Stanley McCormick, Honore Pahnner, J. S. Dickerson, Fred A. Bangs, west park board; Bryan Lathrop, Lincoln park

board; Henry G. Foreman, south park board.

The objects of the association are to promote the beautifying of the streets, public buildings and places of Chicago; to bring to the attention of the officials and people of the city the best methods for instituting artistic municipal improvements and to stimulate civic pride in the care and improvement of private property. The membership of the board of directors of the league includes the mayor of the city or the commissioner of public works, three park commissioners, three sculptors, three architects and three painters. The league is merely advisory and is not invested with any authority from the city.

GARNISHMENT LAW OF ILLINOIS.

Section 14 of the act of 1872 as amended in 1897 and 1901 declares: "The wages for services of a wage earner who is the head of a family and residing with the same, to the amount of fifteen (15) dollars per week, shall be exempt from garnishment. All above the sum of fifteen (15) dollars per

week shall be liable to garnishment." Employers are obliged to pay wages amounting to \$15 or less, notwithstanding the service of a writ of garnishment, providing the person to whom wages are due makes affidavit that he is the head of a family and is living with the same.

"THE KOHLER SYSTEM"

Is a name which applies to two separate branches of our business as contracting electrical engineers and manufacturers.

1. "THE KOHLER SYSTEM" (patented) for the electrical operation of printing presses and machinery by push buttons. The pioneer installation was made by The Chicago Daily News in 1896, since which time 287 equipments have been installed on the presses of the leading American and Foreign Newspapers and Printing Establishments.
2. "THE KOHLER SYSTEM," designating the systematic manner in which we handle the details of any work pertaining to electric lighting, power and railways.

FIELD MUSEUM OF NATURAL HISTORY.

The Field Museum of Natural History was incorporated Sept. 16, 1893, under the name "Columbian Museum of Chicago." This was changed in June, 1894, to "Field Columbian Museum" and in November, 1905, to "Field Museum of Natural History." Toward the close of the World's Fair in Chicago in 1893 a plan to commemorate that event by securing some of the more noteworthy exhibits and making them the nucleus of a great museum took shape. An organization was effected under the direction of the exposition directors and contributions were solicited. The success of the enterprise was fully assured when on the 26th of October of that year Marshall Field gave \$1,000,000 to the museum fund. George M. Pullman gave \$100,000, H. N. Higginbotham \$100,000, Mrs. George Sturgis \$50,000 and others lesser amounts. The fine arts building in Jackson park was turned over to the directors and in it were arranged the many articles donated by exhibitors at the World's Fair and by others.

It was not the intention to have the museum permanently established in Jackson park and steps were taken to secure ground in a more central location. It was understood that if a site could be found near the center of the city Mr. Field would provide the necessary funds for building and endowment purposes. Public opinion favored the lake front on the south side and at the session of the legislature in 1903 a bill was passed amending the act of June 17, 1893, concerning museums in public parks so as to permit the erection and maintenance of the Field museum in Grant park. By the terms of this law, which was approved May 14, an admission fee of 25 cents for adults and 10 cents for children under 10 years of age may be charged, but the museum must be open three days in each week free of charge. Entrance for school children must be free at all times. The authorities are permitted to levy a tax of 1/2 mill on each dollar of the assessed valuation of the property in the south park district for the maintenance of the museum.

THE FIELD BEQUEST.

Marshall Field died Jan. 16, 1906, and left \$8,000,000 for the museum. That part of his will relating to this bequest is as follows:

"Subject to the condition hereinafter expressed, I give, devise and bequeath to the Field Columbian museum, a corporation of the state of Illinois, eight million (\$8,000,000) dollars, to be held and applied by the trustees thereof for the uses and purposes of that institution, as hereinafter provided; but any sums of money that I may hereafter in my lifetime, but subsequent to the date of the execution of this instrument, give to the trustees of said corporation or pay for the use and on account of said corporation, shall be taken and deemed by my executors as advancements on account of this bequest, and the amount of this bequest shall be paid by my executors to the trustees of said museum, lessened and reduced by the amount of each and all of such advancements. Each advancement shall be charged up against the particular fund, that is, endowment fund or building fund, to which it may have been made.

"It is my will and I direct that the lands, tenements and hereditaments hereinafter described and devised to said Field Columbian museum shall be taken and reckoned as a part of said devise and bequest to the amount and valuation of three million two hundred thousand (\$3,200,000) dollars. To that end and as a part of said devise and bequest I hereby give, devise and bequeath to said Field Columbian museum all and singular the lands, tenements and hereditaments situated in the city of Chicago known and described as follows: [Here follows the legal description of the property at the southeast corner of State and Madison streets consisting of a dozen lots with the improvements thereon.]

FOR AN ENDOWMENT FUND.

"I give, devise and bequeath to said Field Columbian museum with the lands, tenements and hereditaments aforesaid, the said several leases and all of my interests therein and in the covenants therein contained and in the rents to accrue thereunder, and also the reversions in fee in the lands above described. It is my will that all the capital of this portion of the entire devise and bequest, and the further sum of eight hundred thousand (\$800,000) dollars, or so much of said further sum as shall be received from my estate by said trustees of the museum after any advancement hereafter made by me in my lifetime shall be deducted as hereinbefore provided, shall be kept intact as an endowment fund, and that the net income thereof shall be applied to the maintenance and extension of the collections of the museum and to the expenses of its administration. In the event of my death before the first day of July, 1905, upon which date a net annual rental of one hundred and twelve thousand (\$12,000) dollars will begin to accrue under the lease last mentioned, covering the entire premises above described, it is my will and I direct that my executors shall from my general estate pay over in convenient installments to the trustees of said museum such amount as shall equal the difference between the aggregate rental reserved by said present leases and a rental at the rate of one hundred and twelve thousand (\$12,000) dollars per annum, for the period from the date of my death until said first day of July, 1905, which amount, in such event, I give and bequeath to the museum, to be received and applied by its said trustees as income from said endowment fund. A net annual income of one hundred and twelve thousand (\$12,000) dollars, together with the further income to be expected from said eight hundred thousand (\$800,000) dollars forming a part of the entire endowment fund, ought, in my judgment, for some years at least, to be sufficient for the administration, maintenance and reasonable extension of the museum, but if the net income from the entire endowment fund shall be found insufficient for said purpose in any year by said trustees, then said trustees shall be authorized in their discretion to use in that year for said purpose so much of the net income of the remaining four million (\$4,000,000) dollars, hereinafter mentioned, as they shall find necessary and available.

FOR BUILDING PURPOSES.

"Out of the said entire devise and bequest it is my will and I direct that the sum or fund of four million (4,000,000) dollars, or so much thereof as shall be received from my estate by said trustees of the museum after any advancements hereafter made by me in my lifetime shall be deducted as hereinbefore provided, shall be set aside, held and used by said trustees so far as practicable as a building fund for the erection, either at one time or at different times, as said trustees shall think best, of a building or buildings to serve as a permanent home for the museum. Said trustees shall have full powers of management, control, investment and disposition of said building fund, according to the charter and the by-laws of the museum except as herein otherwise expressly provided, and they may in accordance with the authorization above expressed hold and use, if in their discretion they shall think it necessary so to do, a portion of said building fund as an addition to the above-mentioned endowment fund. In making investments of any part of said building fund it is my desire that said trustees shall have special regard to the security of the capital, and that preference be given to mortgages being a first lien upon improved and income yielding freehold real estate in the city of Chicago.

"It is my purpose and desire, in making the aggregate devise and bequest in this article of my will contained, to provide the said museum with a building or buildings suitable and adequate for its permanent home and with an endowment fund whose net income shall be sufficient for its prop-

er administration, maintenance and extension; accordingly, I direct that said building fund shall not be so exhausted or reduced by building operations at any time as to prevent or embarrass the accomplishment of my said purpose and desire in the reasonably near future, and that a part or the whole of the net annual income of said building fund shall in the discretion of said trustees be allowed to accumulate for a time, and be added to the capital, or to the unused portion of the capital, as and to the extent judged by said trustees to be necessary for the ultimate and effectual carrying out of my said purpose and desire.

SITE MUST BE DONATED.

"The entire devise and bequest herein made is, however, upon the express condition that within six years from the date of my decease there shall be provided for said museum and shall be given to it or devoted to its permanent use, without cost to it, lands and premises which shall be acceptable and satisfactory to its said trustees as a location and site for the building or buildings to be erected as its permanent home; and in the event that such lands and premises acceptable and satisfactory to its said trustees shall not be given to it, or be devoted to its permanent use within said period, and without cost to it, then the entire capital of said entire devise and bequest, together with any accumulated and unexpended income thereon, shall, upon the expiration of six years from the date of my decease, revert to and become a part of my residuary estate, and be conveyed, transferred and delivered by said trustees of the museum to my residuary trustees."

CHICAGO WATERWORKS SYSTEM.

The following table shows the growth of Chicago's waterworks system by decades since 1854, when the first large pumping station at Chicago avenue and the lake was built. [From compilations made by Assistant City Engineer J. H. Spengler.]

Yr.	Pop. (school census)	Gallons pumped per day.	Gals. per cap.	Water pipe mil. ge.	Total revenue.

TELEPHONE DECISION BY THE SUPREME COURT.

The Chicago Telephone company operating under a city ordinance of Chicago, passed in 1889, claimed that it had the right to charge increased rates for improved service and tolls for service to districts annexed to the city since 1889. This right was disputed by the city and a suit brought in September, 1905, and carried to the State Supreme court

on an appeal from an adverse decision in a lower court. In a decision, announced Feb. 15, 1906, the State Supreme court held that the ordinance of 1889, in which it was provided that the telephone rates then in force could not be increased, was valid, and that the company did not have the right to change them in the manner described.

RECREATION BUILDINGS IN PARKS.

Recreation buildings with assembly halls have been constructed in Mark White, Davis, Armour and Cornell squares, and Sherman, Ogden, Hamilton, Bessemer and Palmer parks. These buildings contain each a gymnasium for men and a gymnasium for women with suitable shower baths and plunge baths, clubrooms and a large assembly hall seating from 300 to 1,200 people. In Cornell square, Davis

square and Hamilton park the Chicago public library has established branches from which books are distributed. In each of the buildings there are a reading room and a lunch counter. In connection with the buildings on the outside are indoor gymnasiums for the use of men, women and children. Also in connection with the buildings in all of the parks there is a swimming pool for summer use.

PRINTERS

The highest price does not always mean the largest profits. Good prices should be charged, to be sure; but the percentage of gain is largely dependent on equipment and methods. For example, the average printer would lose money on an order for sales-books, even though paid considerably more than current prices. Printers of sales-books make them a specialty, and every facility for quick, accurate, economical work is provided. They make money at prices that seem so low because there is no lost time, little chance of error, no waste material.

All printers can't do a special kind of printing, of course; but every one can be a specialist to the extent of eliminating the lost time. Whenever a compositor is obliged to search over slides and stones—often through locked-up forms—for letters needed in the work in hand; whenever he must "skirmish" for leads, or slugs, or furniture, or quoins, or rule; whenever he is sent to the pressroom to change bad letters or battered rule, time is lost—costly time, for which the office does not receive one cent.

Go into your composing room this minute and quietly investigate. Look into the type cases and take careful note of the quantity of letter available and the condition of the faces. You will find many cases that need sorting up; many sadly battered faces that should be dumped.

Then write us and order new, sharp, clean-cut, SUPERIOR COPPER-MIXED FACES to replace the battered ones; or order LEADS, RULE, SLUGS, FURNITURE, etc., so that the men can do their work quickly, accurately and economically. These things will cost you nothing, for the time they will save will more than pay for them.

CHICAGO CHARTER CONVENTION.

Headquarters, 171 Washington street.
 Chairman—Milton J. Foreman.
 Vice-Chairman—Alexander H. Revell.
 Secretary—M. L. McKinley.
 Assistant Secretary—Henry Barrett Chamberlin.

First session held Dec. 12, 1905.

Committee reports made Oct. 3, 1906.

The convention is made up of delegates chosen by or representing the mayor, city council, governor, assembly, board of education, sanitary trustees, county board, public library board and the Chicago park boards. Its purpose is to frame a comprehensive, simple and elastic charter for the city of Chicago to be submitted to the state legislature for consideration. The committees and chairmen are as follows:

Municipal Elections, Appointments and Tenure of Office—Lessing Rosenthal.

Municipal Executive and Departmental Organization—Francis W. Parker.

Municipal Legislature—John P. McGoorty.

Municipal Parks and Public Grounds—Bryan Lathrop.

Law—John P. Wilson.

Rivers and Harbors—Joseph M. Patterson.

Rules, Procedure and General Plan—B. A. Eckhart.

CHICAGO CHARTER CONSTITUTIONAL.

In a decision announced Feb. 15, 1906, the State Supreme court held that the Chicago charter amendment to the constitution passed by the legislature in April, 1903, and ratified by the people of Illinois at the general election in November, 1904, was valid and that the acts passed in conformity therewith by the assembly in 1905 were therefore constitutional. These acts comprised the municipal courts law, the law extending the mayor's term to four years and making other changes as to city officers and the law regulating the price of gas and electricity.

SECOND PEACE CONFERENCE AT THE HAGUE.

In the fall of 1904 President Roosevelt, responding to a request made by the delegates of the interparliamentary union, sent a note to the powers taking part in the first peace conference at The Hague suggesting that the time was opportune for another meeting. The note met with favorable re-

sponses, but pending the conclusion of the Japanese-Russian war no time was fixed. When the war ended in 1905 Emperor Nicholas invited the nations to send delegates to The Hague. The invitations were accepted and the date of the conference was tentatively fixed for May, 1906.

ALASKA-YUKON-PACIFIC EXPOSITION.

There will be held from June 1 to Oct. 15, 1909, at Seattle, Wash., an international exposition to be known as the Alaska-Yukon-Pacific exposition. The cost is estimated at approximately \$10,000,000. Some 250 acres of the campus of the University of Washington have been selected as the site for the eleven principal exhibition buildings and other

structures of the fair. The primary purpose is to exploit the resources of the Alaska and Yukon territories in the United States and Canada. The present officers of the exposition are: J. E. Chilberg, president; I. A. Nadeau, director-general, and W. M. Sheffield, secretary.

IF you should find it necessary or desirable to communicate with a large number of persons—say 1,000,000—in the shortest possible space of time, how would you do it? Three hundred thousand postal cards sent to home addresses probably would be read by 1,000,000 persons. The names for these postal cards could be selected from the city directory, but you would meet a big obstacle in writing 300,000 addresses. The work would require 300 persons one day, 100 persons three days or, if you wanted to do it yourself, it would take you about a year. The cost of this large number of postal cards, including printing and addressing, would be over \$3,500. This method is not likely to become very popular.

There is another way to send a message to 1,000,000 persons residing in or near Chicago. It is so much better and so inexpensive that to tens of thousands of Daily News readers it has become as necessary as the street car or telephone. Here it is:

The Chicago Daily News is purchased every day by more than 300,000 persons living in or near Chicago. During the first eleven months of 1906 the number of papers sold each day averaged 318,611. Figuring on the same basis as with the postal cards—an average of three and a half readers to each paper—the result is 1,115,138 readers. You can place a twelve-word message in the hands of each of these 1,115,138 readers of The Daily News for forty cents. A lower rate could be secured by using a Daily News coupon book, and the advertiser who wants to place a message in the hands of these one million and more readers of The Daily News every day of the year can do it for a minimum cost of less than one hundred dollars. On this basis you could bring your regular business or special wants to the attention of more than 1,000,000 persons every day for 35 years by using Daily News "want ads" for the cost of reaching a smaller number of persons once by mail.

Daily News "want ads" have been the foundation of fortunes to advertisers who have used them continuously. It is a well-known fact that for years many Chicago men and women have made a good living solely from the returns they receive from the regular use of Daily News "want ads." For transient and emergency wants of business and the home, such as employing help, securing situations, buying, selling, exchanging, renting, finding lost articles, etc., Daily News "want ads" have no equal.
